

BLUE SKY SCHOOL OF PROFESSIONAL MASSAGE & THERAPEUTIC BODYWORK

Potential Student Admission Discussion Questions

Applicant's Name: _____ Location: _____

Spring/Fall Class: _____ FT ___ PT ___ Program: _____

Tell me a little bit about yourself:

What made you interested in the "field" of massage therapy? Did you do research?
What did you learn?

Have you researched Massage Schools? What did you learn?

Why did you choose to apply for enrollment at Blue Sky?

When you hear the word massage, what words or feelings come to mind?

When and in what setting(s) do you think massage therapy would/should be used?

What do you anticipate your role as a massage therapist will be in the field?

List some examples of what comes to mind when you hear the terms “therapeutic” and “holistic”?

Do you plan on using your education for personal enrichment, as a part-time career or a full-time career?

What type of practice or work environment are you most interested in? Why?

Where do you see yourself in one year and in five years?

Are there any allergies, medical conditions, mental illness or other physical needs or limitations we should be aware of? Please Specify so we may discuss and make any special educational arrangements.

In Wisconsin once enrolled in a MT school you have to become licensed to practice, are there any misdemeanors or felonies that may prevent you from obtaining state license or national certification and/or entry into school?

Do you have any concerns on your transcript, low grades, attendance, and g.p.a., etc that we should be aware of?

List classes excelled in and didn't do well in and why do you think you performed as such?

Did you have any difficulties in the science classes? If so, Why?

Our science classes are taken from the start to the end of the program. They are intensive and may have a quiz or exam each week. In order to prepare you for our science classes, *if recommended*, would you be willing to attend an Introduction to the sciences class at an additional cost to you?

Do you have any diagnosed learning challenges or suspected undiagnosed learning challenges that Blue Sky should know about in order to assist or guide you better in your educational needs?

In the past, what has hindered your learning experience? How did you overcome it?

Describe your ideal learning environment for the classroom, for studying, for taking tests.

Can you give me a couple successful learning tools or techniques for learning that have worked for you?

How do plan on organizing/dealing with the school schedule – ie., the full-time program has 10 hours of in classroom time, homework, studying, outside hours like fieldwork, clinic, videos, seminars etc how do you plan to keep it all organized? If you work, how do you plan on scheduling enough time for school and work?

What support system do you have, people that can help you succeed?

Provide an example of how you handle stress in a classroom setting? How about general overwhelm?

What do you feel Blue Sky's responsibility is to its students & their education?

What do you feel is a student's responsibility to Blue Sky & your own education?

What is your plan for achieving success at Blue Sky?

Is there one thing you would like Blue Sky to know while considering your acceptance?
