To our patients,

Our dental has been open since June 15, 2020 and we are pleased to return. As our collective safety is the highest priority, we have instituted several new office protocols to limit risks of exposure to the novel coronavirus.

- 1.- When you receive a confirmation call/ text or email for your dental appointment, we will remind you to let us know if you have any symptoms of COVID (i.e. fatigue, shortness of breath or an elevated temperature in excess of 100 degrees F) as this may cause your appointment to be postponed.
- 2.- Call us from your car and let us know you have arrived for your appointment. We will let you know when you may come inside.
- 3.- Wear a mask when you enter the office. You may be accompanied by one person, if necessary, who also must wear a mask.
- 4.- Upon being escorted to your room we will have you use hand sanitizer, take your temperature, ask several health screening questions, and ask you to rinse with an antiseptic mouthwash.
- 5.- Following your visit we will have you use hand sanitizer and check out at the front desk. Please maintain social distance as appropriate.

We greatly appreciate your cooperation and patience!

The Office of Dr. Robert Watkins
