

Welcome, come on in...

Choose one of our door designs, or we'll create one just for you

NC Doors created our Collections of decorative door designs you'll see below to help you make your selection. But, if you don't see one you love among the modern, classic or heritage styles we've pre-programmed, we can create a bespoke design to make a truly stunning 'opening statement' at your home.

But why stop at the front door?

Our computer-assisted technology allows us to take your idea and turn it into a one-off design that we can carry right through your home, from your entry door to the internal doors, special feature doors, bi-folds and sliding wardrobe doors. We also manufacture cavity or hinged energy-saving acoustic doors – perfect for a home office, media room or teen's retreat.

We design and make doors differently...

Every door we make is custom made for the frame it will hang in. We use a CAD profiling system to measure each frame's exact dimensions, capturing any variations. Why is that important? Because a precise fit ensures the door is more energy-efficient and balanced, so it performs perfectly year after year.

We've made installing your new doors easy

Next, NC Doors' craftsmen fabricate your doors from high-quality materials. A routing machine then shapes the panels for a millimetre-perfect fit, removing the hinge panels and other hardware 'cut outs' in the process. Your doors arrive ready to install – without all the usual costly joinery to prepare them for hanging.

Like them painted or stained? We can do that too!

NC Doors can even supply your doors professionally painted or stained, with hinges and other hardware prefitted in our factory – even pre-hung in a timber or metal frame.

It all adds up to rapid, mistake-free installation – whether you're a DIY home renovator or a licensed builder.

But, if you need a professional, it's good to know that NC Doors' installers are the best in the business.

ENTRY AND INTERNAL DOORS

Modern, classic, heritage... which style will give your home that wow factor?

Choose a design from one of our collections, or find one online and NC Doors will make one that's ready for quick, easy installation.

We can supply your doors with the hardware fitted and professionally painted or stained, ready to hang in minutes!

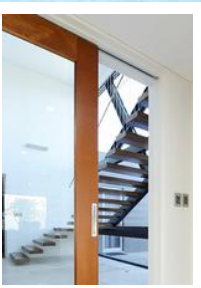

BI-FOLDS

Stylish yet functional, custom-made bi-fold doors can close off a room for privacy, or open it up to increase your living space.

CAVITY SLIDERS

When floor space is limited, cavity sliders are the solution. Our thermal-rated acoustic doors dampen sound and save energy year round.

SMART ROBES

Who said sliding or hinged wardrobe doors can't be functional and stylish, too?
