### Vehicle Enhancement & Preparation Products

#### Exterior

0416\*            Car Shampoo & Wax            (Wash & Wax)            5lts & 25lts

A premium quality formulation with an added blend of sophisticated waxes, to give protection and improve the appearance of vehicle paintwork, leaving a streak free high gloss finish.

*Directions- Shake well before use. Use 1%-2% solution in warm water. Apply generously to vehicle, rinse with clean water. Wipe windscreen with a clean wet cloth to prevent wax build on screen.*

0306\*            Tar & Glue            (TBC )            5lts

Fast special acting solvents remove stubborn Tar, Adhesive and Sealants deposits from body paintwork, glass and wheels quickly and efficiently to prepare the surface for the next stage of cleaning.

*Directions- Shake well before use. Apply sparingly direct on to a lint free cloth or spray direct on to surface with a low pressure hand sprayer. Agitate if required on tough deposits. Test on a small hidden area first for suitability. Use in well ventilated areas.*

0532\*            Non Acid Wheel Cleaner            (Revolution)            5lts

Strong concentrated alkaline alloy wheel cleaner for the removal of brake dust and general dirt and grime found on wheels.

*Directions- Recommended to be used at 10:1 or dilute as required or to condition of wheels. Apply solution by brush or low pressure sprayer and agitate if required. Allow to dwell for a suitable period of time but do not allow drying out on wheels. Hose off with clean water at high pressure for best results.*

0710\*            Premium Car Polish            (Gold)            5lts

All in one premium quality car polish which is both quick and easy to use on all types of paintwork on new and used cars. Ideal for Pre-Delivery Inspection of new cars and contains a special blend of synthetic and natural carnauba wax to give long lasting depth of shine.

*Directions- Shake well before use. Wash the vehicle using Espuma Wash & Wax before applying polish. Use a soft clean lint free cloth, after a suitable time polish off and buff with a micro fibre cloth.*

0711\*                  Paintwork Renovator                  (Revive)                  5lts

Quality paintwork renovator for new and used cars. Easy application and contains mild abrasives for removing oxidised paint and minor scratches from all paint surfaces and colours. Contains a special blend of cleaning agents and carefully selected carnauba wax to give a long lasting deep rich gloss.

*Directions- Shake well before use. Wash the vehicle using Espuma Wash & Wax before applying polish. Use a soft clean lint free cloth, after a suitable time polish off and buff with a micro fibre cloth.*

0314\*                  Long Life Tyre Dressing                  (RD50)                  5lts

A special treatment for the renovation of tyres and rubber mud flaps. RD50 restores tyres to a long lasting semi sheen water proof appearance.

*Directions- Make sure tyre is clean and dirt free. Apply evenly with a brush to the whole of the tyre working it in to the side wall markings. Allow to dry.*

0704\*                  Glass Polish                  (Vue 20-20)                  5lts

Simple and easy to use glass polish with no chalk deposits and non rubber marking. Containing special solvents to clean and remove nicotine, finger marks, grease, oil and general dirt from glass and windows leaving a smear free finish. Non Silicone.

*Directions- Shake well before use. Apply sparingly to a lint free clean cloth and allow to dry, then after a suitable time buff off with a micro fibre cloth to give a crystal clear finish.*

### **Interior**

0720                  Plastic Trim Shine                  (Dasheen)                  5lts

Plastic, Leather & Vinyl dressing leaving a clean semi matt finish on all interior hard surfaces. Ideal as a light cleaner and leaves a pleasant "New Car" fragrance.

*Directions- Shake well before use. Can be applied via a low pressure hand sprayer, sponge or lint free cloth. Apply evenly and allow to dry for a semi matt finish. For a higher shine finish buff after drying to desired effect.*

0409                  Liquid Glass Cleaner                  (Crystal Blue)                  5lts

A special formulated non silicone liquid glass cleaner for quick and easy glass and window cleaning. Leaving windows and glass smear free inside and out. Removes all types of dirt and grime including stubborn nicotine.

*Directions- Apply direct to glass with a low pressure hand sprayer sparingly. Then with a soft micro fibre or with absorbent paper rub windows until Crystal Blue has evaporated leaving a crystal clean finish.*

0442 Upholstery & Fabric APC (G202/fabricare) 5lts

Concentrated heavy duty interior upholstery, trim and fabric all purpose cleaner. Cleans all surfaces found in a modern car, leaving a fresh clean surface ready for a dressing or can be left matt.

*Directions- Can be diluted 300:1 for light soiling. For heavy soiling dilute as required. Spot test a small area that can't be seen on fabric and upholstery. Allow to time for product to loosen dirt and wipe off with a dan cloth or use as a pre spotter with an automatic cleaning machine.*

### **Traffic Film remover (TFR's) & Degreasers**

0115 Mild Alkaline Pressure wash Detergent (Fleet Clean) & Degreaser 5lts, 25lts, 200lts

Our standard Traffic Film Remover and Degreaser. This is a versatile product ideal for fleet users or various fleet size and combination of vehicles. Economical in use and mild alkaline. Ideal for hot or cold water high pressure applications. Excellent cleaning performance for cleaning vehicles and degreasing, chassis, engine bays and engines.

*Directions- Set the detergent control to 2-3% solution as required. Apply solution evenly starting at the bottom of the vehicle and working upwards. After suitable contact time (not allowing the solution to dry on the vehicle) rinse off with clean water at high pressure for a clean streak free finish.*

0104 Non Caustic Pressure wash Detergent With Wax & Rinse Aid (Super Clean) 5lts, 25lts 25lts

Super Clean is a powerful non caustic detergent with wax and rinse aid. Ideal for cleaning cars, vans and vehicles with sensitive paint work or delicate livery. After a few washes you will notice a difference in the shine of the vehicle keeping it cleaner longer and enhancing the appearance.

*Directions- Set the detergent control to 2-3% solution as required. Apply solution evenly starting at the bottom of the vehicle and working upwards. After suitable contact time (not allowing the solution to dry on the vehicle) rinse off with clean water at high pressure for a clean streak free finish. the gloss and shine levels increase with frequent washing.*
