PREFERRED PROTECTION ROOFING SYSTEM LIMITED WARRANTY

Limitations on the transferability of this warranty are set forth herein.

WHO IS COVERED

To be eligible for this Preferred Protection Roofing System Limited Warranty, your property must be located in the United States and you must be the original consumer purchaser (i.e., the property Owner, not the installer or contractor) or the first transferee from the original consumer purchaser (Owner) of a complete Owens Corning™ Roofing System (Roofing System), as defined below, by Owens Corning Roofing and Asphalt, LLC (Owens Corning) and be in accordance with the **"Eligibility Requirements For This Warranty"** below. In addition, the entire Roofing System must be installed by an Owens Corning™ Roofing Preferred Contractor (PC) or an Owens Corning™ Roofing Platinum Preferred Contractor (PPC) according to Owens Corning application instructions. The Roofing System is comprised of Owens Corning™ shingles and accessory products (Roofing System). The Products (Products) which comprise the Owens Corning™ Roofing System are Owens Corning™ shingles, Owens Corning™ VentSure® ventilation, Owens Corning™ Hip & Ridge shingles, Owens Corning™ Underlayment, Owens Corning™ Starter shingles, Owens Corning™ WeatherLock® products, any No. 15 or No. 30 asphalt-saturated felt underlayment and Owens Corning™ Illuminator® Tube Skylight.

ELIGIBILITY REQUIREMENTS FOR THIS WARRANTY

1. Your Roofing System must be installed by a PC or PPC who shall install the roof as per the specifications outlined in 2–6, below;
2. Your Roofing System must be installed according to application requirements published by Owens Corning and in accordance with all generally accepted good roofing practices using American Roofing Manufacturers Association (ARMA) and National Roofing Contractors Association (NRCA) standard application guidelines and all local building code requirements which are in effect at the time of installation.
3. Your roofing system must be installed over a clean roof deck with all existing roofing material and debris removed. Including, but not limited to felt, ice and water membrane, raised nails, flashing materials for chimneys, skylights, soil pipe boots, ridge and off-ridge vents, etc. Repairs must be made to any damaged areas such as loose or cracked mortar on chimneys or rotten wood decking. Deck material must meet the following dimension tolerances: 6" minimum width, 25/32" minimum thickness roof deck boards, 3/8" minimum thickness plywood sheathing or 7/16" minimum thickness OSB (oriented strand board panels). Deck spacing cannot exceed 1/4" between roof boards or between plywood or OSB sheathing.
4. For your roof to qualify as a complete Roofing System, you must have purchased and installed Owens Corning™ shingles, any No. 15 or No. 30 asphalt-saturated felt underlayment, Fiberglas™ Reinforced Felt or Deck Defense® High Performance Roof Underlayment, and four (4) of the six (6) products (Products) listed below (one product from each category where applicable):
   a. Owens Corning™ VentSure® Ventilation products: If a VentSure® product is used it must be part of a balanced air ventilation system consisting of both functional intake and exhaust ventilation products. If a VentSure® intake vent AND VentSure® exhaust vent are both used, this will count as one (1) of the four (4) requirements. This warranty excludes Illuminator® Tube Skylight Solar Powered Dimmer, electrical components of the VentSure® Solar Attic Exhaust Fan, and VentSure® off-ridge exhaust vents.
   b. Owens Corning™ Hip and Ridge shingles.
   c. Owens Corning™ Underlayment products which qualify as the mandatory No. 15 or No. 30 asphalt-saturated felt underlayment. Using the Owens Corning™ Fiberglas™ Reinforced Felt or Deck Defense® High Performance Roof Underlayment will count as one (1) of the four (4) requirements listed above if applied over the entire deck.
   d. Owens Corning™ Starter Shingle products,
   e. Owens Corning™ WeatherLock® Self-Sealing Ice & Water Barrier Products, and
   f. Owens Corning™ Illuminator® Tube Skylight.
5. New metal flashing(s) and drip edge must be installed. Step flashing is required for sidewall, front walls and chimney applications. Counter flashing is required per NRCA guidelines where applicable; and
6. All required details and flashings must be correctly installed as per Owens Corning and NRCA requirements and in compliance with the above-listed Eligibility Requirements numbered 1 through 5.

Exceptions to the **"Eligibility Requirements for this Warranty"** section may be made in Owens Corning's sole discretion and must be approved in writing by Owens Corning prior to Roofing System installation.

WHAT IS COVERED

We warrant that your Owens Corning™ Roofing System is free from any manufacturing defects that materially affect their performance on your roof during the Tru PROtection® period or that cause leaks for the balance of the applicable warranty period. All non-Owens Corning™ products installed on your roof are excluded.

WORKMANSHIP TERMS

This warranty covers workmanship for a period of time as described in the terms below. Workmanship includes any defective installation of the Owens Corning™ Roofing System. The Workmanship Terms are only valid if the Owens Corning™ Roofing System is installed by a PC or PPC, per the terms and conditions of the Preferred Protection Roofing System Limited Warranty requirements.

PREFERRED PROTECTION WORKMANSHIP PERIOD

During the Preferred Protection Workmanship Period, if any part of your Roofing System is found to have an application defect or there are application errors in your Roofing System, Owens Corning will arrange to have your roof repaired or recovered or, at its sole option, will provide you with replacement roofing products and issue Compensation (**COMPENSATION** as defined below) for the full reasonable cost of labor and other materials to repair or recover your roof, including flashings at valleys, dormers, chimneys and plumbing vents. The costs of labor to tear off some or all of your Roofing System and disposal are included, if necessary, to repair your roof. Preferred Protection Workmanship Period is outlined in the **"Limited Warranty Information Table"**.

NOTE: First Two (2) Years. If your claim arises out of an application error which is discovered or discoverable within the first two (2) years after installation, it is the obligation of the PC or PPC who installed your Roofing System to make all necessary repairs. In the event that your roofing contractor is unable or unwilling to perform these repairs, Owens Corning will arrange to have your roof repaired.

HOW LONG ARE YOU COVERED

The length of your warranty depends on the type of Owens Corning™ Shingles you purchased. See the **"Limited Warranty Information Table"** at the end of this warranty to determine the warranty period that applies to your Owens Corning™ Shingles. If you make a claim under this warranty which results in a repair of your roof, this warranty will be unaffected, as long as the repair is done by a PC or PPC, and will continue to provide you with coverage on your entire Roofing System provided that Owens Corning™ Products are used in the repairs. However, if you make a claim which results in your entire Roofing System being removed and replaced, this warranty will be void. If new Owens Corning™ Shingles are installed, you will then receive an Owens Corning™ Standard Product Limited Warranty. However, if you once again install an entire Roofing System, you will be eligible to purchase a new Preferred Protection Roofing System Limited Warranty, (or other premium warranty), as long as the new Roofing System is installed by a PC or PPC per the **"Eligibility Requirements For This Warranty"** above.

1. TRU PROTECTION® PERIOD

During the *Tru PROtection* coverage period of this warranty, Owens Corning will, at its option and subject to certain limitations, compensate you to either repair, replace or recover Products that Owens Corning determines are defective, including the cost of tear-off, and disposal subject to certain limitations. *Tru PROtection* period excludes workmanship coverage. See the **"Limited Warranty Information Table"** at the end of the warranty for specific *Tru PROtection* periods that apply to the Owens Corning™ shingles you have purchased.

Under this Preferred Protection Roofing System Limited Warranty, all Owens Corning™ Products (see **"Eligibility Requirements For This Warranty"**) with the exception of the Illuminator® Tube Skylight Solar Powered Dimmer, electrical components of the VentSure® Solar Attic Exhaust Fan, and VentSure® off-ridge exhaust vents share the *Tru PROtection* period concurrent with the shingle installed. At the expiration of the *Tru PROtection* period, all Products revert to the coverage specified by their standard warranties.

Under the Preferred Protection Roofing System Limited Warranty, if a cut Owens Corning™ Supreme® Shingle is used instead of Owens Corning™ Hip & Ridge shingles, the warranty and *Tru PROtection* period for the *Supreme* Shingle is fifteen (15) years. The Owens Corning™ *Supreme* Shingles do not assume the warranty term for shingles used on the balance of the roof, unless the entire roof is installed with *Supreme* Shingles. The *Tru PROtection* period does not apply to Wind and Algae coverage. Please see **"What About Wind Resistance"** and **"What About Algae Resistance"** below for applicable coverage.

2. PRORATED PERIOD

Once the *Tru PROtection* period of this warranty has expired, the prorated period will begin. Owens Corning™ Products and labor will be covered, and we will take into account the number of full years of use you have enjoyed from the original installation date through the date of your claim, and reduce the amount of our Compensation to you accordingly. That is, we will prorate the amount of our Compensation to you through the date of your claim for any manufacturing defects that cause leaks for the balance of the applicable warranty period. For example: If you have a twenty-five (25) year warranty and you make your claim anytime in the fifteenth (15th) year of the warranty, our Compensation to you will be reduced by 14/25ths of the labor and Owens Corning™ Product cost at the time of purchase. For lifetime shingle coverage (for as long as Owner owns home), see the **"Lifetime△ Shingle Proration^ Table"** below.

3. OTHER TYPES OF STRUCTURES

The coverage for all Owens Corning™ shingles offered by this warranty applies only to single-family detached homes. In the instance of shingles purchased or installed upon property owned by, for example, corporations, governmental agencies, partnerships, trusts, religious organizations, schools, condominiums or cooperative housing arrangements, or installed on apartment buildings or any other type of building or premises not used by individual homeowners as their residence, the warranty period for Oakridge® shingles will be forty (40) years and all other lifetime shingles will be fifty (50) years from the original installation date of the shingles, and the *Tru PROtection* period will be twenty (20) years. Please see the **"Lifetime△ Shingle Proration^ Table"** below for the prorated formula after *Tru PROtection* coverage expires for lifetime shingles.

LIFETIME△ SHINGLE PRORATION^ TABLE

	Tru PROtection® Period		
Structure/Owner	**Years 1–50**	**Prorated Period Years 51 and Beyond**	
Single-family detached homes	100%	20%	
Structure/Owner	**Years 1–20**	**Years 21–40 Oakridge® Shingles Only**	**Years 21–50 All Other Lifetime Shingles**
Other types of structures	100%	50% reduced by 2.5% each year thereafter^	60% reduced by 2% each year thereafter^

△ For as long as Owner owns home.

^ Proration is calculated annually, based on the original installation date. There are no partial year prorations.

4. EXCEPTIONS

At all times, Owens Corning's obligation of Compensation for repair, replacement or prorated portion of the original purchase price of the defective Owens Corning™ Products is subject to certain limitations.

5. WHAT ABOUT WIND RESISTANCE

Your shingles contain asphalt sealant that requires direct warm sunlight for several days (Thermal Sealing) in order to seal properly. If your shingles are installed during a period of cool weather, they may not adequately seal until the weather warms, and if your shingles never receive direct sunlight or are not exposed to adequate surface temperatures, they may never achieve Thermal Sealing. Prior to Thermal Sealing, your shingles are more vulnerable to blow-offs and wind damage. This is the fundamental nature of shingles and not a manufacturing defect, and we are not responsible for any blow-offs or wind damage that may occur prior to Thermal Sealing having occurred. After your shingles have achieved Thermal Sealing, however, they will be covered under this warranty if they experience blow-offs or wind damage in winds up to the levels listed in the chart at the end of this warranty. HOWEVER, THE COVERAGE AGAINST SHINGLE BLOW-OFFS OR WIND DAMAGE IS IN EFFECT FOR A PERIOD OF FIFTEEN (15) YEARS FOR LIFETIME SHINGLES, AND FIVE (5) YEARS FOR *SUPREME* SHINGLES, FROM THE ORIGINAL DATE OF INSTALLATION. Owens Corning will be liable only for the reasonable cost of replacing blown-off shingles and Owens Corning™ Hip & Ridge shingles, if applicable (to include material and labor during the applicable *Tru PROtection* warranty period) and the reasonable cost of manually sealing the unsealed shingles remaining on the roof. Please refer to the **"Transferability of This Warranty"** below for applicable transfer coverage.

6. WHAT ABOUT ALGAE RESISTANCE

If the shingles that you purchased were not specifically labeled as **"Algae Resistant"** (AR), then any discoloration caused by algae is not covered by this warranty as explained in the section below, **"What Is Not Covered"**. However, if you did purchase AR shingles, they are covered for the period described in the chart at the end of this warranty (prorated after the first year) following the date of installation (**"AR Warranty Period"**) against brown-black staining caused by growth of blue-green algae (primarily the cyanobacteria Gloeocapsa magma). We do not cover

the effects of other growth such as mold, lichen, and green algae. If brown-black staining occurs during the AR Warranty Period, you will be entitled to the following remedy:

a. Remedy for Blue-Green Algae Growth—If your AR shingles are discolored by blue-green algae growth during the first year of the AR Warranty Period, we will cover the cost, including labor (such cost not to exceed the initial cost of the AR shingles plus the initial cost of installation), as reasonably determined by Owens Corning, to repair, replace or recover the affected AR shingles, subject to certain limitations. We will not cover any underlayment, metalwork, flashings or other related work, and we will not cover the cost to tear off or dispose of your AR shingles. For purposes of this AR shingle warranty, the term "repair" as used above refers to cleaning or otherwise removing any blue-green algae growth from affected AR shingles. Decisions regarding whether your AR shingles should be repaired, replaced or recovered will be made solely by Owens Corning.

b. Proration—If your AR shingles have been installed longer than one (1) year, labor will not be covered and we will prorate your Compensation to take into account the number of full years of use that you have enjoyed from the original installation date through the date of your claim. For example: If you make your claim anytime in the fourth (4th) year of the AR warranty and the AR warranty length is ten (10) years, our Compensation to you will be reduced by 3/10ths of the reasonable material cost of the affected Owens Corning™ AR shingles (such cost not to exceed 7/10ths of the cost at time of purchase of the Owens Corning™ AR shingles).

TRANSFERABILITY OF THIS WARRANTY (Based on original installation date)

Single-Family Detached Homes

You can transfer this warranty one (1) time, anytime during the life of the warranty. For this warranty to be transferred, the new Owner must complete and return the attached warranty transfer card, within sixty (60) days after the date of the real estate transfer to obtain the benefits of this warranty. Proof of purchase of the Owens Corning™ Roofing System and the installation date must be submitted at the same time. If the transfer takes place within the first fifteen (15) years for *Supreme* shingles or twenty-five (25) years for lifetime shingles, the second (2nd) Owner is entitled to the balance of the *Tru PROtection* Period and the Preferred Protection Workmanship Period is fully transferable in the first ten (10) years and will remain a ten (10) year workmanship period from the original date of installation. If the transfer occurs after the first fifteen (15) years for *Supreme* shingles or twenty-five (25) years for lifetime shingles, the balance of this warranty shall be reduced to a two (2) year period after the date of ownership change. Since the Preferred Protection workmanship period expires after ten (10) years, it is non-transferable after ten (10) years. If there is a manufacturing defect that causes leaks during this two (2) year period, our Compensation to the second (2nd) Owner will be based only on the reasonable cost of the replacement Roofing System reduced by the amount of use enjoyed from the original installation date through the date of your claim. The AR Warranty Period and Wind Warranty Period are fully transferable. The second (2nd) Owner will receive the balance of the coverage outlined in the **"Limited Warranty Information Table"** based upon the original installation date.

Other Types of Structures

You can transfer this warranty one (1) time, anytime during the life of the warranty. For this warranty to be transferred, the new Owner must complete and return the attached warranty transfer card, within sixty (60) days after the date of the real estate transfer to obtain the benefits of this warranty. Proof of purchase of the Owens Corning™ Roofing System and the installation date must be submitted at the same time. If the transfer takes place within the first fifteen (15) years for ***Supreme*** shingles or twenty (20) years on lifetime shingles, the second (2nd) Owner is entitled to the same coverage as the original Owner. If the transfer occurs after the first fifteen (15) years for ***Supreme*** shingles or twenty (20) years for lifetime shingles, the balance of this warranty shall be reduced to a two (2) year period after the date of ownership change. If there is a manufacturing defect that causes leaks during this two (2) year period, our Compensation to the second (2nd) Owner will be based only on the reasonable cost of the replacement Roofing System reduced by the amount of use the second (2nd) Owner and the original Owner have enjoyed from the original installation date through the date of your claim. The AR Warranty Period and Wind Warranty Period are fully transferable. The second (2nd) Owner will receive the balance of the coverage outlined in the **"Limited Warranty Information Table"** below.

REPLACEMENT SHINGLE VARIATION

As a result of our ongoing efforts to improve and enhance our shingle and Product line, we must reserve the right to discontinue or modify our shingles and Products, including their colors.
