

**Above:** Another home built and decorated by Pettinato Construction. This kitchen/living room features more beautiful granite countertops supplied by Superior Granite. The unique lighting is a product of Advanced Lighting in Gulf Breeze.

**Right:** This beautiful master suite has an all-tiled bathroom with a curved glass block wall around the doorless entry shower. All tile and block work was performed by the talented group at Floored By Rick.

**Below:** One would think that this tub and shower was made of Corian or granite. However, it is actually a fiberglass insert with a special glazed finish. The countertop sitting on the maple cabinet is actually Corian.
