Buxus	sempervirens		Common Boxwood - An elegant evergreen shrub, it has been used in gardens for centuries. Matures at 7 feet tall and 6 feet wide. Full Sun or light to deep shade.
Buxus	sempervirens	'Argenteo-Variegata'	Variegated Boxwood - A nice evergreen shrub to lighten up a shady place. Matures at 5feet tall and 4 feet wide. Full Sun, light to deep Shade
Buxus	sempervirens	'Graham Blandy'	Columnar Boxwood – This dense column of glossy green foliage makes a fine punctuation mark in the landscape. Matures at 6' tall x 2' tall. Prefers full to partial sun. Hardy in zones 5-9.
Buxus	sempervirens	'Green Velvet'	Green Velvet Boxwood - broad-mounded, compact boxwood that will mature to 2-4' tall and as wide. It has glossy, dark green leaves and it is evergreen. Prefers full to partial sun. Hardy in zones 5-8.
Buxus	sempervirens	'Suffruticosa'	Dwarf English Boxwood - One of the best choices for a low, small hedge. Compact habit and slow growth ideal for clipping. Matures at 2 feet with an equal spread. Full Sun, Light to deep Shade. Zone 6-8
Buxus	sempervirens	'Variegata'	Variegated Boxwood – This dense, mounded, compact evergreen shrub has green foliage with a creamy white margin. Matures at 3-5' tall x 3-4' wide. Prefers full to partial sun. Hardy in zones 6-8.
Calycanthus	raulstonii	'Hartlage Wine'	Hartlage Wine Carolina Allspice – Fragrant burgundy flowers bloom in summer on this rounded suckering shrub. Medium green foliage turns golden in fall. Prefers full to partial shade and moderately moist soil. Tolerant of deer and clay soil. Deciduous. Reaches 8-10' tall x wide. Hardy in zones 5-9.
Callicarpa	bodinieri var.giraldii	'Profusion'	Profusion Beautyberry - In early autumn arching branches are loaded with glowing purple berries. Matures at 6 feet tall with an equal spread. Full Sun, Light to open Shade. Zone 7 to 9
Calluna	vulgaris		Common Heather & Cultivars
Camellia	japonica	'April Kiss'	April Kiss Camellia - Medium deep pink full blooms are set against deep green glossy evergreen foliage. Matures at 8-12' tall x 4-5' wide. Prefers shade to partial sun. Hardy to zone 6.

Camellia	japonica	'April Tryst'	April Tryst Camellia – This evergreen shrub has dark glossy green leaves adorned with fragrant, red flowers. Prefers shade to partial sun. Matures at 5-8' tall x 3-4' wide. Hardy in zones 6-9.
Camellia	japonica	'Nuccio's Pearl'	Nuccio's Pearl Camellia - This evergreen shrub has dark glossy green leaves adorned with fragrant, pale pink blushed flowers. Prefers shade to partial sun. Matures at 4-6' tall x 6-8' wide. Hardy in zones 7-10.
Camellia	japonica	'Rosehill Red'	Rosehill Red Camellia - This evergreen shrub has dark glossy green leaves adorned with fragrant, deep red flowers. Prefers shade to partial sun. Matures at 4-6' tall x 6-8' wide. Hardy in zones 7-10.
Camellia	japonica	'White Nun'	White Nun Camellia - This evergreen shrub has dark glossy green leaves adorned with fragrant, crisp white flowers. Prefers shade to partial sun. Matures at 4-6' tall x 6-8' wide. Hardy in zones 7-10.
Camellia	sasanqua	'Setsugekka'	Setsugekka Camellia - This evergreen shrub has dark glossy green leaves adorned with fragrant, crisp white flowers with bold golden yellow stamen. Prefers shade to partial sun. Matures at 10' tall x 5' wide. Hardy in zones 7-10.
Camellia	x	'Winter's Snowman'	Winter's Snowman Camellia - This evergreen shrub has dark glossy green leaves adorned with fragrant, crisp white flowers with ruffled petals. Prefers shade to partial sun. Matures at 4-6' tall and wide. Hardy in zones 7-10.
Ceanothus		'Diamond Heights'	Diamond Heights Ceanothus – This low growing evergreen to semi evergreen sub shrub has golden variegated foliage and small periwinkle blue flowers. Matures at 1' tall x 3-5' wide. Prefers full sun. Hardy in zones 9-10.
Ceanothus	impressus	'Dark Star'	Dark Star Ceanothus – This evergreen shrub has dark green foliage accented with periwinkle blue foliage. Matures at 4-6' tall and wide. Prefers full sun. Hardy in zones 9-10.
Ceanothus	impressus	'Victoria'	Victoria California Lilac - The hardiest variety available indigo blue flowers look great against dark evergreen foliage. Matures at 6 feet tall and 4 feet wide Full Sun. Zone 7-9.
Chaenomeles		'Fuji'	Fuji Flowering Quince – Bears single scarlet-orange flowers in spring that are followed by small fruit. Matures at 5-6' tall and wide. Prefers full sun. Hardy to zone 5.
Chaenomeles		'Pink Storm'	Pink Storm Flowering Quince – Produces double pink flowers in spring. This is a dense, broad-rounded, thornless, deciduous shrub with dark green glossy leaves. Matures at 3-4' tall and wide. Prefers full sun. Hardy in zones 5-9.
Chaenomeles		'Toyo Nishiki'	Toyo Nishiki Flowering Quince - Produces double blooms of light to dark pink in spring. This is a dense, broad-rounded, thornless, deciduous shrub with dark green glossy leaves. Matures at 3-4' tall and wide. Prefers full sun. Hardy in zones 5-9.
Chaenomeles	speciosa	'Kan Toyo'	Kan Toyo Flowering Quince – Produces creamy white to light pink blooms in spring. This is a dense, broad-rounded, thornless, deciduous shrub with dark green glossy leaves. Matures at 3-4' tall and wide. Prefers full sun. Hardy in zones 5-9.
Chaenomeles	speciosa	'Orange Storm'	Orange Storm Flowering Quince - Produces double scarlet orange blooms in spring. This is a dense, broad-rounded, thornless, deciduous shrub with dark green glossy leaves. Matures at 3-4' tall and wide. Prefers full sun. Hardy in zones 5-9.
Chaenomeles	speciosa	'Scarlet Storm'	Scarlet Storm Flowering Quince - Produces double scarlet red blooms in spring. This is a dense, broad-rounded, thornless, deciduous shrub with dark green glossy leaves. Matures at 3-4' tall and wide. Prefers full sun. Hardy in zones 5-9.
Choisya	ternata		Mexican Orange – This round evergreen shrub has dark, glossy green leaves. Flowers are pure white with orange blossom fragrance. Matures at 6-8' tall and wide. Prefers full to partial sun. Hardy in zones 7-9.

Choisya	ternata	'Aztec Pearl'	Aztec Pearl Mexican Orange - This round evergreen shrub has dark, glossy slender green leaves. Flowers are pure white with orange blossom fragrance. Matures at 4-6' tall and wide. Prefers full to partial sun. Hardy in zones 8-9.
Choisya	ternata	'Sundance'	Golden Mexican Orange - This round evergreen shrub has light yellow leaves. Flowers are pure white with orange blossom fragrance. Matures at 6' tall and wide. Prefers full to partial sun. Hardy in zones 8-10.
Cistus		'Grayswood Pink'	Grayswood Pink Rockrose – This mound shaped evergreen shrubs has grey-green foliage with beautiful light pink single petaled blooms through the summer months. Matures at 2' tall and wide. Prefers full sun. Hardy in zones 8-10.
Clethera	alnifolia	'Crystalina'	Crystalina Summersweet - Sweetly fragrant pure white flowers deciduous shrub that offers medium green foliage that turns shades of red and orange in fall. Matures at 2-3' tall x 3-4' wide. Prefers partial to full sun. Hardy in zones 3-9.
Clethera	alnifolia	'Hummingbird'	Hummingbird Summersweet – This compact deciduous shrub offers fragrant bottlebrush shaped blooms in summer and medium green foliage that turns burnished in fall. Matures at 3-4' tall and wide. Prefers partial to full sun. Hardy in zones 3-9.
Clethera	alnifolia	'Ruby Spice'	Ruby Spice Summersweet - Sweetly fragrant rose pink flowers deciduous shrub that offers medium green foliage that turns shades of red and orange in fall. Matures at 4-6' tall x 3-5' wide. Prefers partial to full sun. Hardy in zones 4-8.
Clethera	alnifolia	'Sixteen Candles'	Sixteen Candles Summersweet - Sweetly fragrant creamy white flowers deciduous shrub that offers medium green foliage that turns shades of red and orange in fall. Matures at 4-5' tall x 2-3' wide. Prefers partial to full sun. Hardy in zones 4-9.
Cornus	alba	'Bailhalo'	Ivory Halo Twig Tartarian Dogwood – A multi-stemmed suckering shrub, noted for its colorful red branches in the winter landscape. Foliage is variegated green and creamy white. Flowers are a discreet creamy white that give way to white berries. Deciduous. Prefers full to partial sun and tolerates are range of soil conditions. Reaches 4-6' tall x wide. Hardy in zones 3-7.
Cornus	alba	'Budd's Yellow'	Budd's Yellow Twig Dogwood – This cultivar is noted for its bright yellow twigs in winter. It is a rapid-growing, multi-stemmed, deciduous shrub. Medium green foliage turns a deep red in fall. Matures at 5-8' tall and wide. Prefers full to partial sun. Hardy in zones 3-7.
Cornus	alba	'Elegantissima'	Variegated Red Twig Dogwood - Bright variegated leaves emerge in the spring. Vibrant red twigs add interest to the winter garden. Matures at 8' tall and 5 feet wide. Full Sun or light dappled Shade. Zone 2-8
Cornus	alba	'Kesselgii'	Black Twig Dogwood - Unique shiny deep purple black stems. Tolerates damp or dry soils. Matures at 8 feet tall with a 5 foot spread. Full Sun or light to dappled shade.
Cornus	alba	'Siberica Variegata'	Variegated Twig Tartarian Dogwood – A multi-stemmed suckering shrub, noted for its colorful red branches in the winter landscape. Foliage is variegated green and white. Flowers are a discreet creamy white that give way to white berries. Deciduous. Prefers full to partial sun and tolerates are range of soil conditions. Reaches 4-7' tall x 3-5' wide. Hardy in zones 3-7.
Cornus	sanguinea	'Midwinter Fire'	Midwinter Fire Red Twig Dogwood – Bright tangerine to reddish colored stems add winter interest to the landscape. This is a multi-stemmed deciduous shrub with medium green foliage that turns golden in fall. Matures at 5-6' tall and wide. Prefers full to partial sun. Hardy in zones 5-7.

Euonymus	fortunei	'Emerald & Gold'	Emerald & Gold Euonymus - This variegated yellow and green evergreen shrub has a rounded habit and responds well to a pruning. Matures at 3' x 3' wide. Prefers full to partial sun. Hardy in zones 5-8.
Euonymus	fortunei	'Harlequin'	Harlequin Euonymus – This Beautiful evergreen shrub has heavily variegated foliage of green and ivory. In autumn, the leaves take on a slight blush that continues through winter. Matures at 3' x 3' wide. Prefers partial sun. Hardy in zones 5-8.
Euonymus	fortunei	'Interbolwi'	Blondy Euonymus – This evergreen shrub has a mounding habit and dark green and bright yellow foliage. Matures at 2' tall and wide. Prefers full to partial sun. Hardy in zones 5-8.
Euonymus	fortunei	'Mickaela'	Summer Runner Euonymus – This evergreen shrub offers variegated buttery yellow leaves with deep green margins. Reaches 12" tall x 20" wide. It forms an irregular mounding habit. Prefers full to partial sun. Hardy to zone 4.
Euonymus	fortunei	'Silver Queen'	Silver Queen Euonymus – This upright evergreen shrub has a glossy variegated leaves with creamy white margins. Matures at 6' tall x 3' wide. Prefers full to partial sun. Hardy in zones 6-9.
Euonymus	fortunei	'Sparkle n' Gold'	Sparkle n' Gold Euonymus – This mounding evergreen shrub has green foliage with yellow margins. Matures at 3' x and 1.5' wide. Prefers full to partial sun. Hardy to zone 5.
Euonymus	fortunei	'White Album'	White Album Euonymus – This evergreen shrub has pronounced white margined foliage with medium green centers. Matures at 1.5-2' tall and wide. Prefers partial sun. Hardy in zones 5-8.
Euonymus	japonicus	'Aureo-Marginatus'	Gold Edge Euonymus – This upright evergreen shrub has golden edged leaves with green centers. Matures at 5' tall x 4' wide. Prefers full sun. Hardy in zones 6-9.
Euonymus	japonicus	'Emerald Gold'	Emerald Gold Euonymus – This low growing evergreen shrub has showy variegated foliage in light and medium green that becomes tinged with a pink-red shade. Matures at 1.5-2' tall and wide. Prefers full to partial sun. Hardy in zones 5-8.
Euonymus	japonicus	'Green Spire'	Green Spire Boxleaf Euonymus – This evergreen shrub has dark green glossy foliage and an upright habit making it ideal for a punctuation mark in the landscape or a hedging plant. Matures at 6' tall x 2' wide. Prefers full sun. Hardy to zone 6.
Euonymus	japonicus	'Happiness'	Happiness Euonymus – This evergreen shrub has bright golden new growth that matures to deep green. It has an upright habit and matures at approx. 2' tall and wide. Prefers full sun. Hardy to zone 6.
Euonymus	japonicus	'Microphyllus'	Boxleaf Euonymus – This slow growing upright evergreen shrub has green foliage with a creamy white margin. Matures at 1-2 feet tall and wide. Prefers full sun or partial shade. Hardy to zone 6.

Euonymus	japonicus	'Paloma Blanca'	Paloma Blanca Euonymus - This evergreen shrub has bright white new growth that ages to deep green. It has an upright habit and matures at 2' tall and wide. Prefers partial sun. Hardy to zone 6.
Euonymus	japonicus	'Silver King'	Silver King Euonymus - A useful evergreen shrub with upright habit and medium green foliage with creamy white edging. Matures 6' tall x 3' wide. Prefers full to partial sun. Hardy in zones 6-9.
Fatsia	japonica		Japanese Aralia - This exotic looking evergreen shrub has broad palmate dark green leaves and unique spherical flower cluster. It is statuesque and striking in the landscape. Maturing at 10-12' tall and wide. Prefers partial to full shade. Hardy in zones 7-10.
Fatsia	japonica	'Spider Web'	Spider Web Japanese Aralia - This exotic looking evergreen shrub has broad palmate green leaves with splashy creamy white markings and unique spherical flower cluster. It is statuesque and striking in the landscape. Maturing at 10-12' tall and wide. Prefers partial to full shade. Hardy in zones 7-10.
Fatsia	japonica	'Variegata'	Variegated Japanese Aralia - This exotic looking evergreen shrub has broad palmate green leaves with creamy white margins and unique spherical flower cluster. It is statuesque and striking in the landscape. Maturing at 10-12' tall and wide. Prefers partial to full shade. Hardy in zones 7-10.
Fothergilla	gardenii		Dwarf Witch Alder - This deciduous shrub has medium green leaves with bottle brush white blooms in spring. The fall foliage show ranges from orange to red tones. Matures at 5' tall and wide. Prefers full sun to partial shade. Hardy in zones 5-9.
Fothergilla	gardenii	'Blue Mist'	Blue Mist Fothergilla - This deciduous shrub has blue green leaves with bottle brush white blooms in spring. The fall foliage show ranges from orange to red tones. Matures at 2-3' tall and wide. Prefers full sun to partial shade. Hardy in zones 5-8.
Fothergilla	Major	'Mt. Airy'	Mt. Airy Fothergilla - The beautiful deciduous shrub that has a creamy white bottle brush flowers in spring. Foliage is a medium green and turns a brilliant array of yellow, orange and red. Prefers partial sun in moderately moist well-drained soil. Reaches 3-5' tall x wide. Hardy to zone 5-8.
Forsythia	x intermedia	'Courtasol'	Courtasol Forsythia - This deciduous shrub has a compact mound forming habit. It bears golden flowers in spring followed by medium bright green foliage. Fall foliage color is yellow to a burnished copper. Matures at 4' tall and wide. Prefers full to partial sun. Hardy to zone 4.
Forsythia	x intermedia	'Flojor'	Flojor Forsythia - This compact deciduous shrub has a mounding habit. It offers golden blooms in early spring followed by medium green and white variegated foliage. Fall color is yellow to a burnished plum color. Matures at 2' tall and wide. Prefers full to partial sun. Hardy to zone 5-8.
Forsythia	x intermedia	'Lynwood Gold'	Lynwood Gold Forsythia - This deciduous shrub has an upright forming habit. It bears golden flowers in spring followed by medium bright green foliage. Fall foliage color is yellow to a burnished copper. Matures at 6-9' tall and wide. Prefers full to partial sun. Hardy in zone 5-8.
Forsythia	x intermedia	'Northern Gold'	Northern Gold Forsythia - This deciduous shrub has an upright forming habit. It bears golden flowers in spring followed by medium bright green foliage. Fall foliage color is yellow to a burnished copper. Matures at 8-6' tall and wide. Prefers full to partial sun. Hardy in zone 4-8.
Forsythia	x intermedia	'Show Off'	Show Off Forsythia - This deciduous shrub has an upright forming habit. It bears golden flowers in spring followed by medium bright green foliage. Fall foliage color is yellow to a burnished copper. Matures at 3-6' tall and wide. Prefers full to partial sun. Hardy in zone 5-8.
Forsythia	x intermedia	'Spring Glory'	Spring Glory Forsythia - This deciduous shrub has an upright forming habit. It bears golden flowers in spring followed by medium bright green foliage. Fall foliage color is yellow to a burnished copper. Matures at 6-8' tall and wide. Prefers full to partial sun. Hardy in zone 4-8.

Gardenia	jasminoides	'Kleims Hardy'	Kleims Hardy Gardenia – This exceptional selection is valued for its cold hardiness to zone 7. It features dark glossy green foliage and elegant fragrant creamy white blooms. It has a rounded, mounding habit. Matures at 2-3' tall and wide. Prefers partial sun. Hardiness zones 7-10.
Genista	pilosa	'Vancouver Gold Broom'	Vancouver Gold Broom – This evergreen sub shrub has golden flowers in spring followed by medium green lance shaped leaves. Matures at 1' tall x 3' wide. Prefers full sun. Hardy in zones 5-8.
Hamamelis	intermedia	'Arnold's Promise'	Arnold's Promise Witchhazel – This upright deciduous shrub has a vase like shape and golden tassel like flowers in late winter. The blooms are followed by significant medium green crinkled leaves that offer rich fall color. Matures at 12-15' tall x 10' wide. Prefers full to partial sun. Hardy in zones 5-8.
Hamamelis	intermedia	'Diane'	Diane Witchhazel - This upright deciduous shrub has a vase like shape and copper tassel like flowers in late winter. The blooms are followed by significant medium green crinkled leaves that offer rich fall color. Matures at 8' tall x 10' wide. Prefers full to partial sun. Hardy in zones 5-8.
Hamamelis	intermedia	'Jelena'	Jelena Witchhazel - This upright deciduous shrub has a vase like shape and orange-copper tassel like flowers in late winter. The blooms are followed by significant medium green crinkled leaves that offer rich fall color. Matures at 8' tall and wide. Prefers full to partial sun. Hardy in zones 5-8.
Hamamelis	mollis		Chinese Witchhazel - This upright deciduous shrub has a vase like shape and golden tassel like flowers in late winter. The blooms are followed by significant medium green crinkled leaves that offer rich fall color. Matures at 10' tall x 10' wide. Prefers full to partial sun. Hardy in zones 5-8.
Hamamelis	virginiana		Common Witchhazel - This upright deciduous shrub has a vase like shape and golden tassel like flowers in fall. The blooms are followed by significant medium green crinkled leaves that offer rich fall color. Matures at 15' tall x 15' wide. Prefers full to partial sun. Hardy in zones 3-8.
Hebe	buxifolia		Boxleaf Hebe – This small evergreen shrub has oval-leaves in glossy green. White bottlebrush blooms are offered in summer. Matures at 3' tall x 5' wide. Prefers full sun. Hardy in zones 8-9.
Hebe	mckeanii		Mckean Hebe – This mound forming evergreen shrub has tight dark green foliage with white blooms in summer. Matures at 1' tall and wide. Prefers full sun. Hardy to zone 8.
Hebe	ordora	'New Zealand Gold'	New Zealand Gold Hebe – This handsome upright evergreen shrub has a golden stem and dark green leaves that radiate off of the stem giving it a unique appearance reminiscent of a bottle brush. Matures at 5' tall and wide. Prefers full sun. Hardy in zones 7-9.
Hebe	topiaria		Topiaria Hebe – This evergreen shrub has blue green foliage on a mound shaped form. Small white bottle brush-like blooms are borne in summer. Matures at 4' tall x 5' wide. Prefers full sun. Hardy in zones 7-9.
Hebe		'Red Edge'	Red Edge Hebe - This evergreen shrub has green foliage tipped with a rose red coloration. The branches have an upright habit. Small white bottle brush-like blooms are borne in summer. Matures at 4' tall x 5' wide. Prefers full sun. Hardy in zones 9-10.
Hedera	helix	'Congesta'	Italian Ivy Tree - This is a non-climbing dwarf evergreen shrub has erect branches with dark green leaves. This is a nonflowering variety. Matures at 2' tall and 18" wide. Prefers sun to partial shade. Hardy in zones 6-9.
Heptacodium	miconiodes		Seven Son Flower – This deciduous shrub has a weeping fountain-shape. Features fragrant, creamy-white flowers in late summer. Matures at 15' tall x 8' wide. Prefers full sun. Hardy in zones 5-9.
Hydrangea	anomala		Climbing Hydrangea – This climbing hydrangea has a vigorous, sprawling habit. It is a deciduous, woody vine uses aerial roots to cling and climb. It has heart shaped medium green leaves and creamy white lace cap blooms. Matures at 30' x 5' wide. Prefers partial sun to shade. Hardiness zones 4-8.

Hydrangea	anomala ssp.petiolaris	'Tillifolia'	Climbing Hydrangea – This climbing deciduous hydrangea has rounded dark green, shiny leaves and creamy white lace cap blooms. Matures at 30' x 5' wide. Prefers partial sun to shade. Hardiness zones 4-8.
Hydrangea	arborescens	'Abetwo'	Incrediball Smooth Hydrangea - It features large pure white flower heads in summer contrasted by dark green foliage. Deciduous. Matures at 4-5' tall and wide. Prefers partial sun to partial shade. Hardy in zones 3-9.
Hydrangea	arborescens	'Annabelle'	Annabelle Smooth Hydrangea – This deciduous smooth hydrangea features large white flowers. It has a rounded habit and medium green foliage. Matures at 3-5' tall and wide. Prefers partial sun to partial shade. Hardy in zones 3-9.
Hydrangea	arborescens	'Lime Rickey'	Lime Rickey Smooth Hydrangea – This deciduous shrub has large full mophead blooms of light-green in summer. It has medium green foliage. Matures at 3-4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 3-9.
Hydrangea	arborescens	'NCHA1'	Invincibelle Spirit Smooth Hydrangea - This deciduous smooth hydrangea features large soft pink flowers. It has a rounded habit and medium green foliage. Matures at 3-5' tall and wide. Prefers partial sun to partial shade. Hardy in zones 3-9.
Hydrangea	macrophylla		Bigleaf Hydrangea - This deciduous hydrangea features medium sized mop head blooms in shades of pink to blue depending on the soil acidity. It has a rounded habit and medium green foliage. Matures at 3-6' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.
Hydrangea	macrophylla	'Abracadabra'	Abracadabra Hydrangea - This deciduous hydrangea features medium sized mop head blooms in shades of pink on dark black stems. It has a rounded habit and medium green foliage. Matures at 3-4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.
Hydrangea	macrophylla	'Alpengluhen'	Glowing Embers Hydrangea - This deciduous hydrangea features medium sized mop head blooms in deep rose. It has a rounded habit and medium green foliage. Matures at 4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.
Hydrangea	macrophylla	'Bailmer'	Endless Summer Hydrangea - This deciduous hydrangea features medium sized mop head blooms in shades of blue. It has a rounded habit and medium green foliage. Repeat bloomer. Matures at 4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Hydrangea	macrophylla	'Cityline Rio'	Cityline Rio Hydrangea - This deciduous hydrangea features medium sized mop head blooms in shades of blue to purple that are lime centered when first opening. It has a rounded habit and medium green foliage. Matures at 2-3' tall and wide. Prefers partial sun to partial shade. Hardy in zones 5-9.
Hydrangea	macrophylla	'Dancing Snow'	Wedding Gown Double Delight Hydrangea - This deciduous hydrangea features medium sized mop head blooms with double white blooms that emerge tinged in soft green. It has a rounded habit and medium green foliage. Matures at 2-3' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.
Hydrangea	macrophylla	'Hokomarevo'	Everlasting Revolution Hydrangea - This deciduous hydrangea features medium sized mop head blooms in shades of pink to blue depending on the soil acidity. It has a rounded habit and medium green foliage. Matures at 5-6' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.
Hydrangea	macrophylla	'Hokomathyst'	Everlasting Amethyst Hydrangea - This deciduous hydrangea features medium sized mop head blooms in soft pink with lime green blossom edges. It has a rounded habit and medium green foliage. Matures at 3-4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 5-9.
Hydrangea	macrophylla	'Hortmahar'	Everlasting Harmony Hydrangea - This deciduous hydrangea features medium sized mop head blooms in soft pink to cream blossom with green edges. It has a rounded habit and medium green foliage. Matures at 3-4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.

Hydrangea	macrophylla	'Hortmaja'	Everlasting Jade Hydrangea - This deciduous hydrangea features medium sized mop head blooms in soft lime that age to deep green with bright red tips. It has a rounded habit and medium green foliage. Matures at 3-4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 5-9.
Hydrangea	macrophylla	'Horwack'	Pistachio Hydrangea - This deciduous hydrangea features medium sized mop head blooms open green tinged to chartreuse maturing to a rich red to purple. It has a rounded habit and medium green foliage. Matures at 2-3' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.
Hydrangea	macrophylla	'Let's Dance Blue Jangles'	Let's Dance Blue Jangles Hydrangea - This deciduous hydrangea features medium sized mop head blooms in a medium blue. It has a rounded habit and medium green foliage. Matures at 2-3' tall and wide. Prefers partial sun to partial shade. Hardy in zones 5-9.
Hydrangea	macrophylla	'Nikko Blue'	Nikko Blue Hydrangea - This deciduous hydrangea features medium sized mop head blooms in a soft pink to blue depending on the soil chemistry. It has a rounded habit and medium green foliage. Matures at 4-6' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.
Hydrangea	macrophylla	'Shamrock'	Shamrock Big Leaf Hydrangea - This deciduous hydrangea features medium sized mop head blooms in a sterile pink double florets. It has a rounded habit and medium green foliage. Matures at 3-4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 5-9.
Hydrangea	macrophylla	'Snow Storm'	Snow Storm Hydrangea - This deciduous hydrangea features medium sized mop head blooms in pure white. It has a rounded habit and medium green foliage. Matures at 3-4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 5-9.
Hydrangea	macrophylla	'Variegata'	Variegated Big Leaf Hydrangea - This deciduous hydrangea features medium sized mop head blooms in soft pink to blue depending on the soil chemistry. It has a rounded habit and medium green and white variegated foliage. Matures at 3-4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 5-9.
Hydrangea	paniculata	'Bulk'	Quick Fire Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in rich rose. It has a rounded habit and medium green foliage. Matures at 3-5' tall and 2-4' wide. Prefers full sun to partial shade. Hardy in zones 3-8.
Hydrangea	paniculata	'Dolly'	Dolly Hydrangea - This upright shrub has medium green foliage that turns a rich burgundy shade in fall. Cone shaped white blooms are borne in summer to fall and age to have a slight pink tinge in early fall. Deciduous. Prefers full to partial sun in moderately moist well drained soil. Reaches 3' tall x 3' wide. Hardy to zone 5.
Hydrangea	paniculata	'Fire and Ice'	Fire and Ice Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms opening in creamy white and aging to a ruby red. It has a rounded habit and medium green foliage. Matures at 3-5' tall and 2-4' wide. Prefers full sun to partial shade. Hardy in zones 3-8.
Hydrangea	paniculata	'Grandiflora'	Pee-Gee Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white. It has a rounded habit and medium green foliage. Matures at 10' tall and 8' wide. Prefers full sun to partial shade. Hardy in zones 3-8.
Hydrangea	paniculata	'Limelight'	Limelight Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms open as lime green and age to a creamy white. It has a rounded habit and medium green foliage. Matures at 6' tall and 8' wide. Prefers full sun to partial shade. Hardy in zones 3-8.
Hydrangea	paniculata	'Little Lime'	Little Lime Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms open as lime green and age to a creamy white. It has a rounded habit and medium green foliage. Matures at 3' tall and 5' wide. Prefers full sun to partial shade. Hardy in zones 3-8.

Hydrangea	paniculata	'Tardiva'	Tardiva Hardy Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white. It has a rounded habit and medium green foliage. Matures at 8' tall and 7' wide. Prefers full sun to partial shade. Hardy in zones 3-8.
Hydrangea	quercifolia		Oakleaf Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white aging with a tinge of pink. It has large medium green oak leaf shaped foliage that matures to rich burnished tones in autumn. It also offers handsome exfoliating cinnamon colored bark as it matures which provides winter interest. Matures at 6' tall and 8' wide. Prefers full sun to partial shade. Hardy in zones 5-9.
Hydrangea	quercifolia	'Gatsby Pink'	Gatsby Pink Oakleaf Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white aging to pink. It has large medium green oak leaf shaped foliage that matures to rich burnished tones in autumn. It also offers handsome exfoliating cinnamon colored bark as it matures which provides winter interest. Matures at 6' tall and 6' wide. Prefers full sun to partial shade. Hardy in zones 5-9.
Hydrangea	quercifolia	'Gatsby Moon'	Gatsby Moon Oakleaf Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white. It has large medium green oak leaf shaped foliage that matures to rich burnished tones in autumn. It also offers handsome exfoliating cinnamon colored bark as it matures which provides winter interest. Matures at 6' tall and 8' wide. Prefers full sun to partial shade. Hardy in zones 5-9.
Hydrangea	quercifolia	'Gatsby Star'	Gatsby Star Oakleaf Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped double blooms in creamy white. It has large medium green oak leaf shaped foliage that matures to rich burnished tones in autumn. It also offers handsome exfoliating cinnamon colored bark as it matures which provides winter interest. Matures at 5' tall and 6' wide. Prefers full sun to partial shade. Hardy in zones 5-9.
Hydrangea	quercifolia	'Ice Crystal'	Ice Crystal Hydrangea – This upright deciduous shrub offers foliage that is oak leaf shaped. Dull slightly felted foliage in a rich medium green turns shades of rich burgundy in fall. Bark develops into a cinnamon color and exfoliates for added interest, particularly in winter. Beautiful creamy white cone shaped flowers bloom in summer. Flowers often develop a pink hue with age. Prefers full to partial sun with morning sun and afternoon shade to partial sun exposure. Matures at 5-6' tall x 3-6' wide. Hardy in zones 5-9.
Hydrangea	quercifolia	'Little Honey'	Golden Oakleaf Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white. It has large golden oak leaf shaped foliage that matures to rich burnished tones in autumn. It also offers handsome exfoliating cinnamon colored bark as it matures which provides winter interest. Matures at 3' tall and 4' wide. Prefers full sun to partial shade. Hardy in zones 5-9.
Hydrangea	quercifolia	'Pee Wee'	Pee Wee Oakleaf Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white. It has large golden oak leaf shaped foliage that matures to rich burnished tones in autumn. It also offers handsome exfoliating cinnamon colored bark as it matures which provides winter interest. Matures at 3' tall and 3' wide. Prefers full sun to partial shade. Hardy in zones 5-9.
Hydrangea	quercifolia	'Ruby Slippers'	Ruby Slippers Oakleaf Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white aging to a rose red. It has large golden oak leaf shaped foliage that matures to rich burnished tones in autumn. It also offers handsome exfoliating cinnamon colored bark as it matures which provides winter interest. Matures at 3' tall and 4' wide. Prefers full sun to partial shade. Hardy in zones 5-9.

Hydrangea	quercifolia	'Snow Queen'	Snow Queen Oakleaf Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white. It has large golden oak leaf shaped foliage that matures to rich burnished tones in autumn. It also offers handsome exfoliating cinnamon colored bark as it matures which provides winter interest. Matures at 4' tall and 6' wide. Prefers full sun to partial shade. Hardy in zones 5-9.
Hydrangea	quercifolia	'Queen of Hearts'	Queen of Hearts Oakleaf Hydrangea - This deciduous hydrangea features medium sized panicle/cone shaped blooms in creamy white aging to a rose red. It has large golden oak leaf shaped foliage that matures to rich burnished tones in autumn. It also offers handsome exfoliating cinnamon colored bark as it matures which provides winter interest. Matures at 5' tall and 7' wide. Prefers full sun to partial shade. Hardy in zones 5-9.
Hydrangea	serrata	'Blue Bird'	Bluebird Hydrangea - This deciduous hydrangea features medium sized lace cap blooms in shades of blue, depending on the soil chemistry. It has a rounded habit and medium green foliage. Matures at 4-6' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.
Hydrangea	serrata	'Preziosa'	Sawtooth Hydrangea - This deciduous hydrangea features small mop head bloom cluster that open pink and age to pink. It has a rounded habit and medium green foliage. Matures at 3-4' tall and wide. Prefers partial sun to partial shade. Hardy in zones 6-9.
Ilex	aquifolium	'Ferox Argentea'	Variegated Porcupine Holly – This variegated holly has uniquely spiny leaf edges. This evergreen shrub prefers full sun to partial shade. Matures at 10' tall and wide. Hardy to zone 6.
Ilex	aquifolium	'Madame Briot'	Madame Briot English Holly - An attractive purple-stemmed variegated evergreen shrub. Matures at 6-8' tall and wide. Prefers full to partial sun. Hardy to zone 6.
Ilex	crenata	'Convexa'	Japanese Holly – This evergreen shrub features irregular upright branching and dark glossy green foliage. Matures at 8' tall x 6' wide. Prefers full to partial sun. Hardy in zones 5-8.
Ilex	crenata	'Fastigiata'	Upright Japanese Holly – This evergreen shrub has small dark green leaves on an upright stiff branching habit. Matures at 4-10' tall x 1-3' wide. Prefers full to partial sun. Hardy in zones 6-8.
Ilex	crenata	'Northern Beauty'	Northern Beauty Holly - This evergreen shrub has small dark green leaves on an upright stiff branching habit. Matures 4-5' tall x 4' wide. Prefers full to partial sun. Hardy to zone 5.
Ilex	crenata	'Sky Pencil'	Upright Japanese Holly - This evergreen shrub has small dark green leaves on an upright stiff branching habit. Matures at 4-10' tall x 1-3' wide. Prefers full to partial sun. Hardy in zones 6-8.
Ilex	crenata	'Soft Touch'	Soft Touch Japanese Holly – This dense evergreen shrub has small medium to dark green leaves. It has a naturally round mounding habit. Flowers are white and discreet giving way to black ornamental berries through winter. It reaches 3-4' tall x wide. Prefers full to partial sun exposure and moderately moist well-drained soil. Hardy in zones 6-8.
Ilex	x meserveae	'Blue Girl'	Blue-Leaved Hybrid Holly - Features dark purplish stems and glossy, blue-green leaves with spiny margins. Small white flowers become red berries that persist through winter. Evergreen. Matures at 10' tall x 8' wide. Prefers full to partial sun. Hardy in zones 4-7.
Itea	virginica	'Little Henry'	Little Henry Sweetpire – This mound shaped deciduous shrub has arching branches with white bottle brush like flowers in summer. Medium green foliage turns golden in fall. Matures at 2-3' tall and wide. Prefers full to partial sun. Hardiness zones 5-9.

Kalmia	latifolia		Mountain Laurel – This evergreen shrub has lance shaped foliage on upright branches. Cluster of white blooms are borne in spring on the tips of the branches. Blooms are reminiscent of tiny origami pods opening to small lanterns with fine lines marking their interior. Matures at 5’ tall and wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Kalmia	latifolia	'Big Boy'	Big Boy Mountain Laurel - This evergreen shrub has lance shaped foliage on upright branches. Cluster of white to pink blooms are borne in spring on the tips of the branches. Blooms are reminiscent of tiny origami pods opening to small lanterns with fine lines marking their interior. Matures at 5’ tall and wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Kalmia	latifolia	'Galaxy'	Galaxy Mountain Laurel - This evergreen shrub has lance shaped foliage on upright branches. Cluster of white blooms with reddish-pink centers are borne in spring on the tips of the branches. Blooms are reminiscent of tiny origami pods opening to small lanterns with fine lines marking their interior. Matures at 6-8’ tall and wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Kalmia	latifolia	'Minuet'	Minuet Mountain Laurel – This evergreen shrub has lance shaped medium to dark green foliage. Clusters of uniquely shaped balloon-like flowers bloom in spring with red and white variegation. Reaches 2-3’ tall x wide. Prefers partial sun, rich, well-drained, moderately moist soil. Hardy in zones 4-9.
Kalmia	latifolia	'Nipmuck'	Nipmuck Mountain Laurel - This evergreen shrub has lance shaped foliage on upright branches. Cluster of deep pink blooms are borne in spring on the tips of the branches. Blooms are reminiscent of tiny origami pods opening to small lanterns with fine lines marking their interior. Matures at 6’ tall and 3’ wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Kalmia	latifolia	'Olympic Fire'	Olympic Fire Mountain Laurel - This evergreen shrub has lance shaped foliage on upright branches. Cluster of dark red blooms that open to pink are borne in spring on the tips of the branches. Blooms are reminiscent of tiny origami pods opening to small lanterns with fine lines marking their interior. Matures at 5’ tall and wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Kalmia	latifolia	'Ostbo Red'	Ostbo Red Mountain Laurel - This evergreen shrub has lance shaped foliage on upright branches. Cluster of hot pink blooms are borne in spring on the tips of the branches. Blooms are reminiscent of tiny origami pods opening to small lanterns with fine lines marking their interior. Matures at 5’ tall and wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Kalmia	latifolia	'Peppermint'	Peppermint Mountain Laurel - This evergreen shrub has lance shaped foliage on upright branches. Cluster of white blooms with red to pink stripes are borne in spring on the tips of the branches. Blooms are reminiscent of tiny origami pods opening to small lanterns with fine lines marking their interior. Matures at 5’ tall and wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Kalmia	latifolia	'Snow Drift'	Snow Drift Mountain Laurel - This evergreen shrub has lance shaped foliage on upright branches. Cluster of white blooms are borne in spring on the tips of the branches. Blooms are reminiscent of tiny origami pods opening to small lanterns with fine lines marking their interior. Matures at 5’ tall and wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Kerria	japonica	'Pleniflora'	Double Beauty Bush – This deciduous shrub has arching branches and medium sized green leaves. Double golden blooms are borne along the long slender limbs in mid spring. Matures at 5-6’ tall and wide. Prefers partial sun to partial shade. Hardy in zones 4-9.
Lavandula	angustifolia	Multiple Varieties are seasonally available. Please call for current availability.	English Lavender – This small shrub has fine grey-green needle like leaves and wands of fragrant purple flower clusters borne at their tips during summer. This hardy shrub is known for its aromatic properties. Prefers full sun. Hardy to zone 5.

Lavandula	stoechas	Multiple Varieties are seasonally available. Please call for current availability.	Spanish Lavender - This small shrub has fine grey-green needle like leaves and wands of fragrant purple flowers topped with flags are borne at their tips during summer. Matures at 14" tall x 15" wide. Prefers full sun. Hardy in zones 7-10.
Leptodermis	oblonga		Star Flower – This low mounding deciduous shrub has fragrant violet-pink, lilac-like tubular blooms from late spring through fall. It has small medium green leaves. Matures at 3.5' tall x 4' wide. Prefers full to partial sun. Hardy in zones 5-7.
Leucothoe	axillaris		Coast Leucothoe/Fetterbush – This evergreen shrub has arching branches with alternating glossy leaves in deep green with scarlet coloration particularly through the colder months. Small bell-like white flowers are borne in spring through summer near the tips of the branches. Matures at 2-4' tall x 3-5' wide. Prefers partial sun to shade. Hardy in zones 6-9.
Leucothoe	fontanesiana	'Rainbow'	Rainbow Leucothoe/Fetterbush - This evergreen shrub has arching branches with alternating glossy leaves that are mottled with green, cream and reddish rose shades. Small bell-like white flowers are borne in spring through summer near the tips of the branches. Matures at 2-4' tall x 3-5' wide. Prefers partial sun to shade. Hardy in zones 5-8.
Leucothoe	fontanesiana	'Zebliid'	Scarletta Leucothoe/Fetterbush - This evergreen shrub has arching branches with alternating glossy leaves in deep green with scarlet coloration particularly through the colder months. Small bell-like white flowers are borne in spring through summer near the tips of the branches. Matures at 2' tall x 3' wide. Prefers partial sun to shade. Hardy in zones 5-8.
Leycesteria	formosa	'Notbruce'	Golden Lanterns Himalayan Honeysuckle – This unique deciduous shrub has arching branches with golden green foliage. It is accented by pendulous clusters of white blooms which become ornamental glossy wine red colored berries that persist through fall. Matures at 6-8' tall and wide. Prefers full sun. Hardy in zones 4-9.
Ligustrum	japonicum		Wax Leaf Privet/Japanese Privet – This evergreen shrub has a dense habit and dark glossy green leaves. It matures at 6-10' tall x 6-8' wide. Prefers full sun to partial shade. Hardy in zones 8-10.
Lonicera	nitida		Box Leaf Honeysuckle – This evergreen shrub form of honeysuckle is an excellent choice for a low accent plant or hedge. Small green leaves are borne on slightly arching branches. It offers small white-light green flowers in spring. Matures at 5' tall x 4' wide. Prefers full sun to partial shade. Hardy in zones 7-9.
Lonicera	nitida	'Baggensen's Gold'	Gold Box Honeysuckle – This shrubby honeysuckle is evergreen to semi evergreen and has golden petite leaves. It has an arching branch habit an irregular mounded shape. Discreet white flowers are borne in late spring. Matures at 5' tall and wide, which can be reduced with pruning. Prefers full to partial sun. Hardy in zones 6-9.
Lonicera	nitida	'Lemon Beauty'	Lemon Beauty Box Honeysuckle - This shrubby honeysuckle is evergreen to semi evergreen and has golden green variegated petite leaves. It has an arching branch habit an irregular mounded shape. Discreet white flowers are borne in late spring. Matures at 5' tall and wide, which can be reduced with pruning. Prefers full to partial sun. Hardy in zones 6-9.
Lonicera	nitida	'Red Tips'	Red Tips Honeysuckle - This shrubby honeysuckle is evergreen and has dark glossy green leaf with wine colored new growth tips. It has an arching branch habit an irregular mounded shape. Discreet white flowers are borne in late spring. Matures at 3' tall x 3' wide. Prefers full to partial sun. Hardy in zones 6-9.

Lonicera	nitida	'Silver Beauty'	Silver Beauty Box Honeysuckle - This shrubby honeysuckle is has green and white variegated petite leaves. It has an arching branch habit an irregular mounded shape. Discreet white flowers are borne in late spring. Matures at 5' tall and wide, which can be reduced with pruning. Prefers partial sun. Hardy in zones 6-9.
Lonicera	nitida	'May Green'	May Green Honeysuckle/Privet Honeysuckle - This shrubby honeysuckle is evergreen and has green petite leaves. It has an arching branch habit an irregular mounded shape. Discreet white flowers are borne in late spring. Matures at 1-2' tall x 5-8' wide. Prefers full to partial sun. Hardy in zones 6-9.
Mahonia	aquifolium		Oregon Grape – Late winter to early spring brings golden flowers that are a great food source for hummingbirds. Flowers become blue-black berries in summer to fall that are edible but mostly desired by birds. Dark green leathery holly-like leaves are persistent year round on this evergreen shrub. Prefers partial sun and will tolerate some shade. Prefers rich, moderately moist, well-drained soil. Reaches 3-6' tall x wide. Hardy in zones 5-8.
Myrica	californica		Pacific Wax Myrtle – This evergreen shrub has a dense bushy form and glossy green leaves. It can also be pruned into an attractive small tree. Matures at 30' tall x 20' wide. Prefers full sun. Hardy in zones 7-9.
Myrtus	communis	'Microphylla'	Dwarf Common/Foxtail Myrtle - This evergreen shrub has a dense bushy form and much smaller green leaves than the Pacific Wax form. Matures at 3' tall and wide. Prefers full sun. Hardy in zones 7-9.
Nandina	domestica		Heavenly Bamboo - This multi-stemmed evergreen shrub has medium green broad leaves that turn reddish orange in fall. Large white flower clusters bloom in summer followed by bright red berries that persist through winter. Matures at 3-6' tall x 2-4' wide. Prefers full sun to partial shade. Hardy in zones 6-9.
Nandina	domestica	'Burgundy Wine'	Burgundy Wine Heavenly Bamboo - This multi-stemmed evergreen shrub has medium green leaves with burgundy new growth. Large white flower clusters bloom in spring to summer. Matures at 3' tall and wide. Prefers full sun to partial shade. Hardy in zones 6-9.
Nandina	domestica	'Compacta'	Dwarf Heavenly Bamboo - This multi-stemmed evergreen shrub has medium green leaves that turn reddish orange in fall. Large white flower clusters bloom in spring to summer. Matures at 3-4' tall and wide. Prefers full sun to partial shade. Hardy in zones 6-9.
Nandina	domestica	'Filamentosa'	Filamentosa Heavenly Bamboo - This multi-stemmed evergreen shrub has slender medium green leaves that turn reddish orange in fall. Large white flower clusters bloom in spring to summer. Matures at 2' tall and wide. Prefers full sun to partial shade. Hardy in zones 6-9.
Nandina	domestica	'Fire Power'	Fire Power Heavenly Bamboo - This multi-stemmed evergreen shrub has medium green and reddish orange leaves throughout the year. Matures at 1-2' tall and wide. Prefers full sun to partial shade. Hardy in zones 6-9.
Nandina	domestica	'Moon Bay'	Moon Bay Heavenly Bamboo - This multi-stemmed evergreen shrub has medium green and reddish orange leaves throughout the year. Matures at 3-4' tall and wide. Prefers full sun to partial shade. Hardy in zones 6-9.
Nandina	domestica	'Moyer's Red'	Moyer's Red Heavenly Bamboo - This multi-stemmed evergreen shrub has medium green and red leaves throughout the year. Large white flower clusters bloom in spring to summer. Matures at 3-6' tall and wide. Prefers full sun to partial shade. Hardy in zones 6-9.
Nandina	domestica	'Gulf Stream'	Gulf Stream Heavenly Bamboo - This multi-stemmed evergreen shrub has medium green and reddish orange leaves throughout the year. Matures at 3-4' tall and wide. Prefers full sun to partial shade. Hardy in zones 6-9.
Nandina	domestica	'Harbour Dwarf'	Dwarf Heavenly Bamboo - This multi-stemmed evergreen shrub has medium green and reddish orange leaves throughout the year. Matures at 1-2' tall and wide. Prefers full sun to partial shade. Hardy in zones 6-9.

Nandina	domestica	'Nana Purpurea'	Dwarf Heavenly Bamboo – This evergreen shrub has an upright shrubby habit. Small multi-colored leaves in green and shades of orange and reddish-purple. Foliage turns a dark red in fall. Clusters of small white flowers bloom in late spring to early summer and can bring red ornamental berries for winter interest. Reaches 2' tall x 3' wide. Prefers full to partial sun in moderately moist, well-drained soil. Low maintenance and deer resistant. Hardy in zones 6-11.
Nandina	domestica	'Plum Passion'	Plum Passion Heavenly Bamboo - This multi-stemmed evergreen shrub has medium green and wine leaves throughout the year. Large white flower clusters bloom in spring to summer. Matures at 4-6' tall and wide. Prefers full sun to partial shade. Hardy in zones 6-9.
Osmanthus	delavayi		Delavayi Osmanthus – Dark green leaves and small white highly fragrant flowers are found on this handsome shrub. It is excellent choice for a stand-alone specimen or as a hedge. Evergreen. Matures at 5' tall x 7' wide. Prefers full sun to shade. Hardy in zones 7-9.
Osmanthus	heterophyllus	'Goshiki'	Goshiki False Holly - Bright year round color! Extremely tough evergreen shrub. Fragrant fall flowers. Matures at 4 feet tall and 6 feet wide. Full Sun, light, to deep Shade. Zone 6-9
Osmanthus	heterophyllus	'Purpureus'	Purple Leaf False Holly – Dark purple/green glossy leaves are found on this tough evergreen shrub. Fragrant fall flowers. Matures at 4 feet tall and 6 feet wide. Full Sun to part shade. Zone 6-9.
Osmanthus	heterophyllus	'Variegatus'	Variegated False Holly – Variegated green and white glossy leaves are found on this tough evergreen shrub. Fragrant fall flowers. Matures at 8 feet tall and 5 feet wide. Full Sun to part shade. Zone 6-9.
Osmanthus	x burkwoodii		Burkwood Osmanthus - Dark green leaves and small white highly fragrant flowers are found on this handsome shrub. It is excellent choice for a stand-alone specimen or as a hedge. Evergreen. Matures at 8' tall x 7' wide. Prefers full sun to shade. Hardy in zones 7-9.
Pernettya	mucronata	'Rubra'	Red Berried Pernettya – This evergreen shrub has glossy-green leaves that are arrow head shaped. Flowers are borne in spring and are white with a pink-tinge, followed by rosy pink berries. Matures at approx. 2-3' tall and wide. Prefers full sun to partial shade. Hardy in zones 7-9.
Philadelphus	x lemoinei	'Manteau d' Hermine'	Manteau d' Hermine Mock Orange – This deciduous multi-branched shrub has arching upright branches and medium green leaves. Pure white flowers bloom in spring and are highly fragrant, reminiscent of orange blossoms. Mature at 3' tall x 5' wide. Prefers full to partial sun. Hardy in zones 4-8.
Philadelphus		'Snowbelle'	Snowbell Mock Orange - - This deciduous multi-branched shrub has arching upright branches and medium green leaves. Pure white flowers bloom in spring and are highly fragrant, reminiscent of orange blossoms. Mature at 3' tall x 4' wide. Prefers full to partial sun. Hardy in zones 4-8.
Phyllostachys		'Nigra'	Black Bamboo – This evergreen plant is multi-stemmed with arching branches. Medium green lance shaped leaves are found in clusters along glossy black stems. This is a running bamboo, however is not considered aggressive. Matures at 20' tall x 12' wide. Prefers full to partial sun. Hardy in zones 7-10.
Physocarpus	opulifolius	'Center Glow'	Center Glow Ninebark – This multi-stemmed deciduous shrub has an arching branch habit. Bronze to reddish palmate foliage is a hallmark feature. Small white blooms are borne in clusters in spring turning to small burnished berries. Matures at 8' tall and wide. Prefers full to partial sun. Hardy in zones 3-7.
Physocarpus	opulifolius	'Mindia'	Coppertina Ninebark - This multi-stemmed deciduous shrub has an arching branch habit. Copper to reddish palmate foliage is a hallmark feature. Small white blooms are borne in clusters in spring turning to small burnished berries. Matures at 6-8' tall and wide. Prefers full to partial sun. Hardy in zones 3-7.
Physocarpus	opulifolius	'Monlo'	Diabolo/Diablo Ninebark – This multi-stemmed deciduous shrub has an arching branch habit. Bronze to reddish palmate foliage is a hallmark feature. Small white blooms are borne in clusters in spring turning to small burnished berries. Matures at 8' tall and wide. Prefers full to partial sun. Hardy in zones 3-7.

Pieris	japonica	'Cavatine'	Cavatine Pieris/Andromeda – This evergreen shrub has a low mounding habit. Foliage is dark green and lance shaped. White bell shaped blooms are borne in spring in clusters. Matures at 2' tall and wide. Prefers partial sun to partial shade. Hardy to zone 5.
Pieris	japonica	'Flaming Silver'	Flaming Silver Pieris/Andromeda – This evergreen shrub has new growth in coral red, maturing to a variegated white and green glossy leaf. This mound shaped shrub offers clusters of white bell shaped flowers in spring. Matures at 5' x 5'. Prefers partial shade. Hardy in zones 4-7.
Pieris	japonica	'Forest Flame'	Forest Flame Pieris/Andromeda - This evergreen shrub has new growth in rich red, maturing to a glossy green leaf. This mound shaped shrub offers clusters of white bell shaped flowers in spring. Matures at 4-7' tall and wide. Prefers partial sun to partial shade. Hardy in zones 5-8.
Pieris	japonica	'Katsura'	Katsura Pieris/Andromeda - This upright evergreen shrub has semi-glossy green foliage that emerges and persists in a rich burgundy shade, ultimately aging to dark green. The branches arch creating a graceful habit. Flowers are medium pink and offered in pendant clusters in spring and are enjoyed by the native bees. Reaches 18-24" x 2-3' wide. Prefers partial sun and moderately moist, well-drained soil. Hardy in zones 6-11.
Pieris	japonica	'Little Heath'	Little Heath Pieris/Andromeda - This evergreen shrub has a low mounding habit. Foliage is white and green variegation and is lance shaped. White bell shaped blooms are borne in spring in clusters. Matures at 2' tall and wide. Prefers partial sun to partial shade. Hardy to zone 5.
Pieris	japonica	'Mountain Fire'	Mountain Fire Pieris/ Andromeda - This evergreen shrub has new growth in fiery red, maturing to a glossy green leaf. This mound shaped shrub offers clusters of white bell shaped flowers in spring. Matures at 4-8' tall and 3-6' wide. Prefers partial sun to partial shade. Hardy in zones 5-8.
Pieris	japonica	'Prelude'	Prelude Pieris/Andromeda - This evergreen shrub has a low mounding habit. Foliage is dark green and lance shaped. White bell shaped blooms are borne in spring in clusters. Matures at 2' tall and wide. Prefers full to partial sun. Hardy to zone 5.
Pieris	japonica	'Valley Valentine'	Valley Valentine Pieris/Andromeda - This evergreen shrub has new growth in rich red, maturing to a glossy green leaf. This mound shaped shrub offers clusters of pink bell shaped flowers in spring. Matures at 2-4' tall and 3-5' wide. Prefers partial sun to partial shade. Hardy in zones 5-8.
Polygala	chamaebuxus	"Kamniski"	Creeping Milkwort - This low and dense evergreen has bright purple & yellow pea blossom throughout the spring and summer. Matures at 6-12" tall x 12-15" wide. Prefers full to partial sun. Hardy in zones 6-9.
Prunus	laurocerasus		English/Cherry Laurel – This evergreen has broad glossy green leaves. It is a fast growing shrub that is often used for hedging. Matures at a minimum of 16' tall and wide. Prefers full sun to shade. Hardy to zones 6-8.
Prunus	laurocerasus	'Mount Vernon'	Mount Vernon Laurel/Cherry Laurel - This evergreen has broad glossy green leaves. It is a fast growing shrub that is often used as a low groundcover. Matures at a minimum of 16-12" tall and wide. Prefers full sun to shade. Hardy to zones 6-8.
Prunus	laurocerasus	'Otto Luyken'	Otto Luyken Laurel/Cherry Laurel - This evergreen has broad glossy green leaves. It is a fast growing shrub that is often used as a hedge. Matures at a minimum of 3-6' tall and wide. Prefers full sun to shade. Hardy to zones 6-8.
Prunus	laurocerasus	'Schipkaensis'	Schip Laurel – This evergreen shrub is denser, heavily branched than Cherry Laurel. The leaves are narrow and dark green. Mature size is 4-6 feet tall and wide. Prefers full sun to shade. Hardy to zones 6-8.
Rhododendron		Varieties	<i>*See our Rhododendrons List for availability and more information.</i>

Rhus	aromatic	'Gro-Low'	Gro-Low Sumac – This low growing suckering shrub is a great choice for erosion control and hillside planting. Medium green foliage becomes a colorful show in fall becoming a range of gold, orange and red. Flowers bloom in spring and are yellow and discreet, becoming clusters of red berries in autumn. They are a great food source for birds. Deciduous. Reaches 1.5-2' tall x 6-8' wide. Prefers full to partial sun in moderately moist well-drained soil. Hardy in zones 3-9.
Rhus	typhina	'Bailtiger'	Tiger Eyes Staghorn Sumac – Deeply cut foliage is found on this deciduous shrub. Newly emerging foliage is light to medium green and ages to stunning fall color in a range of hues from gold, to orange and red. Prefers full sun to partial shade. Reaches 3-6' tall x wide. Hardy in zones 4-8.
Ribes	sanguineum	'King Edward VII'	King Edward VII Flowering Currant – This deciduous shrub has an upright and multi-branched habit. Small lobe shaped leaves in medium green adorn this shrub turning gold in fall. Beautiful pendulant fuchsia colored blooms dangle from the tips of the branches in spring providing food for hummingbirds. Blooms become dark purple berry clusters that persist through fall. Matures at 6-8' tall and wide. Prefers full to partial sun. Hardy to zones 6.
Rosa		Varieties	<i>*See our Rose List for available varieties and information.</i>
Rosmarinus	officinalis		Rosemary – This evergreen aromatic herb is often used as an ornamental shrub. It has dark green needle like leaves on upright branches. Purple blooms are borne along the stems in summer. These leaves can be used for culinary purposes. Matures at 2-6' tall and wide. Prefers full sun. Hardy in zones 7-10.
Salix	gracilistyla	'Melanostachys'	Black Pussy Willow – This deciduous shrub offers ornamental velvety black buds in early spring that open to golden catkins. Foliage is a shimmering medium green. The habit is upright and multi-branching. Matures at a minimum of 6' tall and wide. Prefers full to partial sun. Hardy in zones 5-7.
Salix	integra	'Hakuro Nishiki'	Variegated Japanese Willow/Dappled Willow – This deciduous shrub has delicate creamy pink new growth maturing to a soft green. Flowers are discreet. Its habit is multi-stemmed, broad and mounding. It can take a pruning to shape quite well. Matures at 4-6' tall and wide. Prefers partial sun. Hardy in zones 5-7.
Salix	Nakamura var. yezoalpina		Dwarf Willow – This deciduous shrub is a low ground cover and considered a sub-shrub. Ornamental silvery buds adorn the stems in spring followed by golden catkins and silvery green felted foliage. Matures at 1' tall x 6' wide. Prefers partial sun. Hardy in zones 4-8.
Sambucus	nigra	'Eva'	Black Lace Purple Cutleaf Elderberry – This deciduous shrub has near black dissected foliage. The habit is multi-stemmed and upright. Open clusters of creamy white to blush blooms are offered in late spring to early summer. Matures at 6-8' tall and wide. Prefers full sun. Hardy in zones 4-7.
Sambucus	nigra	'Gerda'	Black Beauty Purple Elderberry - This deciduous shrub has near black foliage. The habit is multi-stemmed and upright. Open clusters of creamy white to blush blooms are offered in late spring to early summer. Matures at 6-8' tall and wide. Prefers full sun. Hardy in zones 4-7.
Sambucus	racemosa	'Sutherland Gold'	Sutherland Gold Elderberry - This deciduous shrub has golden foliage. The habit is multi-stemmed and upright. Open clusters of creamy white to blush blooms are offered in late spring to early summer. Matures at 6-8' tall and wide. Prefers full sun. Hardy in zones 4-7.
Sarcococca	confusa		Fragrant Sarcococca – This evergreen shrub has dark green glossy foliage of gently arching branches. Small white highly fragrant blooms are offered late winter and are followed by glossy red to black berries. Matures at 3' tall and wide. Prefers partial to full shade. Hardy in zones 6-9.
Sarcococca	hookeriana var.	humilis	Dwarf Sarcococca - This evergreen shrub has dark green glossy foliage of gently arching branches. Small white highly fragrant blooms are offered late winter and are followed by glossy red to black berries. Matures at 1' tall x 2' wide. Prefers partial to full shade. Hardy in zones 6-8.

Sarcococca	ruscifolia		Fragrant Sweet Box - This evergreen shrub has dark green glossy foliage of gently arching branches. Small white highly fragrant blooms are offered late winter and are followed by glossy red to black berries. Matures at 3' tall x 4' wide. Prefers partial to full shade. Hardy in zones 6-9.
Spiraea	arguta		Bridal Wreath Spirea – This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small medium green leaves and clusters of beautiful white flowers in spring. Fall color can bring gold to orange or burnished plum shades. Matures at 4-6' tall x wide. Prefers full to partial sun. Hardy in zones 4-10.
Spiraea	betulifolia	'Tor'	Birch-leaf Spirea - This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small medium green leaves and clusters of beautiful white flowers in spring. Fall color can bring gold to orange or burnished plum shades. Matures at 2-3' tall x wide. Prefers full to partial sun. Hardy in zones 4-8.
Spiraea	japonica	'Candlelight'	Candlelight Spirea - This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small golden-green leaves and clusters of beautiful pink flowers in spring. Fall color can bring gold to orange or burnished plum shades. Matures at 2-3' tall x wide. Prefers full to partial sun. Hardy in zones 4-8.
Spiraea	japonica	'Gold Flame'	Gold Flame Spirea - This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small golden leaves and clusters of beautiful pink flowers in spring. New growth is tinged red. Fall color can bring gold to orange or burnished plum shades. Matures at 2-3' tall x wide. Prefers full to partial sun. Hardy in zones 4-8.
Spiraea	japonica	'Goldmound'	Goldmound Spirea - This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small lime leaves and clusters of beautiful pink flowers in spring. Fall color can bring gold to orange or burnished plum shades. Matures at 2-3' tall x wide. Prefers full to partial sun. Hardy in zones 4-8.
Spiraea	japonica	'Little Princess'	Little Princess Spirea - This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small golden leaves and clusters of beautiful pink flowers in spring. New growth is tinged red. Fall color can bring gold to orange or burnished plum shades. Matures at 2-3' tall x wide. Prefers full to partial sun. Hardy in zones 4-8.
Spiraea	japonica	'Walburna'	Magic Carpet Spirea - This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small golden-green leaves and clusters of beautiful pink flowers in spring. New growth is tinged red. Fall color can bring gold to orange or burnished plum shades. Matures at 1-2' tall x wide. Prefers full to partial sun. Hardy in zones 3-8.
Spiraea	nipponica	'Snowmound'	Snowmound Spirea - - This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small medium green leaves and clusters of beautiful white flowers in spring. Fall color can bring gold to orange or burnished plum shades. Matures at 2-3' tall x wide. Prefers full to partial sun. Hardy in zones 4-8.
Spiraea	x bumalda	'Crispa'	Crispy Leaf Spirea - This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small green leaves and clusters of beautiful pink flowers in spring. Fall color can bring gold to orange or burnished plum shades. Matures at 2-3' tall x wide. Prefers full to partial sun. Hardy in zones 4-8.
Spiraea	x vanhouttei	'Pink Ice'	Pink Ice Spirea - This deciduous shrub has a multi-stemmed twiggy habit that takes well to a pruning and can be used a hedge. It has small variegated white and green leaves and clusters of beautiful white flowers in spring. Matures at 2-3' tall x wide. Prefers partial sun. Hardy in zones 4-8.

Stachyurus	chinensis	'Joy Forever'	Joy Forever Stachyurus – This unique deciduous shrub is noted for its variegated chartreuse and green foliage and its pale yellow flower clusters in late winter to early spring. Foliage turns a rich red in autumn. Prefers partial sun to partial shade in rich, well-drained soil. Reaches 5-8' tall x wide. Hardy to zone 7.
Syringa		'Bailbelle'	Tinkerbelle Lilac – This deciduous shrub has an upright rounded habit. Spring brings clusters of pink-purple blooms in small tube shapes. Medium green foliage can become golden or burnished wine in fall. Matures at 4-6' tall and wide. Prefers full sun. Hardy in zones 3-7.
Syringa	meyeri	'Palibin'	Palibin Meyer Lilac - This deciduous shrub has an upright rounded habit. Spring brings clusters of light purple-pink blooms. Medium green foliage can become golden or burnished wine in fall. Matures at 4-6' tall and wide. Prefers full sun. Hardy in zones 3-7.
Syringa	patula	'Miss Kim'	Miss Kim Dwarf Korean Lilac - This deciduous dwarf shrub has an upright rounded habit. Spring brings clusters of light purple-pink blooms. Medium green foliage can become golden or burnished wine in fall. Matures at 4-9' tall x 5-7' wide. Prefers full sun. Hardy in zones 3-8.
Syringa	vulgaris		<i>Common Lilac & Cultivars</i>
Syringa	vulgaris	'Beauty of Moscow'	Beauty of Moscow Lilac - This deciduous shrub has an upright rounded habit. Spring brings clusters of fragrant white blooms. Medium green foliage can become golden or burnished wine in fall. Matures at 8' tall x 6' wide. Prefers full sun. Hardy in zones 3-7.
Syringa	vulgaris	'President Grevy'	President Grevy Lilac - This deciduous shrub has an upright rounded habit. Spring brings clusters of fragrant light purple blooms. Medium green foliage can become golden or burnished wine in fall. Matures at 8-10' tall and wide. Prefers full sun. Hardy in zones 3-7.
Syringa	vulgaris	'Belle de Nancy'	Belle de Nancy Lilac – This deciduous shrub offers beautiful double flower panicles in shades of lavender to pink, with white centers. Foliage is medium green and fall color tends towards yellow and bronze. Reaches 8-10' tall x wide. Prefers full sun and well-drained soil. Hardy in zones 3-9.
Syringa	vulgaris	'Krasavitsa Moskvyy'	Beauty of Moscow Lilac – A beautiful deciduous shrub with double white to blush fragrant flower clusters in spring. Foliage is medium green that ages to fall color in gold with a burgundy tinge. Reaches 8-12' tall x 6-7' wide. Prefers full sun and well-drained soil. Hardy in zones 3-7.
Syringa	vulgaris	'Ludwig Spaeth'	Ludwig Spaeth Lilac – Dark purple fragrant blooms emerge in spring on this deciduous shrub. Foliage is medium green aging to yellow with a burgundy tinge. Reaches 6-10' tall x 6-8' wide. Prefers full sun in well-drained soil. Hardy in zones 3-8.
Syringa	vulgaris	'Monge'	Monge Lilac – Purple to magenta fragrant blooms emerge in spring. This deciduous shrub has medium green foliage that turns yellow to burgundy in fall. Reaches 8-10' tall x 7-10' wide. Prefers full sun and well-drained soil. Hardy in zones 3-7.
Syringa	vulgaris	'Sensation'	Sensation Lilac - This deciduous shrub has an upright rounded habit. Spring brings clusters of fragrant dark purple, white edged blooms. Medium green foliage can become golden or burnished wine in fall. Matures at 8' tall and 6' wide. Prefers full sun. Hardy in zones 3-7.
Syringa	vulgaris	'Yankee Doodle'	Yankee Doodle Lilac – Deep purple fragrant blooms emerge in spring on this deciduous shrub. Reaches 6' tall x wide. Medium green foliage turns gold to burgundy in fall. Prefers full sun in well-drained soil. Hardy in zones 2-8.
Syringa	x prestoniae	'Minuet'	Minuet Lilac - This deciduous shrub has an upright rounded habit. Spring brings clusters of fragrant purple blooms. Medium green foliage can become golden or burnished wine in fall. Matures at 6' tall and 4' wide. Prefers full sun. Hardy in zones 3-7.
Syringa	reticulata	'Ivory Silk'	Ivory Silk Lilac – This deciduous tree reaches 20-25' tall x 15-20' wide. Creamy white fragrant flower clusters emerge in spring to early summer. Prefers partial to full sun in moderately moist, well-drained soil. Hardy in zones 4-7.

Vaccinium	angustifolium	'Brunswick'	Brunswick Low Bush Blueberry – This deciduous shrub has a rounded mound shaped habit. Foliage is a medium green with fall color turning orange to burnished red. It bears blue edible berries in spring. Matures at 1-2' tall and wide. Prefers full sun. Hardy in zones 3-6.
Vaccinium	moupinense		Himalayan Blueberry - This petite evergreen shrub has small glossy green foliage that is tinged reddish orange when emerging. It produces small red-purple edible berries. Matures at 1' tall and wide. Prefers full to partial sun. Hardy to zones 6.
Vaccinium	nummularia		Coin Whortleberry – This evergreen groundcover/sub shrub has glossy green foliage and edible blue berries. Matures at 6" tall x 24" wide. Prefers full to partial sun. Hardy to zones 7.
Vaccinium	ovatum		Evergreen Huckleberry – This evergreen shrub is both edible and ornamental. It has arching branches on a multi-stemmed form. It offers tiny dark blue berries in summer. Matures at 6' tall and wide. It prefers full to partial sun. Hardy to zones
Viburnum	burkwoodii		Burkwood Viburnum – This deciduous shrub has a multi-branched upright, habit. Medium green lance shaped leaves. Highly fragrant white flower clusters are offered in late spring to summer. Matures at 8' tall x 6' wide. Prefers full sun to partial shade. Hardy in zones 4-8.
Viburnum	carlesii	'Aurora'	Aurora Korean Spice Viburnum - This deciduous shrub has a multi-branched upright, habit. Medium green lance shaped leaves. Highly fragrant white flower clusters are offered in late spring to summer. Dark blue berries follow in autumn. Matures at 4' tall x 4' wide. Prefers full sun to partial shade. Hardy in zones 4-7.
Viburnum	carlesii	'Compactum'	Compact Korean Spice Viburnum – This deciduous shrub reaches 2.5-4' tall x wide. Rounded clusters of creamy white, highly fragrant blooms emerge in spring to summer. Medium green foliage turns a rich russet red in fall. Prefers full to partial sun and moderately moist, well-drained soil. Hardy in zones 4-7.
Viburnum	dentatum	'Christom'	Blue Muffin/Arrowwood Viburnum - This deciduous shrub has a multi-branched upright, habit. Medium green lance shaped leaves. Highly fragrant white flower clusters are offered in late spring to summer. Dark blue pea-sized berries follow in autumn. Matures at 3' tall x 3' wide. Prefers full sun to partial shade. Hardy in zones 3-8.
Viburnum	davidii		David's Viburnum – This hardy evergreen shrub has large lance shaped, textured leaves on a mounding habit. It is adorned by clusters of creamy white blooms that are followed by metallic blue berries in autumn. Matures at a minimum of 2-3' tall x wide. Prefers full to partial sun. Hardy in zones 7-9.
Viburnum	juddii		Judd Viburnum – This deciduous shrub has highly fragrant round clusters of creamy white blooms in spring that start as blush pink buds. Flowers become dark blue-black berries in autumn that birds enjoy. Dark green foliage becomes burgundy in fall. Reaches 6-8' tall x wide. Prefers partial to full sun and well-drained moderately moist soil. Hardy in zones 4-8.
Viburnum	lantana	'Mohican'	Mohican Viburnum – A deciduous shrub with creamy white blooms in spring that become red berries in autumn. Dark green foliage changes to burgundy in fall. Reaches 7-8' tall x 7-10' wide. Prefers full to partial sun in moderately moist, well-drained soil. Hardy in zones 4-8.
