FOAM APPLICATIONS GUIDE

- #1030** A foam to be used when low cost is more important than quality. Good for light or occasional use, such as a spare mattress or camping pad. Widely used as mattress toppers. *Regular firmness, low quality.*
- #1115** Our "Super-Soft" foam. Widely used for thick seat backs. Also, commonly used for laminating to firmer foams to add plushness to seat cushions and mattresses while reducing cost. *Very soft firmness, good quality.*
- #1534** A very good foam and having slightly less cost than our most popular 2034 foam. *Regular firmness, good quality.*
- #1545** An extra firm foam widely used in church pews, dining, & office furniture. Recommended when there are no springs for support. *Extra firm firmness, good quality.*
- #1821** Great foam for seat back cushions & pillow topping for mattresses, *Soft firmness, very good quality.*
- #1832** Great foam for seat cushions & mattress toppers. Softer than #2034 pink for thick cushion applications. *Medium firmness, very good quality.*
- #1855** An extra firm foam widely used in high quality church pews, dining, & office furniture. Recommended when there are no springs for support. *Extra firm firmness, very good quality.*
- #2034** Our best quality to cost ratio foam. Very versatile, pink color. *Regular Firmness, very good quality.*
- #70150** Used widely in packaging & sound proofing, charcoal grey. *Super firm firmness, good quality for packing.*

Q Q16, Q30, Q35, Q55

Foams A very heavy foam of high density because of its' unique manufacturing process, that creates a better quality foam than any conventional foam while producing fewer emissions during the manufacturing process, therefore a cleaner environment. Must be seen & felt to be appreciated. These foams range from soft to extra firm. *Best quality short of latex.*

XL XL33 & XL50

Foams A Medium or Extra Firm High density, good quality foam. Primarily used in seat cushions & mattresses, For an above average, long lasting cushion. *Similar in characteristics to the Q Foams*
