

To Who It May Concern

12 November 2020

We have been utilising Truck and Equipment Service Co Pty Ltd (T&E) for all our servicing, maintenance and breakdown requirements for the past 15 years. T&E service our fleet of seven prime movers, eleven petrol tanker trailers and two body trucks. Our fleet consists of Kenworth, Volvo, Freightliner, Isuzu and Fuso trucks.

The fuel transport industry has strict compliance policies, which T&E always adhere to. We are proud of our relationship with T&E and have always found them to be very professional and honest.

If you have any further questions, please do not hesitate to contact me on the below details.

Yours Sincerely,

N Farran
