Dekart Logon Quick Start Card

Dekart Logon is a simple and safe tool to reinforce your PC access control

System Requirements

- ❑ Workstation running a Windows* operating system
- ❑ CD-ROM drive
- ❑ 400 KB of free disc space for the product installation

If smart cards are used (for example, Multiflex, Payflex, or Cryptoflex from Schlumberger*):

- ❑ Smart card reader complying with the PC/SC specifications (if it is not shipped together with the smart cards)
- ❑ Free port suitable for the reader
- ❑ One of the following operating systems:
  - ❍ Windows 95 (Windows 95 OSR2.1 is required if the reader uses the USB interface)
  - ❍ Windows 98
  - ❍ Windows Me
  - ❍ Windows NT 4.0 Workstation with Service Pack 6a
  - ❍ Windows 2000 Professional with Service Pack 2 SP2
  - ❍ Windows XP Professional

If the eToken* keys are used:

- ❑ USB port
- ❑ One of the following operating systems:
  - ❍ Windows 95 OSR2.1
  - ❍ Windows 98
  - ❍ Windows Me
  - ❍ Windows NT 4.0 Workstation with Service Pack 6a
  - ❍ Windows 2000 Professional with Service Pack 2 SP2
  - ❍ Windows XP Professional

Preliminary Requirements

If smart cards are used:

- ❑ Smart card reader drivers and tools. Their latest versions can be downloaded from the Web sites of respective vendors.

If the eToken keys are used:

- ❑ The *RTE* with drivers and utilities. The latest version can be downloaded from http://eAladdin.com.

For Windows 95/98/NT:

- ❑ The *Microsoft* Windows Installer (MSI)* tool for the *RTE* installation. It can be downloaded from http://support.microsoft.com/downloads/.

Auxiliary Components Installation
(if required)

If smart cards are used:

Smart card reader driver installation

1. Insert the *Dekart Logon* product CD into the CD-ROM drive.
2. Select *Smart card reader driver installation* from the menu.
3. Attach the reader to the computer.
4. Follow directions on the screen.

If the eToken keys are used:

The eToken RTE installation

1. Under Windows 95/98/NT operating systems, install the *MSI* tool.
2. Insert the *Dekart Logon* product CD into the CD-ROM drive.
3. Select *Install the eToken RTE* from the menu.
4. Follow directions on the screen.
5. Under Windows NT, reboot the computer to utilize the *eToken*.

eToken Installation
(if required)

1. Insert the *eToken* into the USB port.
   - Under Windows 95/98/Me/2000/XP, installation is carried out automatically. Wait until it is completed. No actions are required.
   - Under Windows NT 4.0, the *eToken* is installed during the previous step. No additional actions are required.
2. Check whether the *eToken* workstation installation is correct:
   - *eToken* LED indicator must start glowing.
   - One or several *Aladdin IFD Handler* drivers and one or several *eToken* devices must appear on the workstation hardware list.
   - An incorrectly attached or out of order *eToken* is not on the list. Re-install it, or refer to the Dekart, Inc. technical support service.

Dekart Logon Installation

1. Insert the *Dekart Logon* product CD into the CD-ROM drive.
2. Select *Install Dekart Logon* from the menu.
3. Follow directions on the screen.

Dekart Logon Update

1. Insert the *Dekart Logon* product CD into the CD-ROM drive.
2. Select *Install Dekart Logon* from the menu.
3. Follow directions on the screen.
