Wi-Fi Related

Connecting Your Mac Computer to a Secure Wi-Fi Network

Connect to a Wi-Fi network

Click 🛜 in the menu bar, then choose a network. If Wi-Fi is off, click ▽, then select Turn Wi-Fi On.*

If you connect to a public Wi-Fi network, a window might appear with terms and conditions you're asked to agree to before you can connect.

Connect to a secure Wi-Fi network

Secure Wi-Fi networks are password-protected and have 🔒 by their names.

1. Click 🛜 in the menu bar. If Wi-Fi is off, click ▽, then choose Turn Wi-Fi On.*

2. Choose a network.

3. Enter the password, then click Join. If you don't know the password to the Wi-Fi network, contact the network administrator.

Connect to a hidden network

1. Click 🛜 in the menu bar. If Wi-Fi is off, choose ▽, then choose Turn Wi-Fi On.*

2. Choose Join Other Network.

3. Enter the network name. Make sure you enter the network name correctly.

4. If the network is secure, choose the Security type, then enter the password.

5. Click Join.

Learn what to do if you can't connect to a hidden network.
