YOUR LOCAL APPROVED VICTORY CONTRACTOR:

CREATE NEW SPACES

Victory's Opening Louvre system is leading the industry in design and practical functionality. Create a great-looking outdoor living area that features award-winning technology and an integrated series of louvres giving you endless options to revolutionise your lifestyle.

VICTORY

OPENING LOUVRES

WITH VICTORY, YOU'VE ALREADY WON.

There's nothing more Australian than an outdoor barbecue lunch with a beverage in your own outdoor living area. If you want control over your lifestyle, Victory Opening Louvres allow you to select as much or as little sun and weather as you like. Enjoy peace of mind under your new Victory Louvre system with our unbeatable, watertight warranties. When you choose a Victory system you are choosing the best system available, a unique system from Revolution Roofing that has evolved over two decades from research and development in the home improvement industry.

OPEN YOUR HOME TO VICTORY'S SUPERIOR OPENING LOUVRES

Victory's Opening Louvres are designed with quality and durability in mind – there has never been a better time for true indoor-outdoor living to come to your place.

Great-looking, long-lasting 200mm wide blades provide excellent large-spanning capabilities, creating ample living space to enjoy on any verandah. Our Opening Louvre system is engineered by experts and is the only system on the market available in 100% Australian Colorbond® Steel or high grade aluminium - perfect to suit every application. Our louvres are powered by Somfy - the world's leading European tubular motor manufacturer.

WHY CHOOSE VICTORY OPENING LOUVRES? IT'S AN OPEN AND SHUT CASE

Victory's beautiful convex louvre blades provide a fully customised solution for a roof or screen with our unique large span giving you more design options.

Each blade in the Victory system is individually driven, meaning smooth, maintenance-free operation for years. Not only that, the system is powered by a 240 volt high quality Somfy motor rather than the 12 volt motor on other products.

Our Victory system is more efficient and quieter; a fully enclosed drive mechanism and woolpile closing strip ensuring silent closing and rattle-free operation. Unlike anything else in the market, the blades rotate 180 degrees thanks to our award winning Spiral Pivot System. This means you have more control and can stop the blades at any point, maximising your comfort whatever the weather.

VICTORY OPENING LOUVRES BROUGHT TO YOU BY REVOLUTION ROOFING

OPEN YOUR LIVING

PROVIDE A FUNCTIONAL SPACE - AFTER HOURS AND DURING WINTER

CONTROL YOUR LIGHT

AFTER

BEFORE

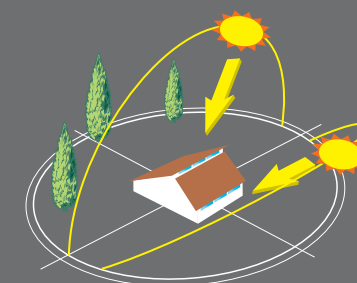

ENJOY YOUR VIEW

WE'LL HELP YOU PLAN FOR THE SUN

A Victory Opening Louvre system will enable you to enjoy the best use of the sun and the seasons every month of the year. At the touch of a button you can set your roof to provide shade, venting and protection from the sun during the hottest months.

Likewise simply open further to enjoy maximum winter sun right when it is needed most. The best of both worlds.

THE FINISHING TOUCH - ADD SHUTTERS + BLINDS

Victory's integrated range of shutters and blinds are designed to fit in perfectly with your Opening Roof. Motorised, hand-operated or fixed – there are plenty of design possibilities to enhance your home.
