Great news from ILVE

Living your home in a personal and engaging way. Cooking in a versatile, creative and professional way.

To love the people with whom we share our deepest passions and inspirations, as well as the flavours of nature, tradition, and technological and stylistic innovation. These values are the fundamental principles of ILVE research, a laboratory of ideas and creations that never stops, with constant fascinating and cutting-edge innovations.

The Panoramagic collection, which was created from an iconic project of Italian design, officially contributes to the ILVE catalogue by offering an exclusive range of cooking hobs, coordinated hoods and built-in ovens. Inspired by the timeless traditions of the kitchen, Nostalgie renews the aesthetic appeal of the built-in ovens, which are even more in harmony with the ambiances from the past, but with contemporary technologies and functions.

Maxi ovens are also new in Panoramagic, Nostalgie and Professional Plus styles. The last one is available in professional steel or black full glass structure. ILVE: great news to live, cook and love.
Panoramagic

A tradition of the contemporary kitchen that continues over time.

It was during the fantastic 1960s that ILVE launched Panoramagic: the freestanding model that revolutionised the panorama of the domestic kitchen. Today, this tradition of Italian style and technology continues to take charge and fascinate: in an updated form and with a full range of solutions to fit into any interior design.
Unique design that combines the technical features of professional kitchens with the Italian culture of the design, Panoramagic range cookers come in three models: 120 cm with a double oven and 90 cm with 6 burners or with an induction hob. Characterised at first glance by the tilted control panel, with large knobs fitted with integrated ignition and LED lighting, their aesthetic and functional strong point is the front handle. The design of the cast iron supports and shape of the red position marker on the knobs recall the hexagonal motif of the ILVE logo.
Panoramagic range cooker hobs offer professional quality performance thanks to the Dual gas burners that guarantee optimal delivery and perfect heat distribution. Made of brass, a noble material par excellence, they are protected further by a Total Black technology treatment. The induction version also guarantees high-level performance in total safety.

- Dual gas burners with power up to 5 kW as standard
- LED backlit knobs
- Total Black brass flame spreader with non-stick nanotechnological treatment
- Highly specialised hobs
- Hob with cast iron supports
High-performance ovens

The Panoramagic range oven provides you with all the space needed to cook large dishes, with precise temperature control that can be set from 30°C for perfect proofing, to 320°C for more demanding cooking. Intuitive and legible at all times, the TFT touch display makes it possible for you to view and control all functions.

- Large internal capacity
- Double oven with the 120 cm version
- Electronic temperature control

Hoods

Perfectly coordinated with the range cookers in terms of design, colour and metal finishes, Panoramagic hoods combine unmistakable aesthetic personality with skilful use of technologies. In addition to filtering and purifying the air that you breathe in the kitchen, they are fitted with infrared lights to keep food warm, just like in professional kitchens.

Ovens

The dimensions of Panoramagic in-built ovens are ideal for every space and need: 60 cm, 90 cm or 30” (76 cm). Both elegant and rational in design, they feature professional technologies to guarantee perfect cooking results: from the Quick Start quick preheating, to the precise temperature control, to the steam discharge for more or less moist cooking. The electronic TFT touch display is combined with the large knob with integrated LED, the unmistakeable aesthetic signature of the Panoramagic collection.

Nostalgie

Nostalgie is the ILVE collection that combines the latest generation technologies with stylistic references from the past. The new rounded profile of the glass of the built-in ovens is in line with the aesthetics of range cookers and evokes the magical atmosphere of the kitchens of the past while confirming the highest level of professional performance, in harmony with the space and today’s needs.

Combined ovens and cooking and storage systems

Behind the new and characteristic door with rounded glass, ILVE built-in ovens, ranging between 60cm and 90cm, have a large capacity and guarantee impeccable results thanks to the advanced technologies like the electronic temperature control, Quick Start function and the user-friendly, high definition TF touch display. The Ultracombi model has three cooking modes: microwave, convection and steam, also with the option of having two-by-two combined cooking. The 400° oven makes it possible for you to enjoy crispy, fragrant pizzas, just like eating out at a pizza restaurant, and also cooks any recipe to perfection.

↑ OV91SNT3/WHG
Nostalgie 90 cm built-in oven
White body and brass finishes
BC645SNTC
Built-in blast chiller

General features
- 3 racks
- Proofing
- Blast chilling from the oven to the fridge (+4°C)
- Freezing from room temperature to -20°C
- Rapid cooling
- Defrosting
- Ready-to-eat foods
- Slow cooking
- Sous vide cooking

Cavity features
- AISI 304 stainless steel muffle
- Capacity 40 L

Consumption
- Maximum input: 300 kW

Colour range
- White
- Antique white
- Stainless steel
- Graphite matt
- Burgundy red

Finiture
- Brass
- Burnished
- Chrome

Order code: BC645SNTC

AISI304 steel – the raw material par excellence used in the kitchens of the best restaurants – is the emblem of the Professional Plus collection. A top-performance system that further extends the range of built-in ovens in order to meet even the most demanding needs, being in harmony with different styles of furniture and always guaranteeing high professional kitchen performance in the home.
Combined ovens and cooking and storage systems

The new 90 cm Professional Plus ovens really offer “maxi” capacity of as many as 110 litres. They also come in the black “full glass” version for those who want to add a special aesthetic appeal to their cooking performances. They have cutting-edge functions such as precise electronic temperature control, Quick Start quick preheating and are equipped with knurled knobs, obtained directly from professional kitchens and which allow easier use even with gloves: a touch of functionality and extra safety.

Ultracombi

Functions

General features

• Operating temperature 30-250°C
• TFT touch electronic programmer
• Electronic temperature control
• Cooking probe
• Internal halogen light
• Triple glass cold door (EN60335-2-6-11.101)
• High density insulation
• Double speed cooling tangential ventilation
• Child safety

Cavity features

• Stainless steel AISI 304 muffle
• Internal dimensions 41.5×21×41 cm
• Capacity 36 L
• Thermostat with electronic probe

Consumption

• Maximum input: 3.4 kW
• Electric grill: 1900 W
• Circular heating element: 1600 W
• Steam generator: 1200 W
• Microwave generator: 1600 W

Built-in blast chiller

Functions

General features

• 3 racks
• Proofing
• Blast chilling from the oven to the fridge (+4°C)
• Freezing from room temperature to -20°C
• Rapid cooling
• Defrosting
• Ready-to-eat foods
• Slow cooking
• Sous vide cooking

Cavity features

• AISI 304 stainless steel muffle
• Capacity 40 L

Consumption

• Maximum input: 30 kW

Built-in vacuum packing machine

Functions

General features

• Marinating
• Dry-ageing
• 3-level sealing
• H2OUT: dehumidification cycle

Cavity features

• Internal dimensions 30×36×10 cm
• Capacity 7.5 L

Consumption

• Maximum input: 240 W
OV91STCT3

Oven electronic with maximum temperature 300°C 90 cm in glass

General features

- Energy class A
- Operating temperature 30-300°C
- Programmer TFT touch control
- Electronic temperature control
- Cooking probe
- Lighting Double internal light
- Automatic light switch-on when door opens
- Full glass oven door
- Soft-closing door
- Door glass Triple glass cold door (EN60335-2-6-11.101)
- High density insulation
- Ventilation cooling tangential
- Child safety

Cavity features

- Muffle with easy clean enamel
- Internal dimensions 74x36.5x41 cm
- Capacity 110 L
- Steam discharge controlled with dry or moist cooking option
- Folding grill heating element
- Rotisserie spit diagonal
- Thermostat with electronic probe

Consumptions

- Maximum input 2.95 kW
- Top electrical heating element 1200 W
- Bottom electrical heating element 1560 W
- Electric grill 2150 W
- Circular heating element 2100 W

Colour range

- Glossy black
