

Ezytube™

The World's Simplest Column Forming Tube

- ☐ Fast-tracks projects
- ☐ Simplifies labour
- ☐ Saves time
- ☐ Reduces costs
- ☐ No cranes needed
- ☐ Strip from the ground
- ☐ Revolutionise your work site
- ☐ "Pour Up" or "Pour Down"

Do it the Ezy way!

Ezytube Pty Ltd pride ourselves on providing the Construction Industry easier, safer and more efficient methods of forming Concrete Columns.

We can supply either spiral or high quality plastic lined tubes for creating round concrete columns. We can also provide innovative new lightweight tube forms for creating Square, Rectangular, oval or custom shaped concrete columns.

Optional features such as the "EzyStrip Tape" allows simple and fast removal of the tube after pouring, without the need for unsafe electric power tools!

Lightweight

Due to Ezytube's™ lightweight properties tubes of up to 4.5 metres in length are easily handled by one person.

Fast track projects - strips in minutes from ground level

1 Detach base of "EzyStrip Tape" from tube

2 Pull evenly on "EzyStrip Tape"

3 Remove tube from the column

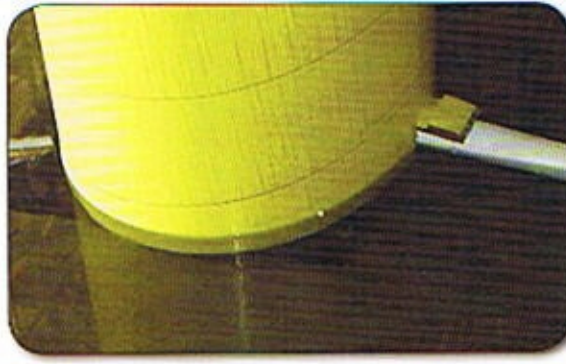

4 Finished! Removed in minutes

Square & Rectangular columns.
Faster and lighter than any competitive method

Weather resistant. Easily cut with a knife to shorten or accommodate protrusions
