

## DIXIE DOWNS RV RESORT

To All Homeowners and Renters

17 March 2017

We, as the board of Directors for Dixie Downs RV Resort, are asking for ALL homeowners, renters and visitors to help us in trying to maintain a clean and safe park and facilities. It is always fun to have our family visit and swim in the pool. In the winter months with all or most of the homeowners in residence the chlorine and PH balance in the pool is increased to accommodate the number of individuals swimming or using the hot tub. In the spring when all the snowbirds go home, the amount of chemical used is reduced to cover the number of residents that are full time in the park. When we have holidays or special events it is important to give a heads up so we can have the pool maintenance person increase the chlorine and the PH balance in the pool. Sometimes during holidays and high use the pool becomes milky. This is due to the number of individuals using the pool/ hot tub and not showering and etc.

It is necessary to have **EVERY INDIVIDUAL** sign in when using the pool. This sheet is located in each restroom.

Any visitor that uses **ANY** of our facilities is required to fill out a **GUEST REGISTRATION FORM**.
