

## ***The Chamber is...***

A coalition of area businesses, industries, organizations, and professionals who bring together their talents and resources to improve the economic, civic, and cultural climate of their community. The Chamber also provides information and assistance to visitors and newcomers.

Our economic development team facilitates the establishment of new businesses and the expansion of existing ones, creating more paying customers to consume more goods and services, more jobs closer to home and a more balanced tax base.

The Chamber has a strong alliance with education, homeowners and businesses to create a better community for everyone. An investment in the Lee County Chamber is an investment in your personal, professional and community's growth and success!
