JBS LOGISTICS

The Driving Force Behind Your Success

www.jbstrans.com

Trusted Service for Over 30 Years

History

Built from the ground up by business partners Sam DiMaio and Alec Gizzi, JBS opened its doors in 1986 as an 8,000 SF warehousing and transportation facility servicing the high-valued electronics (Stereos, VCRs, TVs) industry. Now headquartered in centralized Naperville, Illinois, JBS spans over 800,000 SF consisting of Food-grade Warehouses and Cross-dock Operations. The Trucking Division excels with Truckload, Volume LTL, and Small LTL to and from the Chicago-land area. The Brokerage team provides efficient, cost-saving solutions for shippers all over the Continental US leveraging their Carrier Network. To this day, JBS remains a family-owned operation under the Koch Companies business solutions.

1986
Opens an 8,000 SF facility in Addison, IL as JBS Services, providing warehousing and transportation services

1987
Changes its name to JBS Logistics, Inc and obtains Contract Carrier Authority from the ICC

1988-1990
Expands warehouse operation to 150,000 SF in Glendale Heights, IL and specializes in Food-grade Operations to include 10,000 SF of Temperature Conditioned (55-60°) Space

1996
Acquires Valley West Transport and increases its truck fleet to 40 tractors and 60 trailers

2000-2009
Partners with KFS Services to expand international services, air-freight, expedited truck operations, and warehouse space in Alliance, TX; Los Angeles, CA; and El Paso, TX

2011
Moves its headquarters to a new 310,000 SF Food-grade Facility in Naperville, IL and converts 80,000 SF of Ambient Space into Temperature Conditioned (55-60°) Space

2016
Acquired by Stan Koch & Sons becoming JBS Logistics & Warehousing, Inc, combining all of JBS warehouse and transportation services with Koch Companies

2018
Increases its warehouse footprint acquiring an additioanl 400,000 SF of Food-grade Space in Aurora, IL

2019
Expands its Food-grade Temperature Conditioned (55-60°) Space in Naperville, IL to 180,000 SF

Supply Chain Optimization

Eliminate Risk with 3PL

JBS has been a long-time leader in the freight transportation industry since 1986. Our 3PL Brokerage Division has contracts with thousands of licensed and insured motor carriers that have been thoroughly vetted by our expert team. Our best-in-class Carrier Network mitigates risk for our customers. We ensure that every carrier we use is licensed with the US DOT, has the right insurance coverage, and is not listed as “Unsatisfactory” by FMCSA. We have “Certified Transportation Brokers” (CTB) that are well trained in all current government Rules and Regulations. This large carrier base approach empowers our customers to receive the best competitive pricing.

Koch Trucking Network is located throughout the USA, specializing in long-haul, regional, and dedicated fleets tailored to our customers’ unique needs. Trucks are equipped with the latest safety equipment, communication technology and ELDs (Electronic Logging Device) to ensure your shipment arrives safely and on time.

Manage Inventory Efficiently

Dedicated Customer Service

WMS Digital Tracking

24/7 Security & Video Surveillance

Whether you are a Fortune 100 company or an enterprising small business, your success is our driving force. We offer high efficiency storage and complete fulfillment distribution throughout the United States. We excel at complex logistics that require time sensitive deliveries and removals. Our team has an in-depth knowledge and over 30 years of experience of what it takes to successfully complete even the most complicated projects.

Headquartered in Naperville, Illinois (western suburb of Chicago) with approximately 800,000 SF of Food-grade warehousing capacity, JBS provides every customer access to our Warehouse Management System (WMS) that gives online inventory tracking with daily shipping and receiving reports. We generate bill of ladings, packing slips, and custom shipping labels. Our Fulfillment / Assembly services include pallet and case picking, master packaging, and eCommerce integration for a complete 3PL distribution solution.

JBS assigns a dedicated Warehouse Customer Service Representative to manage your account and become familiar with your products, services, and internal operations. JBS becomes an extension of your supply chain team.
