Reference – Truck & Equipment Service

Truck and Equipment have been preferred suppliers of Scott Freight Company for some 8 years now. They have operated in a manner that has been productive and cost effective. When hiring Truck & Equipment to operate on your equipment repair programs you also receive a service that withholds integrity, safety and a backup service that is second to none.

We have utilised them in all spectrums of maintenance programming. They are responsible and reliable for parts interpretation and supply. We are happy to state Truck and Equipment have delivered freight and parts in a timely manner to all areas of our business including remote, understanding that our work is seasonally based and cannot carry breakdowns for long periods of time.

We have requested them to work in both their cairns workshop and areas out to Normanton and remote station work.

Scott Freight runs a NHVR maintenance system in relation to all our machinery, and Truck and Equipment have been forthcoming in the maintenance protocols and fault recording and repair reporting that this system requires.

If you require further information please do not hesitate to contact us at any time.

Sincerely,

A handwritten signature in blue ink, appearing to be "Noel Scott", written over a blue diagonal line.

Noel Scott

Director
