

TomatoJack Arts C.V.

Profile

TomatoJack Arts was co-founded by Angela Williams and Lynda Knott in 2011. Based in the heart of Gloucestershire, we specialise in making mosaic artworks for public spaces, schools and communities as well as teaching mosaic at all levels through workshops and parties. We have an individual approach to mosaic and work with glass and ceramic tiles as well as recycled materials to produce pieces that are vibrant, inventive and unique. TomatoJack have worked in partnership with many educational establishments and community groups encouraging creativity through making inspiring collaborative works of art. We are passionate about the inclusive qualities of mosaic – young and old of all abilities can participate in the making and appreciation of this long lasting artistic medium.
