

## National E-Waste Recyclers List

### **National Television and Computer Recycling Scheme**

### **All States, Location search**

"The National Television and Computer Recycling Scheme was established in 2011 to provide Australian householders and small businesses with access to industry-funded collection and recycling services for televisions and computers."

### **TechCollect**

### **All States, Location Search**

"Households and businesses are able to drop off their end-of-life and unwanted computers, computer accessories and TVs at sites throughout Australia and because TechCollect is fully supported by industry, this is completely FREE!"

### **Drop Zone**

### **All States, Location Search**

"Drop Zone provides a FREE recycling service for householders and small business to dispose of unwanted televisions, computers and computer products (such as printers, keyboards and mice), regardless of their age or brand."

### **E Cycle Solutions**

### **All States, Location Search**

"Play your part in the cycle. Feel free to drop off old appliances including TV's, computers and computer peripherals such as printers, monitors, mice and keyboards. Limits apply to small business customers."

### **EPSA**

### **All States, Location Search**

"If you've got e-waste, don't put it in landfill – recycle it with EPSA! We have collection sites all over the country, and recycling your TVs and computers is completely **FREE** to all residents and small businesses."

### **Reverse E-Waste**

### **All States**

"Reverse E-Waste was established in 2011, principally specialising in recycling and recovery of raw materials contained in electronic waste (e-waste). Our business is committed to ensuring that our recycling and material recovery practices meet and maintain the required ISO accreditation level of compliance recognised in the recycling industry."

### **ECOACTIV**

### **All States**

"ECOACTIV is a unique and environmentally robust offering in the market for product recovery services, reverse logistics and product stewardship."

### **SIMS Recycling Solutions**

### **All States, Location Search**

"Sims partners with local, national, and global businesses in the responsible reuse and recycling of end-of-life electronics and computers."

### **Computerbank**

### **VIC**

"Computerbank receives donated computers, laptops and tablets and refurbishes them with quality free software. Computers are donated to us by businesses, education institutions, not for profits and individuals. Our computers are offered to disadvantaged individuals and community groups."

### **MobileMuster**

### **All States, Location Search**

"MobileMuster is the Australian mobile phone industry's official product stewardship program. It's a free not for profit mobile phone recycling program that accepts all brands and types of mobile phones, plus their batteries, chargers and accessories. It is the mobile phone industry's way of ensuring old mobile phone products don't end up in landfill - but instead are recycled in a safe, secure and ethical way."

## National E-Waste Recyclers List

### **Storage King**

### **All States, Location Search**

"We are working with MobileMuster and ECOACTIV Product Recovery programmes to help collect and recycle unwanted consumer electronics, computer equipment and mobile phones. Check out our EWaste box in-store."

### **G1 Asset Management**

### **NSW, VIC, QLD, SA, WA**

"We collect redundant IT equipment & e-waste from businesses Australia-wide. Wherever possible, we will attempt to provide a free or low-cost service by using residual value from the disposed equipment to offset our costs."

### **MRI e-cycle solutions**

### **NSW, VIC, QLD, ACT, Location Search**

"We are pleased to say that almost all types of old and unwanted electronic and electrical equipment (i.e. e-waste) can be recycled – basically if it plugs in or has batteries (or indeed is a battery!) we can recycle it.."

Fee for service applies

### **Dell**

### **All States**

"Dell Asset Resale and Recycling: Whether your business owns or leases, wants to resell or recycle, Dell provides WEEE compliant, convenient, secure and environmentally responsible solutions for your used IT equipment."

"Free Consumer Takeback Service: Dell offers free recycling services for Dell and non-Dell equipment."

### **USR**

### **All States**

"With the help of United Star Resource it's easy to take action against e-waste in Melbourne. As an accredited e-waste recycling service provider in Melbourne, we present sustainable, affordable and environmentally friendly recycling solutions."
