# Testimonials

## Here's what others have to say about Comline™ Fencing

"CMI's Comline™ Fencing was the natural choice when choosing a new fence for my home. CMI had a wide range of colour combinations to choose from and supplied a great "how to" guide that made for a hassle free installation. The Comline™ fence has added value and security to my property."

Steve Dorrington, High Wycombe

"Our company used CMI Comline™ Fencing on a large housing project upgrade in the iron ore mining town of Newman. The quality of product and service we received from CMI was second to none. We look forward to using their product on future projects."

Wayne Smith, Manager, Building Co., Newman

# fencing solution

Add value with the strength and style of Comline™ Fencing

# Create attractive fencing with the strength and security of COLORBOND™ steel

Fencing has never looked so good. Combined Metal Industries range of fencing solutions are available in a wide range of colours and accessory options that can be mixed and matched to create a unique and impressive look for any home or building. With components that are built from COLORBOND™ steel and engineered to exceed fencing industry standards, Comline™'s great looking fences also provide superior strength and security. These key benefits are enhanced by the fact that Comline™ Fencing is simple to install, easy to maintain and backed up by a comprehensive 10 year warranty\*.

## ATTRACTIVE STYLE AND FLEXIBLE DESIGN

Create the fencing look that matches the landscape it surrounds. With Comline™ Fencing you can mix and match colours for your fence, panels, rails, posts and gates from an extensive range of colours in COLORBOND™ Steel. For further style and privacy, Comline™ Lattice Plus will give you an additional lattice top to your fence that increases fence's design appeal whilst further reducing visibility from the outside. Comline™ Fencing also provides an array of accessories for further customisation and its flexible design means it can be integrated with other landscape features (eg it can be installed on top of limestone walls).

## STRENGTH AND SECURITY

Comline™ Fencing provides the very best in strong and secure fencing. Manufactured by Combined Metal Industries, Comline™ Fencing combines the highest quality Australian COLORBOND™ Steel with advanced manufacturing techniques that comply to relevant Australian Standards. The end result is a fence you can rely on to be highly durable, rot and termite resistant, fire proof, corrosion resistant and wind rated to Australian Standards AS/NZS 1170:2:2002. Security is also improved, as the close fitting panels and smooth surface on both sides mean there are no gaps to see through or footholds to gain access from.

“Comline™ Fencing is simple to install, easy to maintain and backed up by a comprehensive 10 year warranty”

**WA  
FOCUSED  
SERVICE AND SUPPORT**

Comline™ Fencing is made in WA by Combined Metal Industries (CMI), the largest WA owned manufacturer of residential steel roofing products. CMI is one of Bluscope Steel's major clients. Being a local company, you can rely on CMI's personalised and timely service, as WA is our primary market and our total focus.

**EASY INSTALLATION AND SIMPLE MAINTENANCE**

The modular, component based nature of Comline™ Fencing makes DIY installation a reasonably simple task. CMI have a Comline™ Fencing Installation Guide that takes you step by step through the installation process. Maintaining the look of a Comline™ Fence is also a breeze, with a regular hose down of the fence to keep it looking brand new.

**THE COMLINE™ FENCING  
10 YEAR WARRANTY**

Combined Metal Industries back up our Comline™ Fencing with a comprehensive “10 Year Structural Perforation Warranty”. The Comline™ Fencing 10 Year Warranty gives you complete peace of mind that your fence will deliver the results we promise, providing it is installed and maintained in accordance with specifications. Full details of warranty conditions can be provided on request.
