2"W x 3 1/2"H x 2"D

Brick Sill with Drip (1/2" wash)  
23 1/2"W x 3 1/2"H x 3"D

# INSTALLATION & WARRANTY

## FAQs

Here are some frequently asked questions about proper installation of Heritage Stone products.

**Q: How can I be sure my stone will be installed level?**

**A:** When laying out rows of stone, be sure to “snap” a chalk plumb line guide approximately every 6-8” apart on the scratch wall. This will ensure parallel and consistent lines to follow.

**Q: How can I make sure my stone follows a natural pattern?**

**A:** When laying horizontal lines, be sure to break the joint lines at least at every 6’ wide section. Break vertical joint lines at every vertical (Ex: Do not lay one vertical edge of a stone over another as it creates a “gutter” effect.)

**Q: How should I prep my doors and windows?**

**A:** Make sure all openings are properly flashed before applying stone. This prevents water seepage from going under the application which will cause it to fail. Visit the MMVA website at [www.masonryveneer.org](http://www.masonryveneer.org) for more information

**Q: Do I have to use grout?**

**A:** No, stone can be grouted or non-grouted. If it is a grouted application be aware that you can choose from several grout colors that match or contrast.

**Q: If I want a dry stack application, are there any special instructions?**

**A:** When selecting a dry stack grouted application, be sure the entire back perimeter of the stone is encapsulated with mortar to avoid water seepage behind the stone.  
*NOTE: If water seeps behind stones, it undergoes freeze and thaw shifts with weathering and subsequent release of the products from the substrate will occur over time.*

**Q: Can I use Hearthstones as pavers?**

**A:** No, Hearthstones are not approved for foot traffic.

**Q: Do you provide products for overhead installation (ceilings, overhangs, etc. with one surface adhesion)?**

**A:** Our larger stone products are not intended for use with one surface adhesion and are not covered by the warranty. However, overhead use with 2 or 3 side adhesion and smaller profiles may be used, but we advise talking to your Account Manager for warranty coverage before installation.

**Q: How close to the ground can these stones be installed?**

**A:** The stone should be installed no closer than 4” to the final grade or 2” to a hard surface (sidewalk, driveway, etc.).

**Q: How should I clean my stone?**

**A:** Do not use power washers or harsh chemicals on or around Heritage Stone products as damage may occur. Visit [www.proviaproducts.com](http://www.proviaproducts.com) for a complete listing of cleaning agents that are safe to use.

**Q: Will I need anything besides stone to finish my project?**

**A:** Possibly, it depends on the project. When there are transitions, etc., be sure to ask about trim and architectural accessories to give your project a polished and complete look.

**Q: Can I only use one kind of stone?**

**A:** Not at all, ask about our custom mixed stone applications when creating unique looks.

## Lifetime Limited Warranty

**Heritage Stone carries a Lifetime Limited Warranty against faulty manufacturing process or defective materials as follows:**

The installation must be in compliance with the applicable specifications and requirements and the stone subjected only to normal exposure and use. Heritage Stone guarantees its products against chipping, flaking, unsightly discoloration, or any other serious deterioration. Warranty coverage is limited to replacement or repair of defective materials only and does not cover labor to remove or replace materials. Warranty coverage is limited to the original purchaser. The manufacturer will not be liable for any damage or defects due to misuse, building movement, installation, acts of God, fire, or any other cause beyond the manufacturer’s control.

"To serve, by caring for details in ways others won't." It's not just our mission, but a way of letting our light shine every day at ProVia. We continually strive to put these words into action by providing unmatched quality and service. The P-icon symbolizes each employee's commitment to devoting the utmost care, pride and quality into each building product we manufacture...it's The Professional Way.
