

Home and Nursery Agreement for Children

Global Kids Day Care understand that we have a duty of care for all parents, staff and children who attend our settings and this agreement ensures to maintain the safety of all involved.

1. Global Kids Day Care have increased our cleaning schedules to ensure all toys and surfaces are cleaned regularly throughout the day and will ensure our premises remain clean at all times . In addition to the above. We will be ensuring to clean all contact surfaces used after each drop off and collection, including hand rails, buzzers and door handles where applicable.
2. We have also made an increased effort to limit the amount of contact children and parents have with other children and parents within our nursery from outside their household as much as possible. We have don't this by reviewing session times where needed and taken appropriate measures to ensure distancing remains within the setting as much as possible.
3. In line with the above we ask that all Parents adhere to specified drop-off and collection times and social distancing drop-off/collection procedures which will be allocated to you by the a nursery manager from each branch by the 1st June. Please relay any difficulties with these times at your earliest convenience. Where you aim to pick up or drop off outside of these times, parents are asked to call beforehand to ensure the appropriate measures are put in place.
4. Parents agree to ensure that the nursery is made aware of any health concerns relating to Covid 19 (Coronavirus) as early as physically possible and that they are adhering to Government guidelines in terms of social distancing and isolating where necessary. This includes isolating for 14 days if any member of the family are presented with symptoms (unless a negative test result has been obtained). Any child displaying will need to isolate for a minimum of 7 days.
5. Parents are to ensure that we have their most up to date contact details at all times and an emergency contact is always on standby to collect their child as soon as possible. (This is a precautionary method should they begin to show symptoms within the setting.)

6. Only children that are symptom free or have completed the required isolation period will be permitted to attend the setting. Parents are to wait until their child has had their risk assessed by a nursery manager before returning. (Nursery fees remain payable during this time whether your child is isolating or not).
7. Only one symptom free parent per family should be present at drop-off/collection where physically possible. Parents agree to not enter the building at any time unless an advanced request by a nursery manager has been made for you to do so.
8. Parents and staff should travel to nursery alone using their own transport, where this is not possible individuals agree to ensure they are following the current Government guidance in using public transport when doing so.
9. Parents are to discuss the importance of good hygiene and practice good hygiene methods with children at home to ensure they understand the correct methods and procedures of coughing, sneezing and washing hands where possible.
10. Staff are to ensure they oversee and encourage good respiratory health practices for the children at all times within the setting. This includes and is not limited to; washing hands on entry and regularly throughout the day, catching sneezes and coughs in tissue (washing hands after), and ensuring all toys and surfaces are cleaned after each session and at least twice throughout the day.
11. Parents are advised that we will be increasing our use of our outdoor play areas, as such appropriate clothing should be provided as well as skin protection cream/spray.
12. Parents agree to limit the amount of items brought from home (including comforters where possible) and to provide the nursery with comforters which can be kept on site (if applicable) and cleaned by us. In addition, parents agree to clean and change their children's clothes each day before they are brought into nursery. It may also be advisable to wash your child/ren when they return from nursery and place them in clean clothes to limit contamination at home.

13. Parents are to attempt to limit the use of buggies, scooters and all other travel items to ensure that these do not need to be kept on premises. When this is not possible, parents agree to keep these items outside of the nursery premises in prearranged storage areas. Please note: we will not be responsible for any items left.
14. Parents agree to comply with social distancing drop-off/collection procedures at all times (additional preparation time may be required to ensure you are able to comply safely).
15. If the need arises where we need to limit the amount of children within the setting due to distancing measures, priority will be given to children of Keyworkers and children who fall into a vulnerable category. We will speak with parents individually based on their needs at any such time.
16. We will endeavour to keep children spread out within the nursery premises and instruct staff to remain 2 metres apart from each other as much as possible. Due to the nature of our care, we will not be able to remain 2 metres away from children as we will need to comfort and support children needs as required. We will ensure to frequently wash our hands, contact surfaces, toys and equipment throughout the day.
17. Please ensure the nursery are provided with enough nursery supplies for your child/ren to last the week (i.e nappies, wipes, spare clothes etc) to limit the transfer of items from home to nursery. Where applicable and if storage permits, it may be advisable to bring in larger quantities of above items.

Our aim is to open up more spaces from the 1st June, but this will be delayed if we believe certain measures to protect children and staff can not be met on time. The safety of all is of paramount importance.

By signing this agreement, you agree to follow our guidance as set above. Failure to sign this agreement could result in your child not being able to attend.
