Ways to Conduct Research

1. **Use Media**
   This includes the online resources, books, articles, films, newspapers, etc.

2. **Conduct Interviews**
   Seek out people with expertise on your topic. You can conduct interviews in person, via Skype, phone or email. Consider reaching out to community resources and partners.

3. **Gather information from Experience, Experimentation or Observation**
   This is especially useful if you are researching an issue in your community.

4. **Conduct a Survey**
   Gather responses from a group of people. Identify collective knowledge or opinions. These can be turned into statistics or narratives.
