Engineering Excellence
LEXCO
LEXCO, we manufacturer premium quality commercial cardio and strength products.

Our company has over 20 years of product design and manufacturing experience that has led to our products earning several industry awards for both design and quality. Our team carefully listens to our customers needs to provide equipment that meets or exceeds their demands.

We implement efficient processes throughout all stages of product development, procuring raw materials direct from foundries, using many standardized parts and by employing a highly skilled team to manufacture LEXCO products in our high-tech factory.

With our products exceptional quality and long history of reliability, LEXCO has become a trusted partner for health clubs, high-end fitness centers, large corporations, universities, government facilities and countless public institutions.

LEXCO provides an excellent value through maintaining the industry’s lowest cost of ownership. Our customers are our focus. We appreciate our customers and do our very best to provide world class post sale support.

ENGINEERING EXCELLENCE
LEXCO products are designed to provide superior biomechanics that ensure a safe, comfortable workout that achieves excellent results. They are easy to use with enhanced safety features and are energy efficient.

LEXCO Product Managers and Engineers - the details are their obsession.

From elite athletes who push the limits to beginners who simply want to increase their fitness level, our Product Managers and Engineers leverage vast amounts of data to verify product performance so the user’s goals are achieved.

LEXCO has forged our identity through our unique product designs and extensive laboratory and field testing that leads to excellent quality standards. Our DNA is reflected throughout our entire range of products and has led to our company receiving many design achievement awards such as Good Design and Red Dot Award.

At LEXCO, we put our customers first! It is our teams pleasure to provide training on product usage and maintenance training to ensure a pleasant post-sale experience.
