

JNILOCK[®]
DESIGNED TO CONNECT.

2014
PAVERS AND WALLS

OUR PROMISE

For over 40 years we've been committed to investing in the future of landscape design.

Today, we continue to lead the industry with the best selection of quality products and support.

We've made this commitment because at Unilock®, we believe that the outside of your home should be as beautiful, functional and welcoming as the inside of your home. So, it's no surprise more families are choosing to work with architects, designers and craftsmen who recommend our products.

If you're planning to landscape your home, we're confident that you'll be inspired by all that Unilock has to offer.

Product Selection

DESIGNED TO CONNECT™

A fire pit adds warmth and extends your season.

When entertaining family, friends or neighbors, seat walls provide additional seating.

A water feature will show off your vertical surfaces.

Add an accent of pavers, using a contrasting paver style and color.

Walkways connect all of the components of your outdoor room.

Grill islands transform a patio into an outdoor kitchen.

Add a personal touch to your overall design by creatively accenting with Unilock® borders and banding around your patio and other vertical features.

Changing elevation with steps helps define different spaces.

CREATING THE PERFECT OUTDOOR SPACE.

Whether your home is an intimate city dwelling, a comfortable suburban residence, a country retreat or a sprawling estate, Unilock® has the right products and design options to connect with your lifestyle.

DESIGN IDEAS

PAVING STONE DRIVEWAYS

COMPLEMENT THE DESIGN OF YOUR HOME

A Unilock® driveway will enhance the curb appeal of your home and demonstrate your pride of ownership. As you consider the materials that you will use, try to replicate, augment or complement the architectural features of your home. The size of a driveway is typically dependent on the width of your garage and cut-out at the curb. A graceful flair at the street edge will allow cars to enter and exit with ease.

CHOOSING THE RIGHT PRODUCT

Choosing the right product for your driveway is an important decision. Driveways are subject to a lot of use and abuse by vehicles, people, equipment and chemicals such as de-icing salt. Unilock products outperform other paving surfaces such as asphalt, poured concrete and stamped concrete. In addition, Unilock has pavers that repel dirt, oil and even chewing gum!

BORDERS, ACCENTS AND ACCESSORIES

For large driveways, wide borders and banding will help the area appear less overpowering. Unilock pavers are ideal for creating accents or borders. We even offer luminescent NighTec® pavers to help you park at night. Consider an accent design laid in the main paver area to add your personal signature to the project. To help you visualize the paver combination that best accents your home, order Unilock's life size Uvision™ sample swatches online or at 1-800-Unilock.

CONSIDER A PERMEABLE SURFACE

If a large portion of your lot is a hard surface or is subject to periodic flooding, permeable pavers are now an option. Most Unilock permeable pavers look just like our regular pavers so you don't have to compromise style when choosing an ecological solution. Whether you are installing a rainwater harvesting system, or just want to be ecologically minded by diverting rainwater back into the ground, specialized site preparation and installation techniques are required.

See more design combinations at unilock.com.

THE FRONT OF YOUR HOME

FRONT COURTYARDS – THE HOTTEST TREND!

One of the hottest front entrance design trends is the incorporation of the courtyard. Like front porches of old, a courtyard provides a cozy nook where you can sit and relax, connect with your neighbors or wait for your kids to arrive home from school. Include seat walls for a sense of privacy and casual seating or end pillars, which can be used to mount beautiful and functional lanterns.

COMPLEMENT THE EXTERIOR

The exterior of your home should set the stage for the design, textures and colors that you choose. Consider replicating, augmenting and complementing certain architectural features. Our life-size Uvision™ color swatches can help you decide which products best suit your home. Order your swatches online at unilock.com.

SCALE AND PROPORTION

Great front entrance design happens when you keep scale, proportion and function in mind. Remember, a front walkway should never be less than 4 feet in width at any point. The walkway should extend along the driveway 16 feet wide, to allow easy access from a car parked in the driveway.

ADDING CURB APPEAL

Any realtor will tell you that homes with great entrances sell faster and for more money. Consider making simple yet unique changes to your design by incorporating a border, planters, seat walls and pillars.

MAKE IT SAFE AND PRACTICAL

Making your entrance safe and practical is also very important. Consider adding lighting to your design with elements such as pillars with light fixtures, Skyfuel™ lights embedded in the pavers or NighTec® Pavers which glow in the dark. Lighting adds both class and functionality.

OUTDOOR LIVING SPACES

EXAMINE YOUR LIFESTYLE

As you begin your project design, think about how you want to use the space. Do you love to entertain large gatherings of friends or just an intimate few? Is outdoor cooking your passion? Are you looking for a quiet oasis in which to read or gaze at your garden? Does the perfect evening include watching the flames in a fireplace or fire pit? Perhaps you'd prefer to watch the game on an outdoor TV. Make a list of all your "must-haves".

CREATE ROOMS

As you design your outdoor space, create distinct areas for cooking, dining, entertaining and relaxing. You can define these spaces by changing the elevation with 1 or 2 steps, using complementary pavers for each area or by using banding to break up the areas. Seat walls are another excellent way to create this separation. They also provide added seating for large get-togethers and eliminate the need for extra furniture.

DESIGNING THE HORIZONTAL SURFACE

The floors of your outdoor rooms can be made more interesting by your choice of laying patterns or by using borders to create the look of an area rug for furniture groupings. Borders and inset lighting can also help to visually delineate steps. In cooking areas, or if you have messy eaters, Umbriano® or Belpasso® are excellent choices. These products feature EasyClean™, an integral surface protection that prevents stains and makes clean up easy.

CREATE THE VERTICAL DIMENSION

By adding vertical dimensions to your design, you can truly transform a patio into an outdoor living area. Grill islands, fireplaces, water features, seat walls, planters and pillars all add to an outdoor room. Repeating accents from the horizontal surfaces in the vertical surface, creates a harmonious and unified design.

POOL DECKS

DESIGN CONSIDERATIONS

There's more to designing a pool deck than meets the eye. If you have the opportunity to plan your design before the pool is installed.

Consider elevation so that you can properly plan steps, multilevel areas and retaining walls.

Drainage should always be away from the pool and your home. In areas where it is difficult to grade the pool decking, we recommend that you install drains that will transport excess rainwater to an appropriate location.

For basic pool access, a 4-foot perimeter is sufficient. However, if you intend to use the pool deck as a patio for entertaining or sunbathing, consider a larger size to accommodate the amount of furniture you wish to incorporate.

SELECTING THE RIGHT PRODUCT

Pool pavers should provide a non-slip surface and should be light in color so that the surface remains cool enough to walk on.

Inset borders not only help define the pool edge but also allow you to complement the colors of your home.

Pool coping is the edge closest to the water. Although almost any Unilock® paver can be used as a coping, there are some which are more suitable than others. Brussels Fullnose™ and Ledgestone™ are great choices because they don't have abrasive edges. Consider a contrasting color for your coping to help define the pool edge.

LIGHTING AND WATER FEATURES

Lighting is a great way to accent the surface texture and provide additional safety around the pool after sunset. Consider our NighTec® luminescent pavers or Skyfuel™ lights.

As well, water features add interest to your pool area both visually and audibly; there's nothing more relaxing than the sound of a gentle waterfall.

**SOMETHING
FOR
EVERYONE**

Whether you have acres of open space or a small city dwelling, Unilock® has a wide variety of paver and wall options that will fit your unique style, lot size and budget.

**MAKE A BIG IMPACT NO MATTER
THE SIZE OF YOUR PROJECT.**

STYLE

YOUR SIGNATURE STYLE

Unilock's versatile palette of colors, textures and European-inspired styles can help you create your own, one-of-a-kind outdoor space.

Whether you love the look of quarried stone, timeworn cobblestones, historic brick street pavers or a sleek modern aesthetic, Unilock® has a range of products to offer.

CHOOSE FROM:

- | Designer-inspired color palette
- | Sleek contemporary styles with clean lines
- | Vintage stone and weathered brick textures
- | Vast array of shapes, sizes and laying patterns
- | Some of the largest format sizes available on the market today
- | Compatible borders, insets and accents
- | Matching vertical elements for walls, steps, seating and pillars

THE COMBINATION OF COLORS AND PRODUCT TYPES IN OUR PATIO AND WALLS NOT ONLY CAME TOGETHER NICELY, BUT IT ALSO MATCHED THE REST OF OUR HOME AND PERSONAL STYLE.

KAHN FAMILY

TECHNOLOGY

WHEN YOU INVEST IN AN OUTDOOR SPACE FROM UNILOCK®, YOU'RE MAKING AN INVESTMENT THAT WILL STAND THE TEST OF TIME.

ENDURACOLOR™

Unilock® EnduraColor™ products deliver durability through a perfect union: **long-lasting color united with permanent strength.**

The top portion of each stone is engineered with concentrated color and special wear-resistant materials. This is permanently united with the stone's base - a sturdier, coarser foundation designed for remarkable strength.

THE RESULT IS AN EXCEPTIONALLY STRONG STONE WITH COLOR THAT ENDURES.

ADDITIONAL TECHNOLOGIES

EnduraColor™ Plus

A complex blend of nature's highest performing minerals are combined with non-fading color pigments to create ultra-realistic surface textures that are exceptionally durable.

Reala™ Surface Technology

Ultra-realistic textures cast from natural stone, brick and historic cobblestones.

EasyClean™ Stain Resistance

An integral surface protection that allows for easier cleanup of spills when they happen, and before a stain can develop.

Ultima™ Concrete Technology

For heavy traffic loads, this proprietary manufacturing process creates pavers and walls with up to four times the strength of poured concrete.

QUALITY

THE UNILOCK® DIFFERENCE

WHEN HELD, TOUCHED AND VIEWED SIDE BY SIDE, UNILOCK® PRODUCTS LOOK AND FEEL DIFFERENT, AND SET THE STANDARD FOR QUALITY.

EVERY UNILOCK PRODUCT IS:

- | Durable
- | Made with colorfast pigments
- | Slip resistant
- | Resistant to salt erosion
- | Resistant to chlorine
- | Designed to tolerate oil or gas spills
- | Backed by our Lifetime Guarantee

PRODUCT QUALITY

Unilock's manufacturing teams have an unrelenting commitment to shipping only top quality products. During the manufacturing process we:

- | Test all of our raw materials carefully
- | Perform hourly product density tests
- | Meet all dimensional tolerances
- | Ensure every stone is inspected by dedicated quality control staff
- | Exceed industry quality standards (ASTM & CSA)

Our world-class production facilities are renowned for their safety and cleanliness and are staffed with the most experienced production people in the industry. Our continual investment in the most technologically advanced equipment ensures we're able to provide the best in product quality, consistency and design.

OUR TRANSFERABLE LIFETIME GUARANTEE

Unilock® provides a Transferable Lifetime Guarantee on the structural integrity of our paving stones, slabs and retaining wall units for residential use. Any materials installed and maintained to our guidelines, and subject

to normal wear, that prove defective, will be replaced without cost. Color matching cannot be guaranteed and replacement labor is not included. Registration is required.

To register your project, visit unilock.com and follow the registration instructions. This must be done within 60 days of your dated proof of purchase. You will receive a Transferable Lifetime Guarantee Certificate for your records.

ASSURED

CHOOSING A PROFESSIONAL CONTRACTOR

WE RECOMMEND THE USE OF PROFESSIONAL LANDSCAPE CONTRACTORS FOR YOUR PROJECT.

You are making an important investment in your home. Don't let poor workmanship turn your ideal plan into a disappointment. Proper site preparation with the correct grading, base material and compaction is key to ensuring that your new patio or driveway looks great and stays even and safe for years to come.

The majority of installation costs are usually ground preparation and labor. Opting for a premium quality paver won't significantly increase the overall cost, so choose the best you can afford.

WHAT TO EXPECT FROM YOUR PROFESSIONAL CONTRACTOR:

- | A written quote for your project
- | A detailed drawing and/or computer rendering of your project containing all the features that you requested
- | Approximate start date
- | A reasonable estimate of the time required to do the job
- | References from homeowners with similar projects
- | A written confirmation of your contract with their installation guarantee clearly stated
- | Proof of liability insurance and workers compensation coverage
- | When comparing quotes, make sure that you compare on an apples-to-apples basis and understand service levels; cheapest is typically not the best choice

NEED A CONTRACTOR?
Contact us online or at 1-800-UNILOCK and we would be happy to connect you with a local Unilock® Contractor.

For more detailed information on how to choose a contractor, visit unilock.com and download "Before You Start."

03

THE CHOICE OF DESIGN PROFESSIONALS

Some of the same Unilock® products that you can use for your outdoor living space have been installed in some of the most prestigious commercial spaces in North America. Architects, landscape architects and engineers trust Unilock to bring their architectural vision to life and to withstand the toughest rigors of a commercial environment.

- 01** Barclays Center. Brooklyn, New York. **Design:** Forest City Ratner.
- 02** Trump International Hotel and Tower. Toronto, Ontario. **Design:** IBI Group.
- 03** Uptown Alleyway. Cleveland, Ohio. **Design:** Riverstone Company and Field Operations.
- 04** Buckingham Fountain. Chicago, Illinois. **Design:** Thompson Dyke & Associates.

02

THE CHOICE OF THE **BEST** **CONTRACTORS** & **CRAFTSMEN**

Like a good artist needs the right paint, the best contractors use the Unilock® palette of exclusive colors, textures and styles to showcase their creativity and workmanship. These artisans trust Unilock to continue to provide them with the tools they need for cutting edge design and installation standards that set them apart.

04

DRIVEWAYS

It's your home. You've worked hard to make it a place of comfort and contentment. A Unilock driveway is the exclamation point to the pride you feel every time you come home.

- | Safe non-slip surface
- | Withstands heavy vehicle weights
- | Will not break down from oil or gas spills
- | Resistant to de-icing salt
- | Withstands severe freeze-thaw cycles
- | Easy to clean snow from surface
- | Exceptional long-term surface performance
- | Perfect for permeable applications

A photograph of an outdoor patio area. In the foreground, there is a circular wicker coffee table with a glass top, holding a vase of orange and pink flowers. To the right, a wicker armchair with a white cushion is visible. The patio is paved with large, rectangular, light-colored stone pavers. A decorative border of smaller, reddish-brown pavers runs diagonally across the lower right portion of the image. In the background, there is a wicker sofa with white cushions and a large potted plant with orange and pink flowers. The scene is set outdoors with greenery in the background.

FINISHING TOUCHES

See how you can transform your outdoor project into a work of art by implementing some of the latest trends when it comes to borders, paver rugs, lighting, colored joint sands and wall accents.

Visit unilock.com for additional border and accent ideas. Try out our online Uvision™ paver selection tool to explore countless options for your signature design. You can also order life-size, true color Uvision sample sheets to help you make your final decision.

PAVER & WALL ACCENTS

Much like you would design a tile project inside your home, start by selecting a main paver and then consider complementing it with one or two accents. Beyond color combinations, we also recommend experimenting with various border widths. For a completely harmonious design, plan your walls, pillars and grill islands to complement your paver selection. Simply incorporating the same color banding in the wall as used in the paver surface will bring the entire project design together.

JOINT STABILIZING MATERIALS

JOINTING SAND IS USED TO FILL THE SPACE BETWEEN STONES TO LOCK UP THE PAVERS AND PREVENT MOVEMENT.

BASIC JOINTING SAND

Ordinary paver jointing sand can be used but performs best when stabilized using a joint stabilizing sealer.

POLYMERIC SAND

Polymeric sand is a combination of sand and binder specifically formulated for optimum paver lock up. The additional step of a joint stabilizing sealer is not required. This product is appropriate for most pavers but must be used with care to prevent hazing on finer surfaces. Speak to your contractor to be sure that polymeric sand is appropriate for the pavers you have chosen.

UNILOCK® EASY-PRO

Unilock® Easy-Pro is the ultimate paving stone joint compound. This no-haze, epoxy resin product is puncture resistant, permeable and eco-friendly (made with 60% renewable products). This product is ideal for pavers with especially wide joints but is not recommended for all applications. Speak to your contractor to be sure that Unilock Easy-Pro is appropriate for the pavers you have chosen.

PREVENTING WEED GROWTH

Weeds do not come from underneath the pavers. They come from seeds that blow into the joints from adjacent properties and germinate. The best way to prevent weed growth is to ensure that joints remain full of a solid jointing compound.

SMALL DETAIL, BIG DIFFERENCE.

By changing the jointing sand color, you can dramatically change the look and feel of your paver surface. Below are some examples that illustrate the difference in appearance. To envision your paver choice with different sand color options, visit unilock.com and watch how small details like this make a big difference.

Richcliff® (Dawn Mist)

ACCENT LIGHTING

Landscape lighting will enhance your new landscaping at night. But take a moment to also consider subtle accent lighting to define steps, drive or walkway edges and pool decks. Unilock® offers two durable, solar powered solutions. No wiring or batteries required!

- | Skyfuel™ solar LED lights are core-drilled into the paver, step riser or wall surface. They are totally encapsulated in a durable weatherproof unit.
- | NighTec® photo luminescent pavers look like regular pavers during the day as they absorb sunlight. After dark, they glow to safely show the way.

NighTec® paver during daytime.

NighTec® paver during nighttime.

Skyfuel™ unit.

Skyfuel™ unit (solar charged) placed into a paver.

ENDURACOLOR™ PLUS

EnduraColor™ Plus products promise long-lasting beauty through a proprietary blend of exclusive and superior ingredients.

A complex blend of granite and quartz, some of nature's highest performing minerals, are combined with non-fading color pigments that hold fast under UV light and extreme weather conditions. This combination is used to create ultra-realistic surface textures and unique style options that are exceptionally durable.

PRODUCT TECHNOLOGY

Reala™ Surface Technology

Ultra-realistic textures cast from natural stone, brick and historic cobblestones.

Ultima™ Concrete Technology

This proprietary manufacturing process creates pavers and walls with up to four times the strength of poured concrete.

Dawn Mist and Pebble Taupe

The random dispersion of color and granite particles creates the beauty of Umbriano's unique mottled surface, which resembles the appearance of natural granite. Umbriano's non-slip, stain resistant surface is an ideal selection for driveways, pool decks, patios, commercial plazas and offices.

PRODUCT TECHNOLOGY

EasyClean™ Stain Resistance

An integral surface protection that allows for easier cleanup of spills when they happen, and before a stain can develop.

ColorFusion™

A proprietary technology that disperses color randomly for a natural, granite-like appearance.

*Umbriano® 24" pavers are not suitable for vehicular applications.

Summer Wheat with Belpasso® (Castano) and Series 3000® (Black Granite) accents; Steps - Ledgestone™ Fullnose (Buff). Custom Fireplace

With more substantial proportions than Copthorne®, Town Hall™ is cast from original brick street pavers and offers a distressed, time-worn appearance. New Heritage colors contribute to this aesthetic. As well, with Unilock's ever-increasing focus on permeable pavers, Town Hall has been designed to satisfy both traditional and permeable installation methods.

ENDURACOLOR™

Unilock® EnduraColor™ products deliver durability through a perfect union: long-lasting color united with permanent strength.

The top portion of each stone is engineered with concentrated color and special wear-resistant materials. This is permanently united with the stone's base - a sturdier, coarser foundation designed for remarkable strength.

THE RESULT IS AN EXCEPTIONALLY STRONG STONE WITH COLOR THAT ENDURES.

The long, clean lines of new Artline reflects an emerging trend to minimalist, modern outdoor designs. Look for Artline in an exclusive number of colors that can be used separately or combined together to create graphic interest.

SPEAK TO YOUR CONTRACTOR ABOUT AVAILABILITY OF THESE PRODUCTS IN 2014

The moderate surface texture of Bristol Valley brings a new, refined elegance to outdoor applications where a more commonplace flagstone slab may have been used in the past. Subtle color blends add to an appearance of natural stone.

SPEAK TO YOUR CONTRACTOR ABOUT AVAILABILITY OF THESE PRODUCTS IN 2014

STONEMARK™

Unilock® StoneMark™ products are designed to add classic elegance to any project with all the surface texture and color variation of natural stone, but the durability and precision of a manufactured paver. Unlike natural flagstone textures that can feel coarse and trap dirt, our proprietary manufacturing process produces products that are smooth to the touch.

STONEMARK. FOR THE RUSTIC ELEGANCE OF NATURAL FLAGSTONE.

RIVENSTONE™

YORKSTONE™

RIVENSTONE™

Available in two nature inspired shades, Rivenstone™ combines the durability of concrete with the character and flexibility of natural stone. Its an ideal choice for those looking to add enduring quality and timeless appeal to walkways, courtyards, pool surrounds, terraces and patios.

CLASSIC

Unilock® Classic pavers are tried and true shapes and designs, some of which have been on the market for more than 30 years.

From traditional rectangular shapes, to larger format sizes, to the relaxed appearance of our tumbled pavers, there are many style options to choose from within our Classic paver collection.

BRUSSELS BLOCK®

Introduced by Unilock®, Brussels Block® is the original tumbled paver of North America. Its timeless warmth, relaxed appearance and tumbled finish make it a one-of-a-kind paver that reflects the design cues of quarried stone.

PERMEABLE PAVERS

Unilock® has been on the forefront of permeable paving in North America with European alliances that have allowed us to look into the future of how rainwater is captured, retained and managed for growing urban areas.

Originally a commercial endeavor, permeable paving is becoming an important residential best practice. Permeable paving is important for two main reasons: first to ensure that ground water levels are restored and/or maintained, and secondly, to harvest rainwater for use in irrigation and other household uses.

TOWN HALL™

ECO-OPTILOC™

Eco-Optiloc™ has gained worldwide acceptance as the paver of choice for performance and as an environmental solution for drainage. Only the patented “L” shaped design allows you to achieve a superior lock-up that can withstand even the heaviest of loads residentially and commercially. The innovative design of Eco-Optiloc creates small voids between the pavers, providing drainage into the sub-base and ultimately the water table.

(30.5cm x 61cm x 4.5cm)

PRODUCT TECHNOLOGY

Reala™ Surface Technology

Ultra-realistic textures cast from natural stone, brick and historic cobblestones.

BRUSSELS FULLNOSE™ & DOUBLE FULLNOSE™

Brussels Fullnose™ is perfect when a hard edge or corner is not appropriate in your landscape plan. With its smooth, rounded exposed edge, it's ideal for the front of steps and as edging around pools, driveways or walkways.

UNILOCK® ELEMENTS

by

HARMONY
OUTDOOR LIVING INC.

CREATION BEGINS WITH THE ELEMENTS. Unilock® outdoor living elements are beautifully crafted vertical features made by Harmony Outdoor Living Inc. that come pre-built from the factory and are easily placed in your backyard by a skilled contractor. These elements are beautifully designed and embellished with Unilock Select™ pavers, making it easy to match to your patio borders and banding for that cohesive look and feel. Designing your outdoor space with Unilock Elements will not only create a cozy outdoor room, but it will change how you entertain, relax with family, and where your family spends most of its time. Elements, an investment in your home and family!
