FormBoss STEEL GARDEN EDGING

Your complete edging solution, over 800kms sold to happy customers Australia wide!

Exclusive FormBoss™ Safety Lip. Ideal for parks and public spaces, and completely safe for children and pets.

We include FREE smart connectors and self drilling screws with every order!

Why choose FormBoss® Steel Garden Edging?

- **Elegant** A seamless line with virtually invisible joins, hidden connectors and stakes.
- **Shapeable** Create any shapes you want, intricate curves,tight bends to endless straights.
- **Strong** Stronger than aluminium and traditional edging. Flexible prior to installation.
- **Durable** Steel does not crack, split, rot or dint, guaranteed to last for at least 10 years.
- **Safe** The rolled top hides the connectors and stakes, so you can't injure yourself.
- **Applications** Suitable for footpaths, driveways, retaining walls, garden beds and steps.
- **Choice** Available in three finishes, eight different heights and three gauges.
- **Value** Cheaper than plate steel, aluminium or concrete edging.
- **Easy** Anyone can install **FormBoss®** steel edging!

Galvanised FormBoss® Edging Systems: The original, durable & affordable.

Description: Durable hot dip galvanising protects the inner steel from corrosion. It is cold rolled to stand up to harsh conditions for long periods.
Appearance: Galvanised steel appears metallic with spangles. The shine does dull down over time, leaving a more matte grey.
Expected Lifespan: 15-40 years, lifespan is highly dependent on external conditions, including drainage, application and existing soil conditions.
Structural Guarantee: 10 years
Steel Origin: Bluescope Steel, Australia
Manufactured In: Melbourne
Benefits: You can paint Galvanised steel any colour you like. Visit our website for tips and tricks.

ZAM®

We include FREE smart connectors and self drilling screws with every order!

GUARANTEED FOR ~10 YEARS~ Structural Guarantee See website for T & C's

FormBoss STEEL GARDEN EDGING

ZAM® FormBoss® Edging Systems: Self-healing corrosion proof steel. 15 year guarantee!

Description: Incredibly durable, it was designed for extremely high corrosive environments. Patented zinc, magnesium and aluminium alloy coating. Developed by a large Japanese corrosion research team and tested by the French corrosion institute, ZAM® was engineered for the automotive industry and designed for countries with the harshest weather conditions. In tests conducted by the French corrosion's institute, ZAM® has been shown to dramatically out perform Galvanised steel in highly corrosive situations like marinas, boat sheds, industrial environments, even pool and spa areas. What this means is ZAM®'s satin like finish gives a much brighter cleaner look compared to galvanised steels 'mottled look'. The finish will last for many years to come and look as stunning as the day you installed it, adding value and aesthetic appeal.
Appearance: ZAM® steel appears silver like the galvanised edging, but without the spangle. It is a shinier silver look with a raindrop texture.
Expected Lifespan: 15-40+ years. Lifespan is highly dependent on external conditions, including drainage, application and existing soil conditions.
Structural Guarantee: 15 years.
Steel Origin: Nisshin Steel, Japan.
Manufactured In: Melbourne
Benefits: Ultimate durability, surpassed only by Stainless steel, yet ZAM® is much more affordable. Great scratch resistance and self-healing.

ZAM® steel edging

Item Code	ZAM® Applications	(inc. GST)
	2.0mm gauge to suit commercial applications or long straight lines. Supplied with Galv tek screws & 1 connector per length.	**2.44m Length**

GUARANTEED FOR ~10 YEARS~ Structural Guarantee See website for T & C's

FormBoss STEEL GARDEN EDGING

REDCOR® steel FormBoss® Edging Systems: A natural look that is incredibly durable!

Description: Australian made REDCOR® steel replaces imported "Corten" steel and is fast becoming a designer's best friend. Despite its natural rusty look, REDCOR® steel offers great durability.
Appearance: At first, REDCOR® steel appears light grey once the oils break down, over time you'll get an even rusted coating (avg: 1-3 months)
Expected Lifespan: 15-40 years. Lifespan is highly dependent on external conditions, including drainage, application and existing soil conditions.
Structural Guarantee: 10 years. It is highly recommended that you seal the inside of any profiles above 150mm with Penetrol for best durability.
Steel Origin: BlueScope Steel, Australia.
Manufactured In: Melbourne.
Benefits: Incredibly popular in our taller profiles rolled into circular drums to form herb and veggie gardens. Offering an earthy, natural appearance.

Custom shaped steel edging

GUARANTEED FOR ~10 YEARS~ Structural Guarantee See website for T & C's

FormBoss STEEL GARDEN EDGING

Custom Tree Rings, Corner Pieces & Angle Brackets

Rings: One 2.44m length provides a 777mm diameter circle. Two lengths provides a 1554mm circle (custom diameters also available).
We attach one side of your connector, so all you need to do is loop the ring around your feature and insert two self tapping screws. Custom order fully enclosed rings also supplied.
Angles: Profiles 185mm and lower are easy to form angles on site. We provide corner pieces for larger more difficult to bend profiles.
Custom Fabrication: We can produce intricate shapes for you in our factory. If there are multiple tight curves and acute angles it may be easier for us to produce them for you. You will also end up with a job that meets specifications exactly.
Manufactured In: Melbourne.

	FormBoss® Custom Production (Extra lead time applies 3-5 days) Specify material, **GALV, ZAM®** and **REDCOR®** steel are all the same price. All orders to be prepaid.	**(inc. GST)**
Item Code	**Rolling of a single ≤ 2.44m length into a ring or arc on lengths already purchased.** Supplied with Galv tek screws & 1 curved connector.	**Per Rolled Length**
ROLL75-185	Length of FormBoss® rolled to a given diameter, Profiles 75mm-185mm (x2 screws)	$29.99
ROLL230-390	Length of FormBoss® rolled to a given diameter, Profiles 230mm-390mm (x4 screws)	$47.99
ROLL580	Length of FormBoss® rolled to a given diameter, Profiles 580mm (x4 screws)	$57.99
Item Code	**Custom right angle bends on lengths already purchased.** Specify both dimensions and which side the lip is on.	**Per Bend**
BEND230	FormBoss® custom angle bend, 230mm profile	$10.99
BEND290	FormBoss® custom angle bend, 290mm profile	$12.09
BEND390	FormBoss® custom angle bend, 390mm profile	$13.19
BEND580	FormBoss® custom angle bend, 580mm profile	$14.29
Item Code	**Corner Pieces for 230mm and higher profiles.** Supplied with Galv tek screws & 1 connector.	**Per Item**
CORNER230	FormBoss® corner piece 230mm profile 90 degrees 300mm x 300mm (x4 screws)	$33.88
CORNER290	FormBoss® corner piece 290mm profile 90 degrees 300mm x 300mm (x4 screws)	$43.99
CORNER390	FormBoss® corner piece 390mm profile 90 degrees 300mm x 300mm (x4 screws)	$55.55
CORNER580	FormBoss® corner piece 580mm profile 90 degrees 300mm x 300mm (x4 screws)	$65.99
Item Code	**'L' shaped angle brackets, for rooftops and fixing to solid surfaces.** Available in other heights on request. Galv tek screws.	**Per Item**
AB100	Angled brackets 100mm high 100mm foot x 80mm wide x 2.5mm gauge (x1 screw)	$5.49
AB200	Angled brackets 200mm high 100mm foot x 80mm wide x 2.5mm gauge (x1 screw)	$8.24

	FormBoss® Accessories	**(inc. GST)**
Item Code	**Installation tools, to make installation easy!**	**Per Item**
RS	Rubber Forming strip 3mm x 20mm Neoprene, make tight curves a breeze	$14.29
TH	Tek screw drill bits 8mm used to drive the tek screws in like a pro	$6.60
VG	Wide brimmed vise grip	$17.59
RM	Rubber Mallet 1.2kg with red fibreglass handle	$26.39
IK	Installation Kit (Rubber forming strip, Tek Bit, Vise Grip and Rubber Mallet)	$55.00

A rubber mallet is crucial, as metal hammers will damage the edging. We highly recommend our Rubber Forming Strip when creating tight curves on site, it fits underneath the safety lip to allow you to curve the edging more aggressively. A wide brimmed vice grip will ensure all of your connections are virtually seamless. You will definitely need a drill and a 8mm hex bit.
