

Are you ready for 2018?! We are excited to share with you that we have teamed up with The Blue Book Network to put together an amazing event you don't want to miss. Please join us at the Kandu Kick-Off for an industry mixer and networking event. Form business relationships and recognize, create, or act upon business opportunities, share information and seek potential partners! All proceeds from this event will benefit Pillar & Vine and The Family Resource Center.

Kandu Installations, LLC is founded on the principle of "The Customer Comes First" philosophy. We specialize in Security, Fire Alarm Systems, Surveillance Systems and Voice/Data Solutions. Whether you are building, remodeling, or adding equipment to an existing system, we can help home and business owners make life more convenient with our services. With over 25 years of experience and industry related training, we guarantee our customers will receive professional installations and service, backed by our 5-year warranty. We are available 24 hours a day, 7 days a week! Our contact information is provided below.

The Blue Book Building & Construction Network empowers the construction community to connect, collaborate, and grow by building more profitable relationships and providing the resources and opportunities necessary for success. They strive to be an indispensable driver of success in the construction industry. Today, The Blue Book Network has expanded its product and service offering to include free tools that are helping the entire industry improve its workflow - from design through post-construction. These innovative solutions enable construction professionals to find and spec products, share plans and specs, streamline bid communications and view, markup and takeoff project documents.

Pillar & Vine is a non-profit 501 (c)(3) therapeutic foster care agency that has programs that include foster care, respite care, family visitation services, mentoring, social skills, and other community services in partnership with Fond du Lac & surrounding counties. With more than 7,000 children currently placed in foster care in Wisconsin, the need for quality foster care services is great. Pillar & Vine is proud to provide quality services to our families and children in need.

The Family Resource Center is also a non-profit organization. They are dedicated to the healthy development of children and families through a variety of pregnancy and parenting programs. Families turn to them for many reasons – prenatal assistance and baby supplies, in-home parent education, and classes & play groups for parents of all backgrounds. The Family Resource Center believes that every family deserves support, education and resources, and the agency will utilize its knowledgeable, team-oriented staff, as well as other partnerships and collaborations to offer a truly holistic approach for improving the lives of all children and families.

We welcome your attendance as we continue to share our story & help families at the same time!

Sincerely,

Gail Biermann

Kandu Installations - General Manager
