PSA Reflection

Your responses should be detailed and thoughtful. Provide specific examples and anecdotes to extend your ideas.

1. What did you learn about PSAs and creating PSAs during this unit?

2. Think about the planning of your film – what went well? What would you have changed? Explain.

3. After having gone through the editing process, what would you go back and change or do differently? After viewing your finished film, what works and what doesn’t?
