# DSK Canadian Cream Sale

Chris Knox and Helen Alexander from DSK Angus at Borah Station, Coonabarabran have had a vision for decades of what type of cattle to breed for the sole intent of profitable and easy to manage beef production. This mostly has meant the stud has stayed away from mainstream Angus AI sires with the aim to produce outcross genetic Angus that will complement the Angus breed. At DSK we have always strived for the larger framed animals with correct structure with good muscling and finishing ability whilst maintaining fertility. We recognise consistent breeding is your main profit driver in any beef enterprise with easy maintenance of the herd and early finishing of the end progeny a big part also.

With the DSK stud female sale in 2012, this allowed DSK to seek out new outcross genetics from Canada, USA and Western Australia. We were interested in backing up the success of our Canadian blood sires Remitall H Rachis and Black Velvet Willyboy J31. Willyboy J31 was the original foundation paddock sire at DSK when it began. J31 achieved Grand Champion at Brisbane Royal and Melbourne Royal in 1991 and Sydney Royal in 1992. J31 was sired by Canadian sire Double A Willy Boy 2S.

**Remitall H Rachis 21R** was procured as an exclusive AI sire in 2008 after viewing his progeny at Remitall Angus in Alberta, Canada, as well as the bull himself. Rachis 21R has all the attributes to be the next great breeding bull: performance, low birth weight, phenotype, strength of pedigree, temperament, structural soundness, and stoutness of bone. His track record at the shows includes being named the 2006 Canadian National Reserve Champion Bull and the 2007 Edmonton FarmFair Grand Champion Angus and Supreme Champion Bull over all breeds. Not just another pretty show bull, Rachis 21R bred over 60 females natural service in the summer of 2007 at Cooke Livestock who owned 50% of Rachis at that time, before winning his FarmFair title. His first progeny born were very moderate at birth, and he has been successfully used on first-calf heifers. This is one of the most dynamic bulls we have seen, a great young sire who will make a lasting impact on the Angus breed. His first drop of Australian born calves at DSK proved to be just as successful with progeny winning Sires Progeny Groups at Melbourne Royal Angus Feature show in 2011, Canberra Royal in 2012 and Rockhampton Beef 2012 as well as Grand Champion Angus bull Canberra Royal 2012, Reserve Champion Junior Angus Bull Melbourne Royal 2011 and Calf Champion Angus

Bull Rockhampton Beef 2012. With sons selling to \$20,000 and daughters to \$16,000.

In late 2012 Helen viewed the herd at Coldstream Angus in Alberta, Canada. This herd has traded genetics internationally as well as across Canada with genetics performing extremely well in the UK. We were particularly attracted to the highly productive daughters of Coldstream Paradox 73N who was Senior Champion bull at Farmfair International in 2005 and the Canadian World Angus Forum in 2009. DSK successfully purchased two females including **Coldstream Blackbird 73Y** who is a maternal sister to Paradox 73N.

**Coldstream Lady Heather 92S** was the 2<sup>nd</sup> female purchased by DSK and is sired by Paradox 73N and 92S had an excellent daughter in the sale which was our pick of the day. A  $\frac{3}{4}$  sister to 92S also by Paradox was the high selling cow selling to Mooline Angus, of Denmark.

These 2 females produced nearly 150 embryos for us and with a high percentage of calves born at DSK so far being female, it enables DSK to offer these unique females in the lanes at Sydney Royal 2016.

The sale will be conducted by Landmark using the Helsman sale system which will be running during the judging weekend and concluding at 5pm on Monday the 21<sup>st</sup> of March.

Matriarch Coldstream Lady Heather 92S has four heifers being offered and sired by Rachis, DBRL 03M Titan 4T, and **Young Dale Xcaliber 32X** which will be the first live progeny of this exciting new Canadian sire to be offered in Australia. Xcaliber 32X is the sire of the recently awarded Grand Champion Pen of 3 Bulls at Denver National Stock Show 2016.

Coldstream Blackbird 73Y is represented by 2 heifers, one being by Rachis and the other being by LLB Freewheeler. These heifers will have full male siblings on display in the DSK show team.

An outstanding Rachis sired heifer from a strong DSK female line will also be on offer. This outstanding high performance heifer showing easy doing with great skin and hair type will impress seedstock producers.

For some 28 years the DSK programme has produced larger framed well-muscled Angus with structural soundness. This has resulted in producing major results in all shows including all east coast Royal shows, sales, feed trials and carcase competitions. At the 2015 Sydney show, DSK missed Grand Champion purebred carcase by one half of a point scoring 93 points with a pure Angus steer sired by resident DSK walking sire, Kansas Upward G198 who continues to be a calving ease specialist.

**Chris; 0427 600 278 during the show**

**Helen; 0438 600 278 show weekend only**

**Sale is by Helmsman Auction.**

**Standard Terms & Conditions of sale as stated by  
the Livestock Agents Associations**

**All prospective purchasers MUST register with the  
sale agents and receive a bid card number.**

**All bids to be given to the agents only with the sale  
commencing at 9am on Thursday the 17th March  
and concluding ***AT THE DSK STALLS*** at 5pm on  
Monday the 21st March.**

**All cattle to be transferred by the vendor upon the request of the purchaser with all society details given to the vendors in writing or by email at the time of the sale end or soon after.**

**Vendor guarantee on fertility and soundness on offer up to 12 months following the date of sale on all live lots upon the receipt of a valid veterinary certificate and the return where possible of the lot in question to the vendor or to Ced Wise AB services at Stanthorpe QLD whichever is closer.**

**All females guaranteed breeders where proper nutrition has been maintained and no injury or illness has occurred post sale. Where embryo flushing has been attempted all guarantees become void.**

**If within 6 months of return to DSK or Ced Wise AB services the female has not become pregnant the vendor will return the purchase price in full to the purchaser.**

**There is a 50% guarantee of pregnancy on the embryo lots on offer with implant by a recognised and veterinary certified embryo specialist. Embryos are stored at DSK and will be delivered to Excel genetics at Tamworth (Geoff Steinbeck 0427 056 017 and email for Excel is [steinab@bigpond.com](mailto:steinab@bigpond.com)) for delivery at the purchasers expense.**

**There is no guarantee on the semen lots as per most semen sales conducted nationally. Delivery will be from Excel Genetics of Tamworth for delivery at the purchasers expense.**

Excellent breed cow in the making here. This outstanding young female combines high performance, correct structure, excellent skin and hair type and bomb proof temperament with an impressive pedigree. Sired by Rachis from a strong cow family from a first calf heifer who has another great heifer at foot now and has joined our donor program. Grand-dam is a big capacity cow and a top matron sired by DSK Yardarm Y27 who was Supreme Interbreed Champion at Brisbane Royal in 2005 and sold for \$38,000. Yardarm sired the Reserve Senior Champion Bull at Sydney Royal in 2015 for Talis Angus and sold for the sale top price of \$16,000 at the Sydney Angus sale. We value our Rachis females highly and we can only offer heifers of this calibre due to successful flushing programs at DSK. We offer this heifer with the highest recommendation. Class winner at the 2016 Angus Roundup.

**AI'd to Poss Total Impact on the 16/10/2015 and followed up to Kansas Upward G198.**

**Positive Pregnant 18 weeks on the 29th Feb by Ced Wise.**

We flushed our Canadian matriarch to Titan twice due to the fact a full sibling heifer was our 3 tick pick at the Coldstream dispersal. K39 has a strong muscle pattern with good spring and depth of rib with a great skin and hair type. A moderate framed female that will join well to a variety of sires with her outstanding outcross pedigree. Full flush sister to lot 6. **Sells open** to join to the sire of choice.

Another real standout Rachis heifer with plenty of eye appeal. This impressive heifer won her class at the 2016 Angus Roundup. L34 shows strength of spine, depth and spring of rib, plenty of performance whilst maintaining a very feminine outlook. Daughter of our Canadian matriarch 92S and a full sibling to L40 who will compete in the 12 to 14 month bull class at Sydney this year. Both display excellent skin and hair type as we expect from 92S progeny. An impressive young female who will make a valuable contribution to any seedstock operation. **Sells open** ready to join to sire of your choice.

This smart young heifer displays tremendous strength of spine with depth of side in a moderate package. L39 has a strong musclin which is evident in all 73Y progeny. Sired by LLB Freewheeler who has left a strong legacy in the LLB herd which we inspected on our recent visit. Once again we have a unique outcross heifer who will make a major contribution to the Australian Angus herd. 2 full sisters retained so far. **Sells open.**

A heifer that always takes your eye in the paddock with her tremendous length combined with thickness and width of pins which we find the Canadian Angus have maintained over mainstream Angus lines. L63 has a strong muscle pattern like her siblings L38 and L62 which are also showing in the DSK Angus Sydney show team. It seems this extra muscle content comes from the dam 73Y. Another exceptional young Rachis female with a powerful maternal pedigree. **Sells open.**

Here we are. The first Young Dale Xcaliber progeny to be offered for sale in Australia. L74 is the result of a full Canadian imported embryo from our Canadian matriarch Lady Heather 92S. Showing high performance with that extra dimension through the hindquarter which we know Xcaliber will give us. This heifer has had limited preparation only brought in to feed from a very dry paddock on the 29th January. She has responded very quickly for a young female. We are looking forward to Xcaliber daughters to come into production as we were excited by his young matrons in the Young Dale Angus herd when we visited in Sep 2015. L74 will mature into a strong cow with plenty of capacity and growth that will suit a multitude of Angus sires and will make her mark in the Australian Angus breed. Class heifer only 10 months old. **Sells open.**
