

# ONLY THE *Best* WILL DO

HOLME DESIGN,  
BEDALE

**H**aydn and Mel Armsby — the husband and wife duo behind Holme Design — certainly aren't content to rest on their laurels. Only last year they opened a magnificent new showroom in Bedale's £1.45m Craft Yard, and already they've added a whole new extension showcasing gorgeous high-gloss surfaces, high-tech design solutions and ingenious high-specification appliances.

Whether you're looking for a traditional style kitchen to

complement a period property or for something chic and ultra-modern, Holme Design is a great place to come to for ideas and inspiration. And regardless of whether your project involves redesigning a single room or undertaking a full-scale renovation, Haydn and Mel are ideal sources of advice.

"Haydn has had over 30 years experience designing kitchens, bathrooms and bedrooms with some of the most prestigious

and successful retailers here in the North, and he has an in-depth knowledge of every aspect of the supply and installation process," says Mel. "And as a family run business rooted in the local community, Haydn and I look after every single customer personally. We get masses of very positive feedback from our clients, and personal recommendations from satisfied customers are one of the main reasons our business has grown so quickly."

"We are passionate about what we do, and we're delighted to be able to offer a carefully selected range of kitchens unique to the Dales area. For example, we're very excited about the latest additions to the range of Charles Rennie Mackintosh kitchens by

so much easier to load, and ideal for people with restricted mobility."

"Also very popular with our clients are our 100°C boiling taps, available as a single, neat tap unit that can supply cold, warm or boiling water.

of our team of qualified tradesmen — only the best will do. Naturally we can handle every stage of the installation process, including joinery, plastering, electrics, lighting, flooring and decorating, as required. But we're very happy to provide a supply-only service

Omega. These come in fabulous high gloss, painted or natural wood finishes, and in a wonderful range of styles. Whether you're looking for something classic or modern, you really should check them out — they are absolutely stunning."

"And of course, even if you're looking for a traditional style kitchen, there are all sorts of modern conveniences that can be seamlessly integrated into it. Induction hobs, for instance — they're quicker than gas, and cleaner to use and more economical too. Or inline dishwashers, which are

And they really do supply boiling water, not the 98°C water that some brands give you — so you can be confident of getting a decent cup of tea. They're child-safe too."

"To ensure that you get exactly the kitchen you want, Haydn hand-draws designs to scale and then transfers them onto computer, giving detailed 3D CAD images that will help you envisage and refine your chosen design."

"All of our suppliers were selected because they work to the very highest quality standards, and the same is true

too — so it's entirely up to you how much support you would like us to give you."
