2020 COMPETITIVE GRANT FUNDS

When your organization submits an application to the competitive grant program, funding may result from one, or a combination of, the following funds:

**Unrestricted Endowment Funds**
- Grant requests are considered in the fields of arts and culture, community betterment, education, health and human services.
- Geographic focus and support may encompass the following counties:
  - Illinois: Adams, Brown, Hancock and Pike
  - Missouri: Clark, Lewis, Marion, Ralls, Pike, Knox, Shelby and Monroe

**Competitive Grants from Field of Interest Funds**
- Funds are set up with parameters for support in specific interest areas, such as the arts or human services, or by geographic locations, such as a specific school district, community or county.

**County Endowment Funds**
- If your organization or its project’s primary operation is in Adams, Brown, Pike or Hancock Counties in Illinois or Marion or Lewis Counties in Missouri, your application will also be reviewed by that county’s County Fund Council for potential funding.
- Receiving funding from a County Endowment Fund does not disqualify you from receiving a grant or partial grant from Unrestricted or Field of Interest funds.

**Grants range from $500 to $5,000**
Grant requests outside of grant range parameters will result in disqualification

Partial funding may be awarded and not all applications receive funding

One application may result in multiple grants from multiple funds! See back of page for an example of how your application is reviewed for funding.

To apply for grants, complete the 2020 Competitive Grant Application online by 11:59 p.m. on June 1, 2020. Anticipated grant distribution in August 2020.
Review by multiple groups maximizes your application’s funding opportunity!
