CHASCo Member Survey

2016 Summary

- Friday, July 08, 2016

Prepared by
Jon Miles, PhD
Survey invitations were sent to all 37 CHASCo campuses
Only 30 CHASCo campuses have actively participated in 2015-16
18 people responded
14 people responded to social norms campaign questions (4 did not complete a campaign recently)
Results should be interpreted with caution because the response rate makes it likely that this sample differs from CHASCo as a whole.

For example, state/public schools responded at a somewhat higher rate (10/17) than private schools (8/20), so private schools are under-represented in the survey sample.
Question 2

How much does your institution spend in total on prevention activities for alcohol/other drugs?  (Note: This does not include staff and/or student salaries)

- 10 (56%)<br>- 6 (33%)<br>- 2 (11%)
Question 3: Our campus...
(check all that apply)

- Has a comprehensive alcohol and other drug (ADD) prevention plan....
- Has a clear alcohol use policy....
- Has a task force/committee that focuses on alcohol, drug and other prevention...
- Collects student-level data on substance use using the CORE survey...
- Has at least one full time staff member devoted to alcohol, drug and prevention...
Question 4: Did your campus engage in the following activities in the 2015-2016 academic year? (check all columns that apply)
Question 4 Continued: Satisfaction with the Activities

If our campus did this activity, I have been happy with how much this activity has been emphasized on my campus.

- Bystander intervention/training
- Strict enforcement of campus substance use
- Motivational speakers
- Early intervention (e.g., brief intervention)
- Screening for AOD problems/dependency
- Environmental policies to reduce campus alcohol
- Elective (not mandatory) prevention education workshops for...
- Social norms marketing
- Alcohol-free programming (alcohol-free activities)
Question 5: Which groups are already engaged in prevention on your campus (e.g., task force member, volunteer, collaborator, funder, etc.)? Check all that apply.
Question 6:

When did your campus last complete the CORE Survey?
Question 7: Rate your agreement with each statement:

5 = Strongly agree
1 = Strongly disagree

- The CORE Survey data are useful to my campus prevention efforts. Mean: 3.94
- I would like to work with the CHASCo evaluators to better understand the CORE Survey data. Mean: 4.06
- I feel that CHASCo provides the support I need to administer, understand, and report on the CORE results. Mean: 3.94
Question 8:

When did you last complete a social norms campaign?

- Before 2014: 4
- 2014: 3
- 2015: 1
- 2016: 7
- Never: 2
Question 9: Rate your agreement with this statement:
I feel that CHASCo provides the support I need to administer, understand, and report on the Social Norms campaign results.

Number of People Who Gave Each Response (Note: only 14 answered this question)

![Bar graph showing responses](image)

Strongly Disagree=1, Strongly Agree=5
(Mean Response Score =4.21)
Question 10: Who created your campus’ social norms campaign content/materials? (Check all that apply.)

These results based on 14 responses.
Question 11: Regarding me individually, CHASCo has ...

- Increased my understanding of evidence-based prevention activities.
- Increased my understanding of the causes of student substance use and abuse.
- Increased my understanding of the consequences of student substance use and abuse.
- Increased my level of comfort in dealing with AOD issues.
Q12: Regarding my campus institution, CHASCo has...

- Increased our ability to secure other (non-CHASCo) funding for prevention activities.
- Increased the effectiveness of our prevention activities.
- Increased our faculty, staff, and/or administration’s support for prevention activities.
- Increased our use of student-level data in developing prevention programming or policy.
- Increased the amount of money we used for prevention.
Question 13: Regarding the way CHASCo operates...

- I am very pleased with the support I get from CHASCo staff.
- I am very pleased with the support I/my institution gets from the CHASCo Executive Committee.
- In general, I understand my role within the CHASCo organizational structure.
- I am satisfied with what CHASCo has provided regarding my professional development.
Question 13 (continued): Regarding the way CHASCo operates...

If CHASCo had to rely exclusively on institutional volunteers to operate (i.e., no longer received grant funding to employ staff or pay for operations), our institution would still participate.

If CHASCo received funding from the alcohol industry, our institution would still participate.
Conclusions

1. Campuses would like help engaging *students* more than any other campus constituencies (e.g., faculty, staff, etc.).
2. Half of the campuses say the CORE is useful and most would like more help understanding it.
3. Most respondents are pleased with what CHASCo does for them individually.
4. Results are more mixed for how they feel CHASCo affects their campus prevention efforts.
5. Most campuses report they would still participate if CHASCo were entirely voluntary.
6. Only half say they would still participate if CHASCo received alcohol industry funds.
