

 **GEBERIT**

Well-being and Inde- pendence.

Geberit AquaClean 8000plus Care.

Water – the natural way to clean.

Freshness as standard 6

A jet of warm water cleans you gently, for a hygienic experience.

Perfectly tailored for you 8

Everyone has their own personal preferences, which is why Geberit AquaClean can be suited to your individual needs.

+1 Warranty 10

Known worldwide for products of exceptional quality and design – we offer a two year warranty as standard.

Advice and service 11

We have a skilled team of expert technicians based across the UK, so you can expect quality after sales support.

Accessories 12

A range of accessories are available, offering long-term support.

Customised comfort.

Beautifully designed and easy to use. Ideal for every home and lifestyle.

Everyone has the right to an independent life, whether it be at work, in leisure or even for essential needs such as using the bathroom; with Geberit AquaClean 8000plus Care you are in control. Combining the convenience of an automated warm water wash and warm air drying, along with other features, using the toilet no longer becomes an arduous pursuit.

Elegantly designed, the shower toilet incorporates a simple to use shower, dryer and odour extraction. It provides you with an all-round cleaner, comfortable and more hygienic experience. In addition, the Geberit AquaClean 8000plus Care is easy to operate and virtually touch-free.

The Geberit AquaClean 8000plus Care is suitable for everyone. It will leave you feeling clean, fresh and improve your sense of well-being.

Freshness as standard. Improve your well-being.

Geberit AquaClean 8000plus Care has been designed with you in mind. With its range of advanced and individually adjustable features, it is an ideal solution for you and your family.

↑ Cleaning with water

The extending spray arm of the shower toilet will wash you with a gentle, oscillating or pulsating jet of warm water. The water temperature along with other features can be adjusted providing a pleasant experience, even for the most sensitive skin. The lady spray setting also provides advanced cleaning for feminine hygiene.

↑ Clean and hygienic

The spray nozzle is rinsed with fresh water before and after each use. This ensures spotless cleanliness at all times.

↑ Warm and dry

After washing, the Geberit AquaClean 8000plus Care gently and quietly dries you with a flow of warm air. Drying is completed in minutes – leaving you feeling clean, fresh and confident.

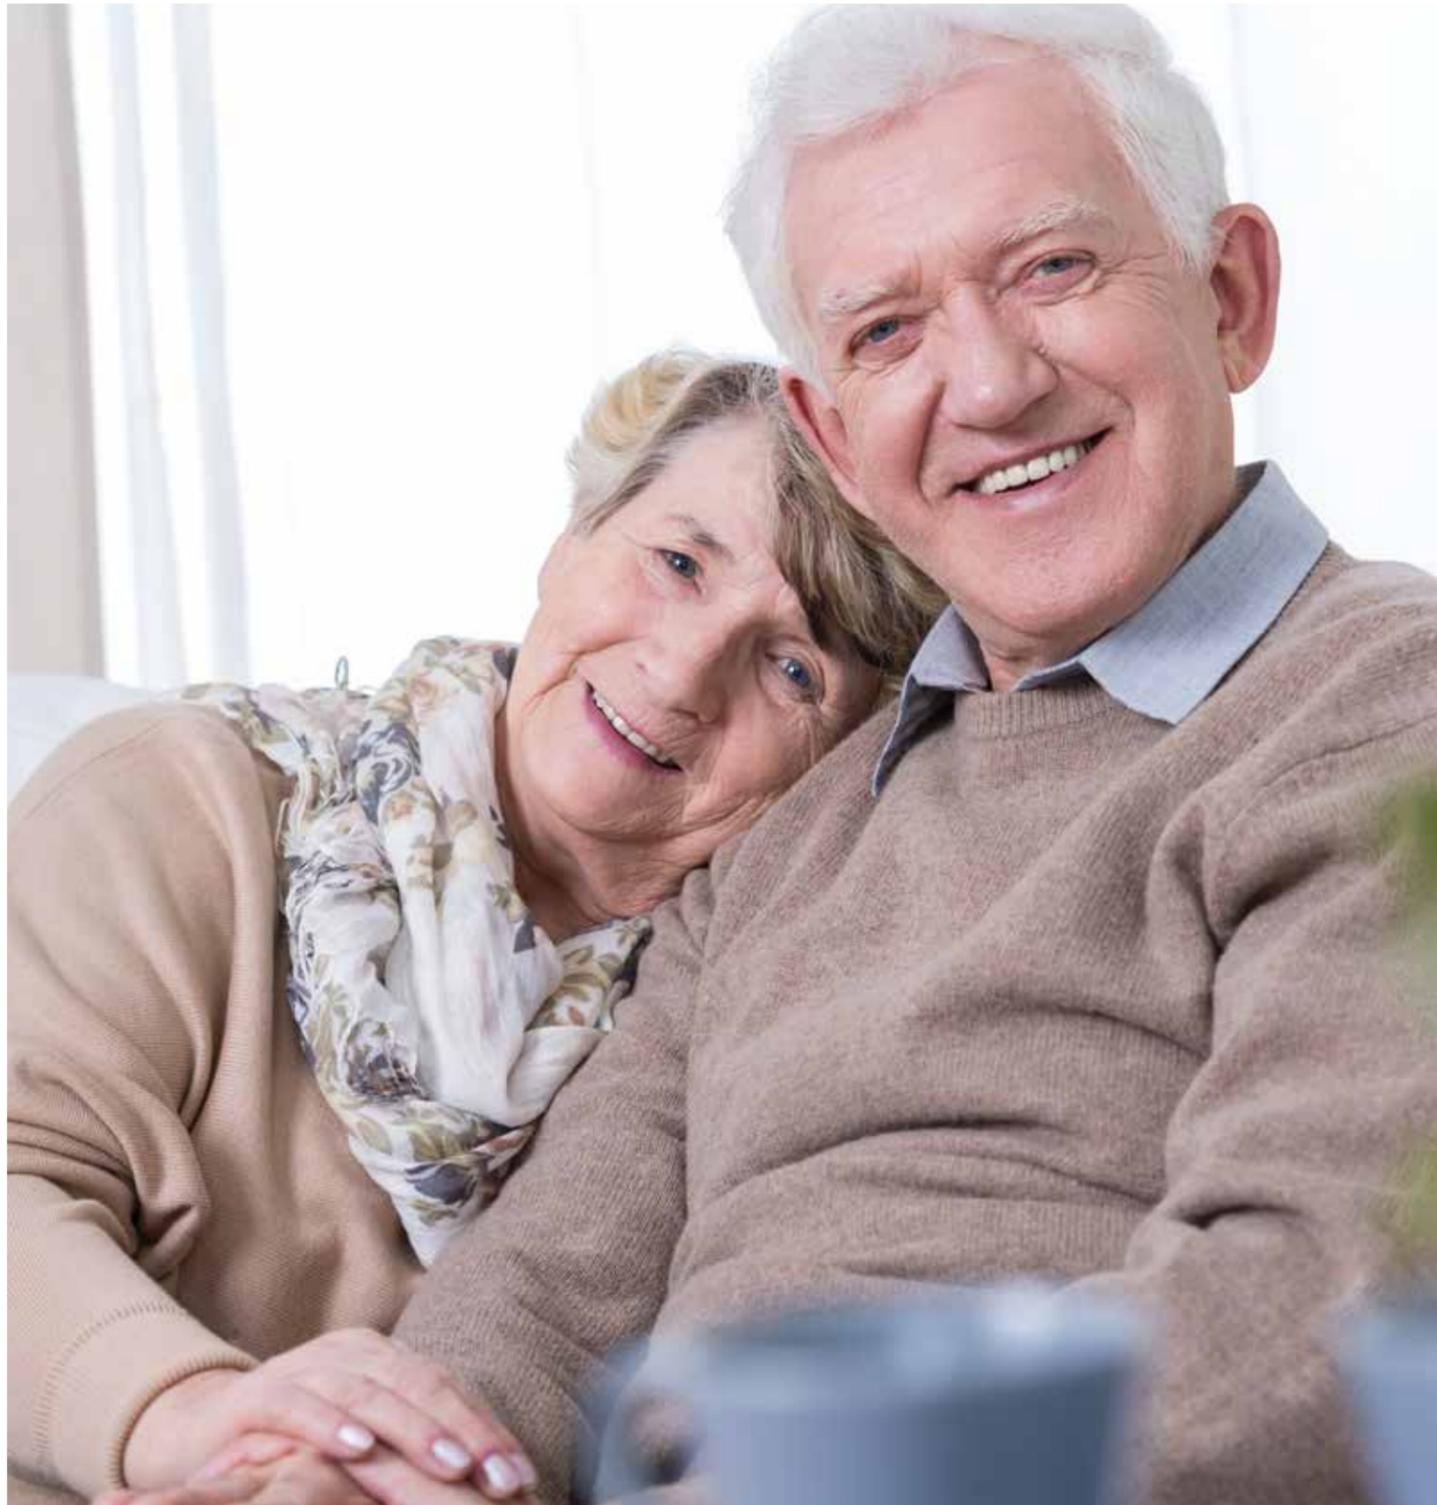

↑ Odour extraction

Unpleasant odours disappear with ease through the intelligent motion sensitive odour extraction which activates as soon as you sit down.

Everything perfectly tailored to your requirements.

Your personal well-being programme.

Every person has unique requirements, which is why the Geberit AquaClean can be adjusted, from the position of the spray arm to the water temperature and intensity, right through to the dryer setting. Geberit AquaClean is an ideal solution for everyone.

↑ Touch-free operation

With the opto-remote, using the Geberit AquaClean 8000plus Care can be completely hands-free. A sensor detects movement and automatically starts the washing and drying sequence. All functions will only operate when you are seated. It will even flush the shower toilet automatically before the wash cycle – easy, private and convenient.

↑ Personalised comfort

With the enhanced memory function on the remote control, you can select your own programme and store it, so that it can be used again and again. For added convenience, once saved the settings can be activated by the opto-remote or control panel. The remote also includes a button for flushing.

↑ Total control

The wash and dry cycle can be easily activated by either the push-button control panel located to the side or by using the remote control, providing maximum flexibility.

Adjustable height

Geberit AquaClean (with a height range of 405mm – 525mm) is flexible to accommodate specific seat height requirements at installation, thanks to the in-built height adjustable stainless steel frame.

Assessments

We at Geberit believe in a personalised approach. As a service to you our team of Product Specialists will work together with you and your Occupational Therapist to assess your requirements, free of charge and in the privacy of your own home. This is so you can be sure that the product is just right for you.

+1 warranty.

Providing peace of mind.

Geberit is known worldwide for products of exceptional quality and design. For this reason we offer a two year warranty as standard and once the product is registered we will extend this further. This is our promise to you.

Frequently asked questions.

All you need to know.

What are the benefits?

For a more thorough and soothing clean, the gentle spray of warm water is kinder to your skin than cleaning with paper. You feel clean, rejuvenated and experience a higher level of satisfaction.

How does it work?

Take a seat as a spray of warm water activates and washes you at an intensity level to suit you. As soon as you sit down, the odour extraction will be activated and finally you will be dried gently with a flow of warm air.

Is it easy to use?

Yes. Geberit AquaClean 8000plus Care has been designed with you in mind. It offers a variety of control options that allow you to choose whichever functions are most convenient. Even hands-free operation is included without compromising on individuality.

Is it suitable for people with health problems?

Yes, it is ideal for people who suffer from skin irritations in sensitive areas. This is because it cleans gently and thoroughly with fresh water. Many users find that their symptoms are considerably alleviated or even avoided.

How sustainable is it?

Geberit AquaClean makes the need for toilet paper obsolete. It only uses a small amount of well-directed water each time you activate the spray function. Paired with low energy consumption we have developed a feature packed shower toilet that is as sustainable as a conventional WC. Please contact us on freephone 0800 032 9629 to request a copy of our sustainability report.

Can it be used in case of a power cut?

Yes it can. There is a mechanical flush button included, so you can continue using the Geberit AquaClean as a standard toilet, should you experience a power cut.

How long is a Geberit AquaClean shower toilet likely to last?

In our experience, it can last up to 15 years. As with conventional toilets the lifespan of the WC will depend on how well it is maintained. Geberit guarantees the availability of replacement parts for your product for 10 years post production.

Is a lid available?

Geberit AquaClean 8000plus Care features a special strengthened seat that is particularly sturdy and ideal for side transfer. It can be removed easily and replaced with the optional Geberit AquaClean seat with lid application. Contact 01926 516 807 to make your purchase.

Can it be cleaned like a conventional WC?

Geberit AquaClean features a unique dirt-repellent finish for easy care and the highest standard of hygiene. Regular cleaning with a soft damp cloth and the Geberit AquaClean cleaning agent, is recommended to keep the shower toilet in good condition.

Who can install the product?

We were keen to develop a product that's innovative and easy to install. As a result, any qualified installer of your choice will be able to carry out the job.

Can it be connected to the mains water supply?

Geberit AquaClean is WRAS approved and complies with UK water regulations. It can be connected safely to the mains water supply.

Where can I purchase it?

Geberit AquaClean is readily available nationwide. Please contact:

→ AKW

Tel: 01905 823 298
Email: sales@akw-ltd.co.uk

→ Nicholls and Clarke

Tel: 0208 586 4600
Email: info@nichollsandclarke.com

→ Disability Needs (Ireland)

Tel: 00 3531 4642768
Email: sales@disabilityneeds.com

Where can I purchase optional extras?

If you require an optional extra such as grab rails, soft seat or a seat with lid, these must be purchased separately. Contact us on freephone 0800 032 9629 or see page 12 for more information.

Who is Geberit?

Geberit is European market leader in sanitary technology. Since its founding in 1874, the company has been a pioneer in the industry and continuously thrives on its Swiss precision and engineering. Geberit is recognised for producing state of the art products renowned for their endurance and cutting edge design.

The product range include sanitary and plumbing systems, and ceramics. Geberit products are innovative, durable and ecologically efficient. The main production sites are situated in Switzerland, Germany and Austria.
