

Introduction

Since its formation in 1997, Cromar Building Products has taken advantage of its independent ownership to respond to market demands and provide customers throughout the UK and Ireland with exceptional service and value. Our extensive range provides merchants with a one stop shop for all flat and pitched roofing products along with a full portfolio of building chemicals, timber treatments, adhesives, sealants, tanking membranes and DPCs.

Continuous investment in research and development enables us to extend the diverse portfolio of products manufactured at our North Yorkshire base. This culminated in a seven figure investment for the design and construction of one of the most modern roofing underlay manufacturing facilities in Europe. Consequently, our lead times have been consistently among the best in the industry.

As a supplier to roofing, builders' and agricultural merchants throughout the UK and Ireland, Cromar is a member of NMBS so members have complete flexibility to buy from us without restriction. Our Associate Membership of the NFRC also illustrates our commitment to improving quality standards in the roofing industry.

At a time of continuing mergers, acquisitions and consequent reduction in supplier choice, we take pride in the fact that Cromar's independence gives us the flexibility to respond quickly to new and changing customer needs. This is why we not only supply one of the largest ranges in the industry but one which can be guaranteed to be at the forefront of new developments..

Roofing Underlays

The Vent3® Range of Breathable Underlays

HEAVYWEIGHT BREATHER HEAVYWEIGHT PERFORMANCE

VENT3® PRO is a **165gsm** heavyweight breathable roof underlay for cold and warm roof applications which gives major benefits over traditional roof underlays.

Vent3® Pro

A heavyweight performance breathable roof underlay for cold and warm roof application requires no ventilation.

- BBA certified
- Cold & Warm roof application
- 3 layer spun-bonded membrane
- Clean and easy to use
- Heavyweight performance & Flexibility
- Excellent tensile strength
- Green Surface prohibits glare
- No gusting wind noise
- UV stable for up to 3 months
- Excellent nail tear resistance
- Weight 165 gsm

Roll sizes available:
50m x 1m | 50m x 1.5m

Vent3®

A high performance breathable roof underlay for cold and warm roof application requires no ventilation.

- BBA certified
- Cold & Warm roof application
- 3 layer spun-bonded membrane
- Clean and easy to use
- Excellent tensile strength
- No gusting wind noise
- UV stable for up to 3 months
- Excellent nail tear resistance
- Weight 135 gsm

Roll sizes available:
25m x 1m | 50m x 1m
50m x 1.5m

Vent3® Classic

A lightweight breathable roof underlay for cold and warm roof applications which give major benefits over traditional roof underlays.

- BBA certified
- Cold & warm roof application
- 3 layer spun-bonded membrane
- Clean & easy to use
- Lightweight & flexible
- Excellent tensile strength
- Light grey surface prohibits glare
- UV stable for up to 3 months
- Requires no ventilation
- Weight 115 gsm

Roll sizes available:
25m x 1m | 50m x 1m
50m x 1.5m

Vent3® Light

An economy breathable roof underlay for cold and warm roof applications which give major benefits over traditional roof underlays.

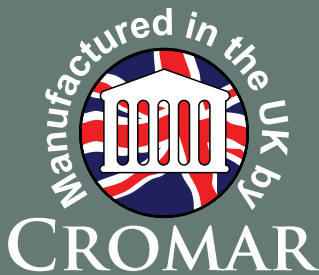

- BBA certified
- Cold & warm roof application
- 3 layer spun-bonded membrane
- Clean & easy to use
- Lightweight & flexible
- Excellent tensile strength
- Light grey surface prohibits glare
- UV stable for up to 3 months
- Requires no ventilation
- Weight 95 gsm

Roll sizes available:
25m x 1m | 50m x 1m
50m x 1.5m

On 1 January 2011 NHBC Standards Section 7.2 was revised requiring cold pitched roofs on NHBC warranty houses to have ridge or high level ventilation equivalent to a continuous opening of 5mm when vapour permeable underlays are used.

To comply with this requirement the combined use of Cromar Vent3 vapour permeable roof underlays and Cromar Universal Ridge will reduce the risk of harmful roof space condensation in cold pitched roofs. It is important to highlight that this additional ventilation is only required when seeking the NHBC warranty for houses with a cold roof construction.

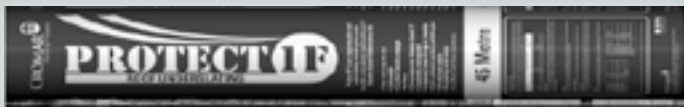

We have the solution

Use any of our Vent 3 Range of vapour permeable roof underlays in conjunction with our ventilated ridge kit.

Non-Breathable Underlay

Protect1F®
Is a non breathable roof underslating which gives major benefits over plastic and traditional 1F bitumen based underslating felt.

Roll sizes available:
15m x 1m | 45m x 1m | 30m x 1.5m

Roof accessories

Roof ventilation, Ridge Kits and Dry Verge

Ventilated Tile Range

Will fit most major manufacturer's tiles. Inline or cowl.
The low line 10k ventilation area is virtually flat with the sheet, whilst the 10k and 20k cowl in terracotta, slate grey, red and brown as standard.

Tile Vent - Flat

Suitable for:

- Russell Galloway, Grampian, Lotian, Moray
- Marley Modern
- Sandtoft Plain
- Redland Stonewold

Tile Vent - Double Pantile

Suitable for:

- Sandtoft Double Pantile
- Redland Double Pantile, Grovebury
- Russell Penine
- Marley Mendip

Tile Vent - Profile

Suitable for:

- Redland Brown
- Russell Cheviot
- Marley Ludlow
- Sandtoft Lindum

Tile Vent - Double Roman

Suitable for:

- Marley Double Roman
- Sandtoft Double Roman
- Redland 50 Double Roman
- Russell Double Roman

Universal Tile Ventilators

Designed to be unobtrusive and for use with the majority of manufacturers profiles and colours. Available as 10k or 20k Cowl and new Solar tiles. Moulded in 'HIPS' with UV stable paint to suit most colours.

Slate Vents

Designed to be both unobtrusive and practical. Available as low Line or Raised Cowl in Riven or Pinseal finishes in all standard slate sizes. The low line 10k ventilation area is virtually flat with the sheet, whilst the 10k and 20k cowl type have patented 'anti-splash sleeve' devices and fly screen protection.

Plain Tile Ventilators

Injection moulded offering precision and strength. Designed to suit all plain clay tiles and can be fitted without cutting the tiling battens. Suitable for pitches of 30° and above.

Pipe Adapters

Rectangle to round
110mm

Pipe Adapters

Square to round
110mm & 160mm

Accessories

Flexi tube
with clips
112mm

3-in-1 Ventilated Eaves Protector

The fast and easy way to ventilate and protect at the eaves, consisting of a 1000mm over fascia vent with integrated underlay support tray and eaves comb filler.

Bird Comb Filler

A physical barrier that prevents birds, bats and insects entering the roof void between the felt and tiles and causing nesting and infestation problems. Available in size: 1000mm

Over Fascia Vent

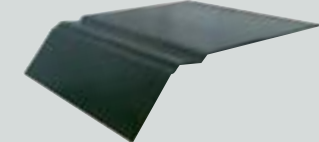

Available in 2 ventilation capacities. Allows an air stream in to the roof void between the felt and fascia board.

Available in sizes:
1000 x 10mm
1000 x 25mm

Underlay Support Trays

A support tray to ensure any underlay is not carried into the gutter, and prevents water ponding behind the fascia. Therefore reducing long term maintenance to the eaves of a building.

Size available:
1.5M X 300mm

5U Eaves Protector Strip

A support strip to ensure any underlay is not carried into the gutter, and prevents water ponding behind the fascia. Therefore reducing long term maintenance to the eaves of a building.

Size available:
16m X 333mm

Continuous Rafter Tray

Allows a constant flow of air between the loft space and outside meaning built-up moisture can escape.

Available in sizes:
6000 x 300mm
6000 x 400mm
6000 x 600mm
6000 x 800mm

Disc soffit Vent

Easy to install circular vent provides eaves ventilation through the soffit for new build or re-roofing.

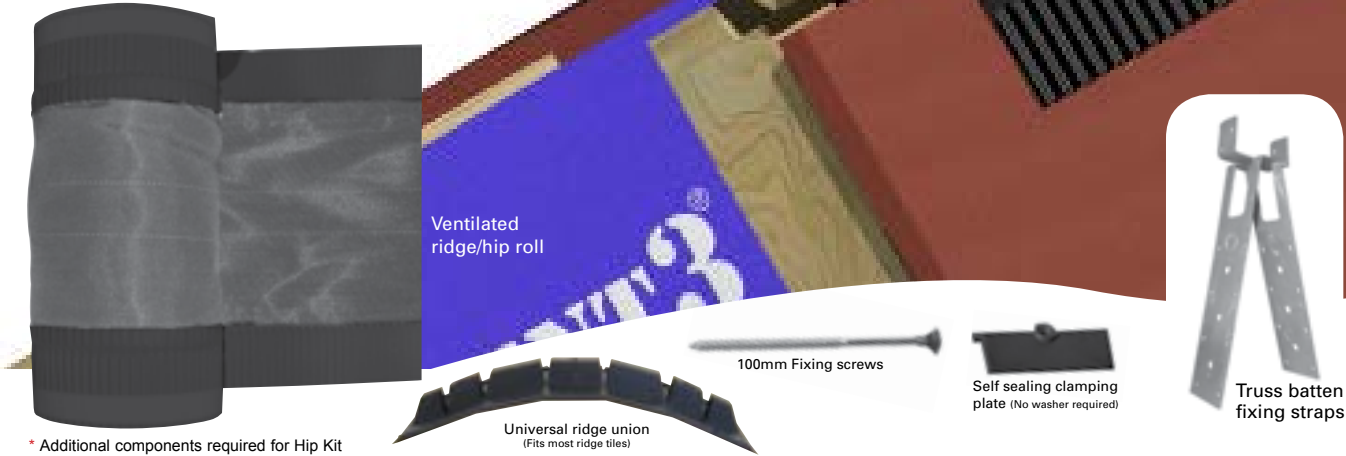

Colours:
White | Black | Brown | Tan

PRO-RIDGE

Universal Ridge & Hip System

- 1 kit will do both Ridge and Hip* application
- Patented ridge union design
- Universal ridge union works with most ridge tiles
- Pack includes ventilated ridge roll
- Available in 3m, 5m and 6m lengths
- 100mm coated fixing screws guaranteed to last a minimum 20 years
- Dry fixing - application in all weathers
- Quicker and easier to install over the mortar alternative
- Competitively priced
- Polyamide clamp no sealing washers required
- Screws and clamps in pre assembled bag for speedy installation

Universal Dry Verge System

- Fast fitting time
- Easy installation
- Compatible with most roof tiles
- Maintenance free
- 10 Year UV protection
- Attractive and functional appearance
- No need to cut or move tiles*
- Can be fitted in all weather
- Secure fixing offering better resistance to wind uplift

Available in left and right handed long and short sections.

Available colours:

RubberCoat

LIQUID RUBBER ROOF COATING

FLEXIBLE HEAVY DUTY LIQUID RUBBER WATERPROOF COATING

RubberCoat is a brush / roll-on high performance coating that can be applied over many surfaces including concrete, masonry, wood, brick, metal foam & more...

Forms a durable, seamless, waterproof membrane.

Use Indoor/Outdoor. Suitable for applications to steel & waterproof including bathrooms, basements, roofs, rain gutters, skylights, pipes, balconies & decks, planter boxes, shower pan liners, ponds & more!

- EASY TO APPLY - BRUSH, ROLLER & SQUEEGEE
- FLEXIBLE SEAMLESS TECHNOLOGY
- EXCELLENT UV, ADHESION & CHEMICAL RESISTANCE
- PROTECTS & BONDS TO VIRTUALLY ANY SURFACE
- EXCELLENT FREEZE / THAW RESISTANCE
- RESISTS CRACKING, CHIPPING, PEELING, IMPACT & ABRASION

Sizes Available

3.78ltr | 18.9ltr

WATER-BASED

ENVIRONMENTALLY SAFE

ZERO VOC's

**Rubbercoat + Universal Primer =
An ideal EPDM patch repair system**

RubberCoat UNIVERSAL PRIMER

- BONDS TO EPDM, TPO & OTHER DIFFICULT SURFACES
- EASY TO APPLY – BRUSH, ROLLER OR SPRAY
- FLEXIBLE SEAMLESS TECHNOLOGY
- RESISTS CRACKING, CHIPPING, PEELING, IMPACT & ABRASION
- EXCELLENT FREEZE/THAW RESISTANCE

GENERAL APPLICATIONS

RubberCoat Universal Primer bonds to EPDM, TPO, PVC, concrete, metal, wood, shingle, brick, masonry, foam and more.

RubberCoat Universal Primer is recommended for use as a primer for RubberCoat Waterproof Sealant.

Ideal as an EPDM patch repair primer when used in conjunction with Rubbercoat waterproof coating

Sizes Available

946ml

ELASTA-THANE

POLYURETHANE WATERPROOF COATING

Product Description

Elasta-thane is a premium, liquid applied, highly permanent elastic, cold applied and cold curing, one component polyurethane used for long lasting waterproofing. The Elasta-thane is based on a pure elastomeric hydrophobic polyurethane resins, which result in excellent mechanical, chemical, thermal, UV and natural element resistance properties.

Waterproofing protection of

- Bitumen felts
- Edpm
- Pvc membranes
- Acrylic coatings
- Green roofs
- Balconies, Terraces and Verandas
- Wet areas (under tiles) in bathrooms and kitchens
- Pedestrian and vehicular traffic decks
- Concrete constructions like bridge decks, carparks etc...

Elasta-thane Advantages

- Simple application
- Totally seamless
- Resistant to water and frost
- Provides water vapour permeability so the surface can breathe
- Excellent thermal resistance
- Excellent weather and UV resistance
- Solar reflective
- Maintains its mechanical properties from -40°C to +90°C
- Excellent adhesion to almost any type of surface
- Resistant to detergents, oils, seawater and domestic chemicals.

Size available:
25kg

Colour available:
Grey

ELASTA-THANE

RAPID CURE CATALYST

Product Description

Elasta-thane rapid cure catalyst is an accelerating additive for use with Elasta-thane polyurethane waterproof coating.

Size:
750gm per 25kg or Elasta-thane

Cromapol

One Coat Instant Waterproofing

Cromapol will waterproof instantly, even while wet, and will not wash off while curing. It is ideal for use in damp conditions. Will withstand ponding and covers in only one coat*.

CROMAPOL ADVANTAGES

Great adhesion | Application in damp weather | Instant protection
No wash off | Excellent solar reflectivity | Reinforced membrane
Application in one coat | Seamless | Fully flexible | Unaffected by temperature | Economical

WATERPROOF PROTECTION OF:

Flat and pitched roofs | Corrugated asbestos | Roof lights | Flashing
Roofing felts | Gutters | Slate | Asphalt | Lead | Glasshouses | Metal | Fibreglass

Cromapol 20kg

Grey | Black | White

Cromapol Tube
Emergency Roof
Repair

Grey

Cromapol 1kg
Emergency Roof
Repair

Grey | Black | White

Cromapol Clear
The Benefits are Clear
A clear fibre free acrylic roof coating designed for use predominantly on roof lights and to provide a clear weather proof protection to most common surfaces.

Available in 5kg and 20kg

Reinforcement Scrim

For use when extra reinforcement is required.
• Cracks in corrugated asbestos and gutters
• Splits in felt and asphalt roofing
• Gutters
• 50m x 1m

*Check data sheet for full application guidelines

Bitumen Products

Waterproofing, Roof Maintenance and Reflective Paints

Bitumen Roof Waterproofing Compounds continue to represent exceptional value for flat roof weatherproofing and emergency repairs. Our range covers every application including Cromaprufe which is a liquid damp proof membrane.

Black Bitumen Paint

A general purpose paint for waterproofing and weather protecting steelwork and concrete.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Aluminium Paint (Contractor Grade)

Bright aluminium, traditional, solar reflective coating suitable for application to bituminous roofing substrates.

Premium grade also available
Sizes:
1.0 | 2.5 | 5.0 | 25.0

Roofing Felt Adhesive

Cold applied bituminous adhesive for bonding successive layers of roofing felt.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Allweather Roofing Compound

Filled bituminous solution for overall waterproofing of roofs. Can be applied to dry surfaces all year round.

Sizes:
2.5 | 5.0 | 25.0

Cromaprufe

Rubberised bitumen emulsion. General purpose product used on walls and floors to prevent water ingress and dampness from the ground. Can also be used on roofs and as wood block floor adhesive.

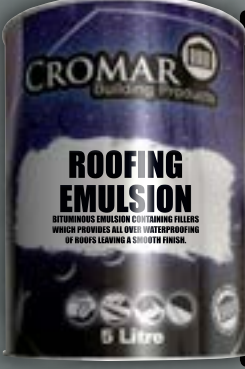

Sizes:
2.5 | 5.0 | 25.0

Trowel Mastic

Heavy body bituminous mastic for sealing cracks and spills in roofing substrates and gutters.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Roofing Emulsion

Bituminous emulsion containing fillers which provides all over waterproofing of roofs leaving a smooth finish.

Size:
5 | 25.0

Bitumen Primer

Low viscosity bituminous primer for use on porous surfaces before remedial roof treatment, including pour and roll and torch-on felt applications. *Quick drying version also available.*

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Cold Gritting Adhesive

Cold applied bituminous adhesive for bonding chippings to flat or low pitched roofs.

Sizes:
5.0 | 25.0

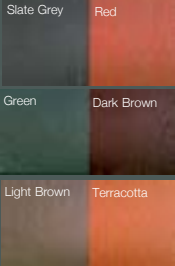

RENOCOAT

WATER BASED ROOF TILE RENOVATION PAINT

A water based roof tile renovation paint is a quality acrylic coating to give a long lasting protective & decorative finish on slate and concrete roof tiles. RENOCOAT is suitable for use on all exterior roofs and has excellent adhesion properties on porous surfaces.

Sizes:
5.0 | 20.0

Colours available

www.cromar.uk.com

Cromasol
Solvent based reflective coating for use on bituminous surfaces. Can be used on roofs that are subject to standing rain water.

Colours:
Grey | White

Sizes:
5.0 | 20.0

PROGRP

ADVANCED GLASSFIBRE ROOFING SYSTEM

No Joints
No Seams
No Leaks

Benefits of a GRP System

- COLD APPLIED
no heat required
- EASY TO FORM
around complex situations
- VERY DURABLE
resists heavy foot traffic
- NON-SLIP WALKWAYS
can be incorporated
- CLASS LEADING ROOFING SOLUTION
that far exceeds traditional methods
- VIRTUALLY MAINTENANCE FREE
for very long periods of time
- IMPACT RESISTANT
due to its ultra hard finish
- FIRE RETARDANT
- HIGHLY ECONOMICAL SOLUTION

What is PRO GRP?

GRP stands for Glass Reinforced Polyester. GRP is also known as Glass-Fibre. This system is cold applied on site, giving it a seamless and flexible weatherproof finish that resists water, heat and frost. The resulting surface gives a strong architectural finish that looks very impressive. If maintained properly it will last as long as the building stands.

We have developed this technology further to produce the perfect all weather protection for any flat roof. PRO GRP can be applied in small domestic situations right through to large industrial environments.

Lead replacement products

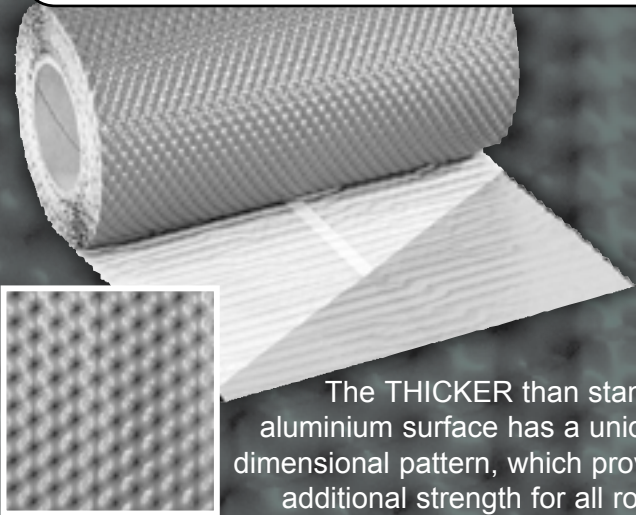

Flashing and patination oil

LEAD-FREE PLUS

Is a high performance low cost aluminium self adhesive flashing suitable for use as an alternative to traditional lead in both flat and pitched roof applications.

Typical Installation

- Abutments ■ Chimneys ■ Dormers ■ Saddles
- Soakers ■ Stepped ■ Valleys ■ Windows/Rooflights
- Gutters

The THICKER than standard aluminium surface has a unique 3 dimensional pattern, which provides additional strength for all roofing applications.

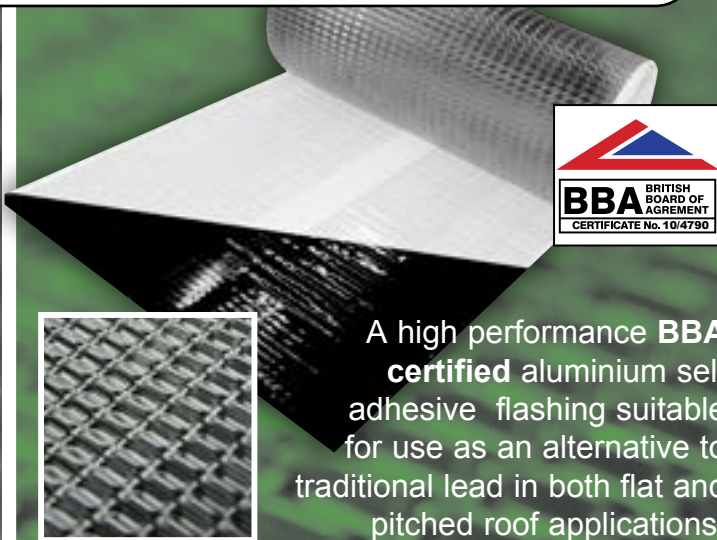

Product Data			
Roll width/mm	150	300	450
Roll weight/kilos	1.5	3	4.5
Roll length/metres	5	5	5
Rolls/box	1	1	1
Rolls/pallet	144	72	48

Mage Flex

BBA certified aluminium flashing

Benefits

- BBA Certified (Mage Flex) ■ Versatile ■ Waterproof
- Durable ■ Malleable ■ Lightweight ■ Easily Cut
- Easily Repaired ■ No health and safety issues
- No re-sale value ■ Alternative to traditional lead

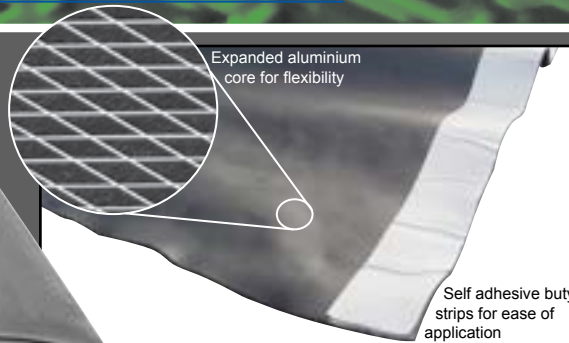

A high performance BBA certified aluminium self adhesive flashing suitable for use as an alternative to traditional lead in both flat and pitched roof applications.

Product Data			
Roll width/mm	140	320	450
Roll length/metres	5	5	5
Rolls/box	4	4	4
Rolls/pallet	160	160	64

CromaFlex Premium lead replacement

CromaFlex is a lead substitute manufactured with a base of EPDM and aluminum expanded metal. Here the exceptionally flexible and malleable properties of the metal with the excellent UV and ozone resistance of EPDM combine to provide a totally unique product.

- Appearance of lead
- Lighter than lead & Easier to use
- No scrap value - No risk of theft
- 50% quicker to install than lead
- Self adhesive Butyl strip for ease of application

CromaFlex is designed to replace lead in most modern roofing applications. The product has many advantages over traditional lead flashings for those working in the construction industry, including the simple and quick installation process and non-toxic, lightweight material.

Available in 5m rolls 150mm, 225mm, 300mm, 450mm, 600mm

Croma Flashing Tape

Self adhesive bitumen coated, heavy duty lead look finish for trade use.

Sizes available:
50mm x 10m in boxes of 6
75mm x 10m in boxes of 4
100mm x 10m in boxes of 3
150mm x 10m in boxes of 2
225mm x 10m in boxes of 2
300mm x 10m in boxes of 1
450mm x 10m in boxes of 1
600mm x 10m in boxes of 1

Patination Oil

Specially developed to reduce unsightly staining and provides a pleasing appearance to newly applied lead sheet and flashings.

Sizes available:
1 Litre

Building Chemical

Admixtures, Surface Treatment and Bonding Agents

An ideal variety of products for interior and exterior applications. This includes mortar tones in both liquid and powder form, to provide permanent colour to all types of mortar, renders and concrete. Alongside traditional mortar admixes, for ease of use and convenience.

Water Resistant Wood Adhesive

Easy to use wood glue that bonds to form a permanent and inseparable joint. Conforms to the requirements of the European Standard D3/3 and D3/4. Not suitable for joints subject to continuous water submersion.

Sizes:
500ml | 1.0 | 2.5 | 5.0 | 25.0

Contract PVA Bond

A contractor grade Multi-use admixture and adhesive used as a bonding agent, sealer and admixture for concrete mortars and plasters, for use internally.

Sizes:
0.5 | 1.0 | 2.5 | 5.0 | 25.0

PVA Bond

Multi-use admixture and adhesive to BS5270 used as a bonding agent, sealer and admixture for concrete mortars and plasters, for use internally.

Sizes:
0.5 | 1.0 | 2.5 | 5.0 | 25.0

Mortar Plasticiser

To BS 4887, liquid admixture used in bricklaying and plastering mortars to aid workability.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Integral Waterproofing

Designed to improve resistance and the ingress of water in renders, mortars and concrete.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

SBR Bond

A styrene butadiene synthetic rubber bonding compound with excellent waterproofing properties. To be used externally this reduces cracking and shrinking in repair and screeding mixes.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Masonry Dry Rot Killer

To destroy and prevent reinfestation by wood rotting fungi particularly dry rot.

Sizes:
2.5 | 5.0 | 25.0

Stabilising Solution

Fine polymer emulsion which penetrates dusty, chalky and badly weather surfaces. Suitable for interior and exterior use.

Sizes:
2.5 | 5.0 | 25.0

Frostproofer

Accelerator and plasticiser for use in structural and non-structural concrete.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Concrete Hardener & Dustproofer

A reactive treatment for cement based flooring for new floors or to cure dusting on old poorly laid floors.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

3 in 1 Admixture

Triple action admixture. Waterproofs, plasticises and retards to assist workability reduce water penetration and allow larger areas to be covered in one application.

Sizes:
0.5 | 1.0 | 2.5 | 5.0 | 25.0

Moss & Mould Remover

To treat and remove active mildew, fungi and moss.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

More 2 Mix

New and innovative concentrated product that is equivalent to 25 litres of normal plasticiser

Sizes:
1.0

Brick & Patio Cleaner

An acid based solution for removing cement mortar stains from brick tiles, earthenware and patios.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Block & Paving Sealer

A water based sealer for block paving and porous masonry. This reduces staining, loss of jointing sand and enhances appearance.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Liquid Mortar Tone

Formulated to provide a permanent colour to all types of mortars, rendering, concrete and pointing.

Colours:
Brown | Black | Red

Sizes:
1.0 | 2.5 | 5.0

Allweather Roofing Compound

Formulated to provide a permanent colour to all types of mortars, rendering, concrete and pointing.

Colours:
Brown | Black | Red | Yellow

Sizes:
1kg

Water Seal

Clear high performing waterproof treatment for porous surfaces

BRICKWORK WOOD CONCRETE

Can also be used on ASBESTOS, STONE FIXING AND CEMENT

Brickwork

Wood

Concrete

EXTERIOR WATER SEAL

Is a micro-porous clear waterproofing treatment for porous exterior surfaces such as brickwork, concrete and timber. Imparts superb, Long lasting water resistance.

Sizes:
1.0 | 2.5 | 5.0 | 25.0

Stay Putt Paving Compound

Stay Putt Narrow Joint Compound

FOR BLOCK PAVING

Stay Putt Wide Joint Compound

FOR FLAG PAVING

Colours:
Buff | Grey

Sizes:
15kg

Joint Sizes:
Narrow | Wide

- Easy to apply as kiln dried jointed sand But with added benefits
- Reusable
Not vacuum packed so there's No Waste
- Ready to use
Just Sweep, Wet & Go
- Non staining
- Tough & long lasting
Superior adhesion
- Inhibits moss, weeds, algae growth
And removal by insects
- Water permeable
Allows water to escape

Sealants

Adhesives, Fillers and Foams

G.P. Silicone
Universal
A competitively priced, high modulus silicone for use in all building applications. Contains fungicide.

Colours:
White | Clear
Brown | Black

25
per box

Building Silicone
A low modulus neutral curing silicone that conforms to BS5889 (A), for sealing of construction and dilation joints and perimeter pointing around all types of frames.

Colours:
