HOW TO CLEAN, PROTECT & CARE FOR EXISTING POOL TILES

HEAVY CALCIUM RELEASER

Clean your pool tiles, glass, stone, metal with HEAVY CALCIUM RELEASER to safely remove calcium/scale from just about any surface without causing damage or etching.

Before

After

★ If after cleaning your tiles still look like new and are not etched you can then spray on CAL BLOCK and that's it, now maintain every 4-6 months to keep your pools surfaces always looking their best!

★ If after you clean the tiles they look color faded, etched or lost their luster, you can simply spray on TR3 to restore the tiles original appearance. Maintain with Cal Block every 4-6 months to keep these tiles always looking their best or with TR3 if they need another touch up to their gloss.
